Board of Directors' Report

Harel Insurance Investments & Financial Services Ltd.

Board of Directors' Report

For the nine months ended September 30, 2013

The Board of Directors' Report for the nine months ended September 30, 2013 ("the Reporting Period"), reflects the principal changes in the business situation of Harel Insurance Investments & Financial Services Ltd. ("Harel Investments" or "The Company") during this period, and it was prepared taking into account that the reader is also in possession of the Group's full Periodic Report for 2012 which was published on March 19, 2013 ("the Periodic Report").

The Board of Directors' Report in this chapter of the Periodic Report also contains forward-looking information, as defined in the Securities Law, 5728-1968. Forward-looking information is uncertain information regarding the future, based on information that the Company has at the time of preparing the report and including the Company's estimates or intentions at the date of the report. Actual performance may differ substantially from the results estimated or inferred from this information. In certain instances, sections can be found that contain forward-looking information, where words such as: "the Company/the Group estimates", "the Company/the Group believes", "the Company/the Group anticipates", and the like appear, and such forward-looking information may also be worded differently.

1. Description of the Company

1.1. General

Harel Investments is a public company, whose shares have been traded on the Tel Aviv Stock Exchange since 1982. The Company, together with its subsidiaries ("the Group") operates principally in the following areas:

In various sectors of the insurance industry, the Company operates through the subsidiaries: Harel Insurance Company Ltd. (wholly controlled) ("Harel Insurance"); Dikla Insurance Company Ltd. (wholly controlled) ("Dikla"); Interasco Societe Anonyme General Insurance Company S.A.G.I. (in which the Company owns 95.75% stake ("Interasco"), which operates in Greece in non-life insurance; Turk Nippon (in which the Company owns a 99.98% stake), which operates in Turkey; ICIC - Israel Credit Insurance Company Ltd. (ICIC) (in which the Company has a 50% stake) (Regarding the increasing of holdings in ICIC, see Note 5(3) to the financial statements), and E.M.I. - Ezer Mortgage Insurance Company Ltd. (wholly controlled), ("EMI").

In the long-term savings sector, the Company operates through subsidiaries which are provident funds and pension funds management companies, as follows:

Provident funds management companies: Harel Gemel and study Ltd. (wholly controlled) ("Harel Gemel"), Atidit Provident Fund Ltd. (wholly controlled) ("Atidit Gemel"), and the Tzva Hakeva Savings Fund - Provident Funds Management Company Ltd. (wholly controlled) ("Tzva Hakeva").

Pension funds management companies: Harel Pension Funds Management Ltd. (wholly controlled) ("Harel Pension"); Manof Pension Funds Management Ltd. (wholly controlled) ("Manof"); and LeAtid Pension Funds Management Company Ltd. (in which the Company has a 79% stake), which manages an old pension fund ("LeAtid").

In the financial services and capital market sector, the Company operates through Harel Finance Ltd. ("Harel Finance") (wholly controlled by the Company) and its subsidiaries: Harel Pia Mutual Funds Ltd. ("Harel-Pia"), Harel Finance Investments Management Ltd. (has a licensed investment advisor), Harel Financial Products Ltd. ("Harel Products") (which engages in financial products such as: ETFs, covered warrants and more). The products are offered to the public through the subsidiary Harel Sal Ltd. ("Harel Sal") which is a reporting corporation under the Securities Law and issues index products (covered warrants and ETFs)) and through the subsidiary, Harel Sal Currencies Ltd. ("Harel Currencies"), which is a reporting corporation that issues deposit certificates on different currencies.

The Group has been active in the insurance industry for approx 75 years, and as at 30 September 2013, it is Israel's first-largest Insurance Group, in the volume of premiums, with a market share of approx 20%. In health insurance the Group is the largest and most prominent in the market. In the non-life sectors the Group is the largest insurance group, and it holds fourth place regarding the volume of life-assurance premiums. In the new pension fund management sector as at 30 June 2013, the Group has a market segment of about 15%. In the provident fund management sector as at 30 June 2013, the Group has a market segment of about 7.7%. In the mutual fund management sector as at 30 June 2013, the Group has a market segment of about 15.1%.

The Company's own operations center on the management, control and supervision of the subsidiaries, ongoing planning of the Group's operations, and the initiating of activity and investments both directly and through the Group's companies.

1.2. Companies share holders

The Hamburger family (Yair Hamburger, Gideon Hamburger and Nurit Manor) holds (mainly through a holding company) 50.43% of the Company's shares.

2. Financial situation and results of operations, shareholders' equity and cash flow

2.1. Material changes in the Company's business during the Reporting Period

2.1.1. General Meeting

On January 30, 2013, a special Annual General Meeting of the Company took place. The items on the agenda were: (1) reappointment of the Company's auditors; (2) reappointment of members of the Board listed below, who are not external directors, for a further term of office: Yair Hamburger (Chairman of the Board), Gideon Hamburger, Yoav Manor, Yoseph Ciechanover, Liora Kavoras Hadar and Doron Cohen; (3) approval of payment of fixed compensation to Mr. Doron Cohen for his service as deputy chairman of the Yield-dependent Investments Committee (Members) of the Harel Group's financial institutions, and chairman of the Credit Committee of Harel Group's financial institutions.

The meeting approved all the items on the agenda.

2.1.2. Distribution of a dividend

Regarding the resolution to distribute a dividend, which was made in March 19, 2013 and was executed on April 17, 2013, see Note 12(17) to the financial statements.

2.1.3. A loan from a financial institution

Regarding a loan the Company took from a financial institution and relating financial institutions - see Note 9.C(8) to the financial statements.

2.1.4. An agreement to acquire half of the rights in a piece of real estate in Raanana

Concerning an agreement between subsidiaries which are financial institutions and Blue Square Real Estate Ltd. in connection with the purchase of half of the rights in an office block in Raanana - see Note 7.D(14) to the Financial Statements.

- 2.2.6. Acquisition of the Tel Aviv Stock Exchange Building
 - 2.2.1.Concerning the acquisition of the Tel Aviv Stock Exchange Building, see Note 13(3) to the financial statements.

2.3. Legislation and regulation regarding the Company's areas of activity

The following is a description of material changes in legislation and regulation regarding the Company's areas of activity since the Periodical Report:

2.3.1. General

2.3.1.1. Circulars

- 2.3.1.1.1. On August 8, 2013, the Commissioner published a circular on annual reporting concerning application of the provisions of the law by financial institutions. The circular stipulates that commencing with the annual financial statements to be submitted to the Commissioner for 2013, financial institutions must also include in these reports the Commissioner's authorization in connection with application of the provisions of the law by the Group's financial institutions, on various matters to be revised from time to time at the Commissioner's discretion.
- 2.3.1.1.2. On April 24, 2013, the Commissioner published a circular concerning the introduction of an insurance plan and provident fund articles, which prescribes a procedure for submission of notice of a new insurance plan or articles, or changes therein.
- 2.3.1.1.3. On January 15, 2013, the Commissioner published a draft circular concerning a list of the nostro assets of financial institutions at individual asset level, which eliminates Circular 2011-9-8. The circular stipulates that financial institutions will report to the Commissioner about the manner of investing the nostro monies which they manage by submitting a quarterly report with a list of assets at individual asset level. The circular prescribes provisions concerning the reporting format, frequency and the method of reporting. The provisions of the circular will apply to all financial institutions, excluding a sectorial provident fund management company from the annual reporting for 2012 onwards.
- 2.3.1.1.4. During the Reporting Period, the Commissioner published different parts of the consolidated circular which will replace all the Commissioner's circulars and incorporate all their provisions in one framework, including:
 - Introduction to the consolidated circular which defines the application and commencement of the provisions of the consolidated circular with respect to the source circulars that were and will be embedded in the various chapters of the consolidated circular and the status of the provisions.
 - Provisions regarding a non-life insurance policy this chapter contains the definitions of a general (non-life) insurance policy and provisions concerning the obligations of an insurance company prior to launching a non-life insurance policy, when entering into agreement with a policyholder for non-life insurance, during the period in which the non-life policy is in force and when handling a claim in a non-life insurance policy.
 - Provisions regarding a pension fund this chapter contains provisions concerning the obligations of a pension fund management company prior to launching a pension fund, provisions for managing a pension fund and managing the account of a pension-fund member, and the obligations of the pension-fund management company when entering into agreement with a customer and when handling withdrawals, transfers and claims in a pension fund.

- Provisions regarding a provident fund which is not an insurance fund or a
 pension fund this chapter contains provisions concerning the obligations of a
 management company prior to launching a provident fund which is not an
 insurance fund or a pension fund, provisions for a provident fund and an
 account in the said provident fund, and the obligations of a provident fund
 management company.
- Management of investment assets and the provision of investment-related credit - this chapter contains provisions concerning organizational and operating infrastructure, conditions and rules for the management of investment assets by a financial institution, specific conditions for management of investment assets by an institutional investor, for management of assets held against liabilities which are not yield dependent of insurance companies, and for management of assets held against the equity of a management company.

The provisions enter into force on January 1, 2014 and from that date new provisions and amendments to existing provisions will be published as part of the consolidated circular only.

2.3.1.1.5. On August 25, 2013, the Commissioner published a circular concerning outsourcing by financial institutions. The circular stipulates that a financial institution must establish a policy for the outsourcing of operations, to be approved by the Board of Directors and reviewed by the Board once every three years or when a significant change is made in its operating environment. Likewise, the Board of Directors must approve the outsourcing of activity. Before outsourcing any activity, the financial institution must examine whether the activity is significant to its operations and if this is the case - provisions were prescribed, in part concerning a review of the service provider before entering into agreement and a minimum list of the subjects that must be addressed in the outsourcing agreement. The financial institution must examine the materiality of the activity once every four years or if a significant change takes place in its business or in the outsourced operations. The provisions of the circular apply to all financial institutions from July 1, 2014, with respect to agreements that are drawn up from August 25, 2013 and thereafter. The renewal, change or expansion of an existing agreement after the publication date of the circular (excluding a change in price) will be deemed a new agreement to which the provisions of the circular will apply.

2.3.1.2. Drafts

2.3.1.2.1. On August 28, 2013, draft Control of Financial Services (Insurance) (Financial Statements) (Amendment) Regulations, 5773-2013 were published, and a draft circular was published concerning a revision of the provisions for the periodic reports of insurance companies. The purpose of the drafts is to improve the reliability and relevance of the financial information, by bringing forward the publication dates of the financial reports thus enabling the public to receive current and relevant information about a company's financial position and results of operations more quickly, enhancing transparency and improving the decision making capability of the readers of the reports.

2.3.1.2.2. The Commissioner's position

On July 10, 2013, the Commissioner published a position concerning principles for the wording of insurance plans, which include principles the purpose of which is to provide guidelines for the insurer when compiling an insurance plan so that it does not include discriminatory conditions and to ensure that it is clear and simple. Likewise, a list of practices which should be included in these insurance plans and a list of practices which should not be included in these insurance plans, was attached to the document of principles. The provisions of the document of principles with respect to insurance plans (including group insurance plans) which will be marketed for the first time commencing December 1, 2013, will become applicable on that date. Regarding insurance plans which are marketed before December 1, 2013, the provisions of the document of principles will be applied gradually based on the class of plan and the provisions and time schedules prescribed in the document of principles.

2.3.2. Life insurance and long-term savings

2.3.2.1. Provisions of law

On January 1, 2013, Control of Financial Services (Provident Funds) (Insurance Cover by 2.3.2.1.1. Provident Funds) Regulations, 5772-2012, were published. The regulations prescribed, inter alia, provisions concerning insurance cover which a management company may offer or purchase for its members, and the conditions of the insurance. An annuity provident fund may determine in its articles: cover for longevity, cover for risk of death cover for disability risks, and cover for waiver of payments. The cumulative cost of all the coverages shall not exceed 35% of the deposits. Premiums charged by an insurer which is an associate of the management company shall equal the premiums applied by the insurer in a similar policy for insureds with similar characteristics. Provident funds which do not pay an annuity and are not insurance funds may provide members with group life assurance and group work disability insurance. The insurance premiums on group policies will be calculated inter alia, according to the sum insured, the age and gender of the insured. Provisions were prescribed concerning preserving the insurance cover in the event that deposits are discontinued or money is withdrawn, and an instruction that premiums may not be collected from the severance pay component or from the management fees collected from the management company. Likewise, separate provisions were prescribed for group life assurance of an education fund.

Together with the regulations, on December 12, 2012, a circular was published which prescribes provisions concerning implementation of the sale of such insurance coverages.

Additionally, the following regulations were published:

Income Tax (Rules for the Approval and Management of Provident Funds) Regulations (Amendment no. 3) 5773-2012, which eliminates Articles 31 and 45 of the Income Tax (Rules for the Approval and Management of Provident Funds), 5724-1964, commencing January 1, 2013. Control of Financial Services (Provident Funds) (Application of Section 16(d)(6) of the Insurance Fund and Insurer Law) Regulations, 5773-2012. In this context, Section 16(d)(6) of the Provident Funds Law which empowers the minister to prescribe provisions with respect to the categories of insurance in which provident fund members may be insured and the conditions of such insurance policies was also applied to insurance funds and to an insurer who manages such a fund. The regulations commence on January 1, 2013.

- On September 10, 2013, the Knesset Finance Committee approved the Control of 2.3.2.1.2. Financial Services (Provident Funds) (Withdrawal of Money from a Provident Fund) (Accounts with a low accrued balance) (Temporary Order) Regulations, 5774-2013, according to which a member who has money in one of his provident fund accounts from the contributions made by the employee or the employer, that was deposited for the tax years preceding the 2008 tax year, may withdraw the retirement benefits from his account in the fund as a lump sum, subject to the following conditions: (a) no money was deposited in his account in the fund on or after January 1, 2012; (b) money was not transferred from or to the member's account from or to another provident fund, as applicable, on or after January 1, 2013; (c) the member's total accrued balance in all his accounts in the provident fund on the day befor January 1, 2013 is not more than NIS 7,000. Additionally, provisions concerning early notice that Management Company of Provident Funds send to the members' accounts were prescribed. The regulations will enter into force when they are published in the Official Gazette and they will be in force until March 31, 2015.
- 2.3.2.1.3. On September 10, 2013, the Knesset Finance Committee approved the Control of Financial Services (Provident Funds) (Management Fees) (Amendment) Regulations, 5774-2013. The amendment prescribes a provision whereby a provident fund that is not an insurance fund will be permitted to collect management fees from a member who has money from the component of the employee's or employer's contributions in one of his accounts, that was deposited for the tax years preceding the 2008 tax year, at the higher of: the maximum management fees prescribed in the regulations prior to the amendment or an amount of no more than NIS 6 per month, and this commencing January 1, 2016.

2.3.2.2. Circulars

- 2.3.2.2.1. On January 7, 2013, the Commissioner published a circular concerning a standard format for the transfer of information and data in the pension savings market, which lays out a "standard format" for the transfer of information to be used by financial institutions, licensees and other users of information about pension savings, as part of the different operations performed between them.
- 2.3.2.2.2. On April 24, 2013, the Commissioner published a circular concerning the introduction of an insurance plan and provident fund articles, which prescribes a procedure for submission of notice of a new insurance plan or articles, or changes therein. The circular replaces previous circulars from 2005 and 2006.
- 2.3.2.2.3. Regarding insurance plans and provident fund articles, the circular commences on July 1, 2013, and its provisions will also apply to announcements submitted prior to this date insofar as they have not been lawfully permitted for marketing. Regarding a group health insurance plan, the provisions of the circular will apply from January 1, 2014.

2.3.2.3. Instructions and clarifications

2.3.2.3.1. On January 3, 2013, the Commissioner published a letter addressed to the managers of financial institutions concerning the Income Tax (Rules for the Approval and Management of Provident Funds) Regulations (Temporary Order), 5771-2010. The letter stipulates that the Temporary Order from 2008, which was extended to include 2011 and 2012 as well, only allowing money to be deposited in the severance pay component of provident funds which do not pay an annuity, will remain in force until the end of three months from the commencement of service of the incoming Knesset.

On August 27, 2013, the Commissioner published a circular concerning a ruling in 2.3.2.3.2. principle with regard to management fees that were increased without giving advance notice ("the Ruling"). The Ruling concerns the restitution of management fees to members, in those cases where the management fees were increased without prior notice, as required in Regulation 53B(a) of the Income Tax (Rules for the Approval and Management of Provident Funds) Regulations, 1964 ("the Regulation"). According to the Ruling, no later than January 1, 2015, management companies must review all the accounts in which management fees were increased during the period commencing January 1, 2006 and ending December 31, 2009 ("the Restitution Period"), and it must refund any excess charges to members from whom management fees were collected not in accordance with the Regulation, and who are not covered by one of the exclusions mentioned in the Ruling. Financial institutions are exempt from conducting an individual review and from refunding money in certain cases, inter alia, where management fees on members' accounts were determined by agreement or according to an arrangement between the management company and the employer or a workers' union and where the provident fund was managed by a management company owned by a bank during the restitution period. Financial institutions are exempt from refunding money in certain cases, inter alia, where the member was informed of the rate and period of the benefit, and where the fees were increased after notice was submitted to the member, and the company has documentation of the notice;

The financial institutions that are part of Harel Group are in the process of preparing a work plan in accordance with the provisions of the Ruling and they have made reasonable provision in the management companies' books in relation to the Ruling.

2.3.3. Health insurance

2.3.3.1. Circulars

On August 19, 2013, the Commissioner published a circular concerning prescription in an insurance contract which includes cover for disability insurance. The purpose of the circular is to prescribe provisions regulating the handling of applications for an extension of the prescription period in disability claims, beyond the prescription period prescribed by law (3 years). The circular stipulates that the insurer must accede to a written request from the insured to extend the prescription period by at least two years, from three years after the accident or illness has occurred, as well as to further requests to extend the extended prescription period by at least one year each time. A condition for such requests for extension is that the insured's medical condition makes it impossible to investigate the disability during the prescription period or that the disability is still under medical investigation. The circular prescribes provisions for disclosure to the insured concerning the option for extending the prescription period, as above. According to the Commissioner's position which was published on 26 August 2013, if the insurer fails to comply with the disclosure obligation specified in the circular, the Commissioner will consider, according to the circumstances of the case, if the insured will be deemed to have submitted a request to extend the prescription period on the dates stipulated in the circular.

The provisions of the circular will apply to policies for accidental disability, personal accident, and any other policy which includes cover for disability insurance, except for policies in accordance with the requirements of the Motor Vehicle Insurance Ordinance [New Version], 5730-1970, liability insurance, work disability insurance, including work disability which includes total, permanent disability, and professional liability insurance. The circular will commence on January 1, 2014 and the provisions pertaining to the disclosure to the insured for the option to extend the prescription period in an insurance policy and in the Schedule will apply only to policies which are marketed or renewed after December 1, 2014.

- On August 29, 2013, the Commissioner published a circular concerning the preparation of 2.3.3.1.2. long-term care insurance policies (which amends a circular on the same subject from December 19, 2012), as follows: (a) provisions concerning the possibility of selling a policy with a long waiting period, that is not conditional on a basic policy, subject to a written declaration submitted by the insured according to the text provided in the circular; (b) a prohibition on marketing or renewing a plan that includes cover for long-term care insurance in a group policy, excluding renewal of a group policy in which the policy period ends no later than December 31, 2013, renewal of a group policy in which the policy period ends no later than March 31, 2014 (under the same or beneficial conditions), the marketing or renewal of a group policy that was approved in advance and in writing by the Commissioner of Insurance, or a group policy for members of healthcare funds; (c) the insurance benefits will be paid for the period commencing from the end of the waiting period prescribed in the policy, and calculation of the waiting period will commence from the date on which the insured event first occurred; (d) for an insured who is entitled to receive insurance benefits, premium payments will be waived during his period of entitlement to the insurance benefits. This is contrary to the previous circular which stipulated that the insured is released from premium payments during the period in which the insurance benefits are paid; (e) an insurer shall not condition cancellation of a long-term care insurance policy on the cancellation of any other insurance cover, product or service. This is contrary to the previous circular which stipulated that the insurer will not condition the cancellation of any insurance cover, product or service conditional on the cancellation of a long-term care policy that is associated with that insurance cover, product or service; (f) provisions concerning the manner of presenting the paid-up values and premium tables to insureds in the policy schedule. The provisions of the circular will apply to any policy that includes long-term care insurance cover as noted in the circular, which is marketed or renewed from June 1, 2014 onwards. Provisions concerning the display of information on the website and regarding the sending of information to the insured at his request will also apply to policies that were marketed or renewed from September 1, 2003, and are still in force.
- 2.3.3.1.3. On August 29, 2012, the Commissioner published a circular concerning the preparation of a critical illness insurance policy. The circular prescribes the following provisions, among others: (a) by June 1, 2014, the definitions of the illnesses in critical illness policies to be marketed or renewed after this date must be revised, in accordance with the appendix to the circular; (b) insurers shall submit critical illness insurance policies that have been revised in accordance with the circular to the Commissioner by March 1, 2014, and timetables and provisions were prescribed concerning contact with existing insureds asking them to enroll in the new policy;

(c) insurers will review the definitions of critical illnesses in their policies from time to time, and at least once every three years, and must update them, where necessary, so that the definition of the illness specified in the policy is based on accepted medical definitions and severe cases of the listed critical illness, which are common. The update will apply to policies that are marketed or renewed from the date of the revision onwards, and the insurer will contact existing insureds and allow them to move over to personal lines policies with revised definitions; (f) a shortlist of illnesses was prescribed to be covered by any insurance plan called a "critical illness policy"; (g) provisions were prescribed concerning the obligation to present information on the website and concerning the documentation of databases on which the definitions rely. The provisions of the circular will commence on June 1, 2014 and they will apply to a policy in which one of the key, principal coverages is compensation of a pre-agreed amount in the event of a critical illness that is marketed or renewed from the commencement date, even if it is not called a critical illness policy. Concerning a group policy for critical illness insurance, the provisions of the circular will commence on the commencement date of the circular or when the policy is renewed, whichever is later.

2.3.3.2. Instructions and clarifications

On January 23, 2013, a letter addressed to managers of the insurance companies was published concerning group long-term care insurance - outline for elderly insureds, which determined that an insurer shall offer all holders of group policies which include long-term care insurance (except for health funds), who belong to the target population (insureds aged 60 or more who are insured through group policies with a waiting period of no more than 12 months or where the group policy came to an end during the three years preceding the commencement of the application of the outline and it was not renewed by another insurer and the waiting period in the policy is not more than 12 months), an option to renew the group insurance in new, group policies which are identical for all the groups insured by the insurer. The circular prescribes provisions concerning the date of the renewal, notice given by the policyholder of enrolment in the outline policy and the inclusion of insureds, who are part of a group whose policyholder has decided to enroll in the outline policy. Insureds in a target population, whose policyholder has decided not to renew the group policy for them as part of the outline policy, will be entitled to move over to a (follow-on) personal lines policy as instructed by the Commissioner, in this instance, the conditions of the contract signed with the policyholder and conditions of the present group policy. The insurance in the outline policies will be renewed without a fresh review of any pre-existing medical condition and with no qualifying period. Likewise, the main conditions of cover in the outline policy and key terms of the additional cover were determined. Application of the foregoing is expected to significantly affect the volume of activity in the group long-term care sector.

2.3.3.3. Draft Commissioner's position concerning compensation in cover for private surgery in Israel

On July 8, 2013, the Commissioner published a draft position concerning compensation in cover for private surgery in Israel. The draft document stipulates that commencing from the date of publication of the provision as binding, an insurance plan which covers private surgery in Israel and allows the insured to choose between indemnity for the cost of the surgery and monetary compensation for surgery performed as part of the Supplementary Health Services or in the public health system will no longer be approved, and that from January 1, 2014 such plans may no longer be marketed.

2.3.4. General insurance

2.3.4.1. Calculation of the insurance reserves for non-life (general) insurance

On February 21, 2013, Control of Financial Services (Insurance) (Calculation of Insurance Reserves in Non-life Insurance) Regulations, 5773-2013, were published, prescribing the manner of calculating the insurance reserves to be held by a non-life insurance insurer.

Together with the regulations, the Commissioner published a circular concerning the calculation of insurance reserves for non-life (general) insurance. The circular sets forth provisions concerning the manner of calculating reserves in non-life insurance, specifying the manner of calculating the provisions which an insurer must include in the reserves, and instructions for calculating reserves for excess income over expenses in the branches of insurance which are specified in the circular. Commencing March 31, 2014, there will no longer be a requirement to calculate reserves for excess income over expenses. The provisions of the circular apply to all the insurance companies from the date of the onset of the regulations.

2.3.4.2. Provisions of law

On January 30, 2013, draft Control of Insurance Business (Conditions of a Contract to Insure Homes and their Content) (Amendment), Regulations, 5773-2013, were published which propose amending the Control of Insurance Business (Conditions of a Contract to Insure Homes and their Content) Regulations, 5746-1986, which prescribed, inter alia, the standard policy for household insurance and contents.

2.3.4.3. Circulars

On July 3, 2013, the Commissioner published a circular concerning variables in the compulsory motor branch, in which context an appendix in the circular was updated with respect to compulsory motor insurance premiums and the variables and categories which may be used for defining the premiums by category of vehicle. The provisions of the circular will apply to premiums in policies which enter into force commencing February 1, 2014. Insurance companies may set the insurance tariff in the compulsory motor insurance branch according to some of the variables listed in the circular commencing July 7, 2013, subject to obtaining the Commissioner's prior approval.

2.3.5. Capital Market and Financial Services

2.3.5.1. Provisions of law

- 2.3.5.1.1. On April 5, 2013, Joint Investments in Trust (Distribution Fees) Regulations (Amendment), 5773-2013 were published which entered into force on May 5, 2013. According to the regulations, the maximum rates of distribution fees which distributors who are not investment marketers (mainly banks) may charge fund managers for distribution of a fund, were reduced in line with the fund's maximum level of exposure to shares. Following the entering into force of the regulations and subsequent to an undertaking by Harel-Pia, as part of an outline agreed upon with the Securities Authority ("the Outline"), commencing on May 5, 2013 the rate of management fees which Harel-Pia collects from the funds which it manages was reduced, in line with the Outline. Harel-Pia believes that the effect of the foregoing on its financial position, the results of its operations and its cash flows is not significant.
- 2.3.5.1.2. In September 2013, as part of the preparations for Amendment no. 21 to the Joint Investments in Trust Law, 5754-1994 ("the Funds Law"), the Israel Securities Authority [ISA] published a proposal for comments from the public on an amendment to Section 49 of the Funds Law and Regulation 41 to the Joint Investments in Trust (Report on a Joint Investment) Regulations ("the Proposed Regulations"). In accordance with the explanation to the Proposed Regulations, Section 49 of the Funds Law will be amended within the context of Amendment no. 21 to the Funds Law, so that a portfolio manager who is part of the group of companies to which the fund manager belongs ("associate portfolio manager"), who holds 25% or more of the net value of the fund's assets for his customers, will be considered an "associate entity" and various obligations and limitations will apply to the fund manager who belongs to the group of companies to which the associate portfolio manager belongs ("associate fund manager"), who manages such an "associate fund". These obligations and limitations include that the fee paid to the fund manager for the fund will not exceed the average rates paid to the fund manager for all the funds of that class that he manages, and the fund supplement will not exceed the average supplement rates in any of the funds that he manages ("the proposed amendment").

The Association of Mutual Fund Managers strongly objects to the proposed amendment and it has sent its comments to the ISA. At the date of the report, no response on these comments has yet been received from the ISA. Insofar as such provision is passed, it is expected to have a negative effect on the Group's performance.

2.4. Capital market development

2.4.1. General

The global economy presented an improved macroeconomic picture during the third quarter of 2013: further growth in the US, a halt to the weakening of the emerging markets, and positive indicators from the Eurozone .

In the housing market and private consumption, employment figures continued to improve although more slowly than during the first half of the year. In Europe, macroeconomic data for the third quarter show improvements in the economy and expectations of further positive growth during the year. Recent indicators in China point to improved growth rates in the third quarter of the year, after a slowdown in the previous quarter. The forecast for the tapering of the US Federal Reserve asset purchase plan contributed to an outward flow of capital from some of the emerging markets, which in turn generated sharp devaluations of their local currencies .

Against the backdrop of the sluggish global growth, many central banks in the developed countries continued their expansionist monetary policy.

2.4.2. The Group operates in the Israeli economy, where the political, security and economic situation affect its activity in various sectors. Changes in the state of the Israeli economy may lead to changes in the volume of premiums and other revenues and to a change in the operating costs of the Group's companies. A change in employment levels in the Israeli economy may affect the volume of activity in life insurance and long-term savings.

2.4.3.Stock markets

The TA-100 index rose 6.6% in Q3 2013, completing an increase of 8.9% from the beginning of the year. Average daily turnover of shares and convertible stock increased during the third quarter by 11% to NIS 1.2 billion, an 11% increase compared with average turnover in 2012 but still 30% lower than the average turnover recorded in 2011.Bonds Market

2.4.4. The general bond index rose by 1.8% in the third quarter of 2013, completing an increase of 3.9% from the beginning of the year. During the quarter, the government bond index rose 1%, increasing 2.1% overall from the beginning of the year. The corporate bond index rose 3.1% in during the quarter, completing a total increase of 7.2% from the beginning of the year.

2.4.5. Mutual Funds

Net amounts of NIS 10.8 billion were raised in the mutual funds market during the thurd quarter of 2013, and the sector raised NIS 42.5 billion from the beginning of the year, in contrast with NIS 20 billion for the whole of 2012. all the amounts raised from the beginning of the year can be attributed to the funds specializing in bonds (NIS 19 billion) and the money-market funds (NIS 22 billion).

2.4.6. Index products

According to the Association of ETFs, the index-linked certificate market manages assets in the amount of NIS 91.9 billion at the end of the third quarter of 2013, compared with NIS 69 billion at the end of 2012, a 33% increase. from the beginning of the year the deposit certificates were particularly strong and raised NIS 9 billion, as were the ETFs specializing in foreign shares, which raised NIS 6.8 billion.

2.4.7. Foreign Currency Market

During the third quarter of 2013, the shekel strengthened by 2.2% against the dollar (to NIS 3.537 / 1 USD) and overall it was 5% stronger against the dollar from the beginning of the year. The dollar weakened 1.1% against the euro during the third quarter (to NIS 4.7734 / 1 EUR) but from the beginning of the year it was 3% stronger.

2.4.8. Inflation

According to the last known index during the third quarter of 2013 the inflation amounted during the last 12 months until the index of the month of September to 1.3%, after a rose of 1.3% during the third quarter.

2.4.9. Bank of Israel Interest

During the third quarter of 2013, the Bank of Israel Interest was 1.25%. in the end of September 2013 the Bank of Israel lowered the interest rate for October 2013 by 0.25% to 1%.

2.5. Summary of data from the consolidated financial statements of Harel Investments

2.6. Additional figures regarding outcomes of activity

The total amount of the premium earned from insurance business during the Reporting Period amounted to NIS 7.64 billion compared with NIS 6.79 billion during the corresponding period last year, a growth of 12% compared with the corresponding period last year.

The total earned premium from insurance business amounted to NIS 2.57 billion in the third quarter of 2013, compared with NIS 2.33 billion in the corresponding period last year, an increase of 10% compared with the same period last year. The total amount of the premium earned from insurance business during the reporting including at first the premium earned by insurance activity which was purchased from Eliahu Insurance Company Ltd. ("Eliahu Activity") (Regarding the acquisition of the life insurance segment from Eliahu Insurance Company Ltd. see Note 5(1) to the financial statements).

The total sum of premium earned from insurance business during the reporting period, neutralizing the premium earned, in respect of Eliahu Activity amount to NIS 7.45 billion compared with NIS 6.79 billion during the corresponding period last year, a growth of about 10% compared with the corresponding period last year.

The comprehensive income, which consists of profit after tax for the reporting period plus the net change in a capital fund in respect of available-for-sale financial assets and other changes in shareholders' equity, was NIS 434 million for the Reporting Period, compared with comprehensive profit of NIS 495 million for the corresponding period last year, decrease of 12% compared with the corresponding period last year. The decrease in the comprehensive profit is due mainly to the effect of the capital market, where yields were significantly lower than those in the corresponding period last year. gaps effect on yields in the capital market conditional mainly from no collection of variable management fees in the corresponding period last year compared collection variable management fees of NIS 115 million during the Reporting Period, the financial performance for the corresponding period last year Were negatively of NIS 38 million Pre-tax and NIS 25 million after tax. a revision of the Company's estimates concerning obligations for annuity based on the revised longevity estimates and future improvements in longevity.

^{**} Total assets managed by provident fund, pension funds, mutual funds and in portfolio management are not included in the Company's consolidated financial statements.

Comprehensive income in the third quarter of 2013 amounted to NIS 144 million, compared with a profit of NIS 262 million for the corresponding quarter last year. The decrease in Comprehensive income attributed largely to the impact of the capital market where yields were lower, compared to the yields in the corresponding quarter last year, and to the effect of the index, which was higher in the Reporting Period from the index corresponding quarter last year. gaps effect on yields in the capital market and index effect offset partly due to financial performance for the corresponding period last year Were negatively from no collection of variable management fees compared collection variable management fees in the third quarter of 2013 of NIS 47 million, and due to an update in the corresponding quarter last year of the Company's estimates for obligations for annuity, in the amount of NIS 14 million before tax, and NIS 9 million after the effect of tax.

Net profit for the Reporting Period was NIS 450 million, compared with NIS 339 million for the corresponding period last year, growth of 33% compared with the corresponding period last year.

Net profit in the third quarter of 2013 amounted to NIS 114 million, compared with a net profit of NIS 166 million for the corresponding quarter last year.

Pre-tax profit during the Reporting Period amounted to NIS 703 million compared to pre-tax profit of NIS 529 million during the corresponding period last year, an increase of about 33%.

Net pre-tax profit for the third quarter of 2013 was NIS 186 million, compared with net pre-tax profit of NIS 268 million for the corresponding period last year.

During the Reporting Period profits from net investments and funding income amounted to NIS 3,096 million, compared with income of NIS 2,833 million during the corresponding period last year. The increase stems from the increase in the scope of the assets under management, which was achieved despite the fact that the yields were lower than during the corresponding period last year.

The Company's financing expenses which were not attributed to the operating segments, amounted to NIS 126 million for the Reporting Period, compared with NIS 118 million. The increase in financing expenses can be attributed mainly to the raising of hybrid tier-3 capital by Harel Insurance.

The Company's equity as of September 30, 2013, relating to the Group shareholders amounts to NIS 4,258 million, compared to equity of NIS 4,147 million as of December 31, 2012. The change in equity stems from: (a) comprehensive profit attributed to the Group shareholders of NIS 434 million; and (b) a dividend distribution in the amount of NIS 308 million; (c) immaterial amounts for translation fund of external activities, holding company shares by a subsidiary running an exchange traded note and issue of options to employees.

For details concerning the regulatory capital requirements from the group's insurance companies and from the provident fund management companies and the pension fund, based on the Commissioner's circular on the subject of capital requirements for insurance companies, including details about the effect of the commencement of Control of Financial Services (Provident Funds) (Minimum Capital Required of a Management Company) Regulations, 2012, see Note 8(4) to the financial statements.

2.7. Life Assurance and Long Term Savings

Comprehensive income in life insurance and long-term savings during the Reporting Period amounted to NIS 312 million, compared with comprehensive loss of NIS 207 million in the corresponding period last year.

The incline in profit can be attributed mainly from collection variable management fees of NIS 115 million during the Reporting Period, compared with no collection of variable management fees in the corresponding period last year; and because the update made during the corresponding period last year in the estimates of the company; concerning its obligations for annuity were revised, based on revised estimates of longevity and future improvements in life expectancy, in scope of NIS 38 million before tax and NIS 25 million after tax; the increase in comprehensive income offset partly from the effect of the capital market, where yields were lower than those in the corresponding period last year and due to decrease in the profitability of provident fund activity due to the reform of management fees (for additional information about the reform of management fees, see Note 7.D(7) to the Financial Statements).

Comprehensive income in the life assurance and long-term savings segment in the third quarter of 2013 was NIS 99 million, compared with a comprehensive profit of NIS 134 million in the corresponding quarter last year. The decrease in profit is mainly due to the impact of the capital market where yields were lower than those in the corresponding period last year, to the effect of the index (CPI) which was higher during the Reporting Period than for the corresponding period last year, and due to a decline in the profitability of provident fund activity resulting from the reform of management fees, as detailed above. These effects were partially offset by an update in the corresponding quarter last year of the Company's estimates for obligations for annuity, in the amount of NIS 14 million before tax, and NIS 9 million after the effect of tax.

Pre-tax profit in life assurance branch and long term savings during the Reporting Period amounted to NIS 307 million, compared to pre-tax profit of NIS 128 million during the corresponding period last year.

Pre-tax profit in life assurance branch and long term savings during the third quarter of 2013 amounted to NIS 70 million, compared to pre-tax loss of NIS 91 million during the corresponding period last year.

Life assurance

2.7.1. Total premiums earned during the Reporting Period amounted to NIS 2,827 million, compared with NIS 2,407 million during the corresponding period last year, a 17% increase compared to the corresponding period last year. Premiums earned during the Reporting Period constituted 37% from the total premiums earned in the Group during the Reporting Period. Total premiums earned during the third quarter of 2013 amounted to NIS 918 million, compared with NIS 810 million during the corresponding period last year, a 13% increase compared to the corresponding period last year.

During the reporting period the premiums earned in life assurance segment in respect of Eliahu Activity were included for the first time. The total premiums earned in life assurance, neutralizing the premium earned in respect of Eliahu Activity amounted to NIS 2,668 million, compared with about NIS 2,407 million during the corresponding quarter last year, a 11% increase compared to the corresponding quarter last year.

Single premiums were recorded during the Reporting Period in a total amount of NIS 29 million, received from Bezeq's retirees transaction and from Discount's transaction, as opposed to single premiums at the amount of NIS 115 million, received from Bezeq's and Discount's transaction during the corresponding period last year.

Comprehensive income in life insurance during the Reporting Period amounted to NIS 251 million, compared with comprehensive income in life insurance of NIS 129 million in the corresponding period last year. The increase in comprehensive profit stems mainly from collection variable management fees of NIS 115 million during the Reporting Period, compared with no collection of variable management fees in the corresponding period last year and because the update made during the corresponding period last year in the estimates of the company; concerning its obligations for annuity were revised, based on revised estimates of longevity and future improvements in life expectancy, in scope of NIS 38 million before tax and NIS 25 million after tax.

Comprehensive income from life assurance in the third quarter of 2013 amounted to NIS 79 million, compared Comprehensive income of NIS 105 million in the corresponding quarter last year. The decrease comprehensive income is mainly due to the impact of the capital market where yields were lower than those in the corresponding period last year, To the contrary the third quarter of 2013, the Company collected variable management fees of NIS 47 million, whereas during the same quarter last year it did not collect any variable management fees, and to the fact that in the corresponding period last year the company update the estimates obligations for annuity of NIS 14 million Pre-tax and NIS 9 million after tax.

Pre-tax profit in life assurance during the Reporting Period amounted to NIS 244 million compared with pre-tax profit of NIS 51 million during the corresponding period last year.

Pre-tax profit in life assurance during the third quarter of 2013 amounted to NIS 50 million compared with pre-tax profit of NIS 63 million during the corresponding period last year.

During the Reporting Period revenues amounted to NIS 664 million and constituted approximately 2.7% of the average reserve in life assurance, compared to revenues for the amount of approximately NIS 572 million during the corresponding period last year that constituted 2.7% from the average reserve last year.

The total amount of life assurance reserves as of September 30, 2013, amounted to NIS 37.4 billion.

Yield-dependent policies:

	Policies issued from 1992-2003					
	1-9.2013 (in percent)	1-9.2012 (in percent)	7-9.2013 (in percent)	7-9.2012 (in percent)		
Real yield before payment of management fees	5.52	6.22	2.11	4.02		
Real yield after payment of management fees	4.34	5.77	1.69	3.88		
Nominal yield before payment of management fees	7.64	8.47	3.43	4.91		
Nominal yield after payment of management fees	6.43	8.01	3.00	4.77		

Following are the yield rates on yield-dependent policies - General track

	Policies issued from 2004					
	1-9.2013 (in percent)	1-9.2012 (in percent)	7-9.2013 (in percent)	7-9.2012 (in percent)		
Real yield before payment of management fees	5.55	6.59	2.21	4.31		
Real yield after payment of management fees	4.62	5.64	1.91	3.99		
Nominal yield before payment of management fees	7.67	8.84	3.53	5.20		
Nominal yield after payment of management fees	6.72	7.87	3.22	4.88		

The estimated amount of investment profit (loss) and management fees included in the consolidated income statement, which were credited to or debited from insureds in yield-dependent policies, and which are calculated according to the instructions prescribed by the Commissioner, on the basis of the quarterly yield and balances of the average insurance reserves, is (in NIS millions):

	1-9.2013	1-9.2012	7-9.2013	7-9.2012
Profits after management fee	1,495	1,480	741	925
Total management fees	262	114	98	39

Pension funds

2.7.2. The number of members in the pension funds managed by the Group as of September 30, 2013, is 772 thousand members, 417 thousand of which are active members, a 3% increase in the number of active members compared with December 31, 2012.

The extent of assets managed by pension funds as of September 30, 2013, amounted to NIS 23.5 billion compared with NIS 18 billion on September 30, 2012, a 30% increase and compared with the extent of assets of NIS 19.4 billion as of December 31, 2012, an increase of 21%. The increase in comparison to the corresponding period last year can be attributed to a one-time transfer of NIS 975 million resulting from the agreement with the IDF concerning the pension arrangement for career soldiers (for additional information, see Note 42.D in Chapter 3 of the Periodic Report - Financial Statements) and to an increase in the amounts of provisions of members in the return received during the Reporting Period.

Contribution fees that were collected by the Group's pension funds during the Reporting Period amounted to NIS 2,973 million, compared with NIS 2,262 million on the corresponding period last year, a 31% increase. The increase can be attributed mainly to the impact of the deposits arising from the agreement with the IDF, and to an increase in the number of member and amounts of provisions of members.

The total amount of the assets of the pension funds and the contribution fees deposited therein are not included in the consolidated financial statements of the Group .

The total amount from management fees collected from pension funds managed in the Group during the Reporting Period amounted to NIS 161 million, compared with NIS 143 million in the corresponding period last year, a 13% increase.

Total revenues from management fees which were collected from the pension funds managed by the Group amounted to NIS 55 million in the third quarter of 2013, compared with NIS 50 million for the corresponding quarter last year, an increase of 10%.

Expenses in connection with the management of pension funds amounted to NIS 121 million, compared with NIS 112 million for the corresponding period last year.

Total expenses in pension activity amounted to NIS 41 million for the third quarter of 2013, compared with NIS 38 million for the corresponding quarter last year.

Total pre-tax profit from management of pension funds and operating an old pension fund during the Reporting Period amounted to NIS 43 million, compared with NIS 36 million during the corresponding period last year.

Pre-tax profit from the management of pension funds and the operation of an old pension fund amounted to NIS 15 million for the third quarter of 2013, compared with NIS 13 million for the same period last year.

During the Reporting Period positive yields were recorded in most of the investment tracks in the capital market. The rates of the nominal yields obtained by the new pension funds managed by the Group are as follows:

For the nine months ended September 30, 2013

Fund name	Comprehensive yield (in percent)	Investment yield (in percent)	Demographic yield (in percent)
Harel Gilad Pension	8.62	8.01	0.57
Harel - Manof	8.98	8.05	0.86

For the three months ended September 30, 2013

Fund name	Comprehensive yield (in percent)	Investment yield (in percent)	Demographic yield (in percent)
Harel Gilad Pension	3.90	3.71	0.18
Harel - Manof	4.01	3.69	0.30

Provident funds

2.7.3. As of the Reporting Date the Group manages 10 provident funds (provident funds, education funds, central and personal severance pay funds, a provident fund for sick pay and budgetary pension fund) which together have 35 investment tracks for members to choose from.

The volume of assets in the provident funds managed by the Group as of September 30, 2013, amounted to NIS 26.1 billion compared with NIS 23.5 billion as of September 30, 2012, and compared with NIS 24.2 billion as of December 31, 2012, a 11% increase in relation to September 30, 2012, and an increase at the rate of 7.6% compared to 31 December 2012.

The provident funds' assets and benefit contributions are not included in the Company's consolidated statements.

Income from management fees collected from the provident funds managed by the Group during the Reporting Period amounted to NIS 146 million, compared with NIS 165 million for the corresponding period last year, a 11.7% decrease that stems from the erosion of the average management fee's rate (For additional information about the reform of management fees - see Note 7.D(7) to the financial statements).

Total Income from management fees collected from the provident funds managed by the Group during the third quarter of 2013 amounted to NIS 46 million, compared with NIS 55 million for the corresponding period last year. For details about ruling in principle with regard to management fees that were increased without giving advance notice in Provident Funds, see note 12(4) to the financial statements.

Provident fund expenses amounted to NIS 127 million, compared with NIS 124 million for the

corresponding period last year. Provident fund expenses in the third quarter of 2013 amounted to NIS 42 million, compared with NIS 41 million for the corresponding quarter last year.

The total pre-tax profit of the provident funds activity included in the consolidated profit and loss statement in the life assurance and long term savings branch during the Reporting Period amounted to NIS 20 million compared with NIS 42 million during the corresponding period last year. The decline in profit stems from the erosion of the average management fee's rate (For additional information about the reform of management fees - see Note 7.D(7) to the financial statements).

The total pre-tax profit of the provident funds activity in the third quarter of 2013 amounted to NIS 5 million, compared with NIS 14 million during the corresponding period last year.

The provident funds' net accumulation (excluding profits from investments) during the Reporting Period was negative and amounted to NIS 472 million compared with negative accrual of NIS 351 million for the corresponding quarter last year.

2.8. Health Insurance

Premiums earned in the health insurance sector totaled NIS 2,361 million for the Reporting Period, compared with NIS 2,109 million for the corresponding period last year, a 12% increase. Total premiums earned in health insurance during the Reporting Period, accounted for 31% of all premiums earned by the Group.

Total premiums earned in the healthcare insurance segment during the third quarter of 2013 amounted to NIS 833 million, compared with NIS 747 million for the corresponding period last year, an increase of 11%.

The total amount of earned premium in health insurance segment, in respect of Eliahu Activity, was included for the first time. The total premiums earned in health insurance segment, neutralizing the premium earned in respect of Eliahu Activity amounted to NIS 2,332 million, compared with NIS 2,109 million during the corresponding quarter last year, a 11% increase compared to the corresponding quarter last year.

During the Reporting Period the health insurance sector posted comprehensive profit of NIS 136 million compared with a comprehensive profit of NIS 194 million in the corresponding period last year, a 30% decrease. The decrease in comprehensive profit during the Reporting Period Stemming mostly from the group policies, as a result of the erosion of premiums due to increasing competition and the increase in the rate of claims and from the effect of the capital market, where yields were lower than those in the corresponding period last year.

Comprehensive income in the healthcare insurance segment in the third quarter of 2013 was NIS 51 million, compared with NIS 99 million for the corresponding quarter last year. The decline in profit in the third quarter of 2013 stems Due to increasing competition and the increase in the rate of claims in these policies, and to the effect of the capital market, where yields were lower than those in the corresponding period last year.

Pre-tax profit in health insurance sector totaled NIS 134 million, compared with NIS 172 million, similar to the corresponding period last year.

Pre-tax profit in health insurance sector totaled NIS 43 million for the third quarter of 2013, compared with NIS 81 million in the corresponding period last year.

Total payments and change in gross liabilities in respect of insurance contracts in the health insurance sector during the Reporting Period amounted to NIS 1,929 million, compared with NIS 1,667 million in the corresponding period last year.

A part of the change stems from an increase in claims paid in respect of a group long-term care policy in which most of the insurance risk is imposed on the plan rather than the insurer, as well as investment margins which are recognized in the said insurance plan, which were higher than the investment margins recognized during the corresponding period last year. During the Reporting Period, investment profits of NIS 112.6 million were recognized in the plan, compared with investment profits of NIS 115.1 million credited to the plan during the corresponding period last year.

2.9. Non-life insurance

The composition of gross premiums and profit in non-life insurance activity for the report period, before tax, according to the insurance sectors included in non-life insurance, is as follows (in NIS thousands):

	Gross premiums					
	1-9.2013	1-9.2012	Change %	7-9.2013	7-9.2012	2012
Compulsory motor	405,599	427,332	(5.1)	101,478	116,670	509,792
Motor property	759,025	708,218	7.2	177,512	194,287	872,363
Property & other branches	663,757	633,782	4.7	215,060	187,492	822,754
Other liabilities branches	523,112	449,060	16.5	120,433	125,480	687,186
Credit & mortgage insurance*	(12,014)	33,854	-	(5,578)	14,172	47,649
Total	2,339,479	2,252,246	3.9	608,905	638,101	2,939,744

*Net	of s	ettl	em	en	ts

	Pre-tax profit					
	1-9.2013	1-9.2012	Change %	7-9.2013	7-9.2012	2012
Compulsory motor	69,347	127,120	(45.4)	9,772	52,389	186,944
Motor property	18,743	14,964	25.3	9,412	10,533	10,926
Property & other branches	19,529	33,968	(42.5)	7,850	13,471	41,772
Other liabilities branches	(2,036)	16,445	-	963	11,566	35,982
Credit & mortgage insurance	32,506	24,357	33.5	15,761	11,789	41,019
Total	138,089	216,854	(36.3)	43,758	99,748	316,643

Gross premiums during the Reporting Period totaled to approx. NIS 2,339 million, compared with NIS 2,252 million during the corresponding period last year, a 4% increase. The increase in the gross premiums during the Reporting Period is despite the decline in Harel Insurance's share of the insurance of state employees' motor vehicles during the Reporting Period against the corresponding period last year (see Section 2.9.1 below).

Gross premiums during the third quarter of 2013 totaled to approx. NIS 609 million, compared with NIS 638 million during the corresponding period last year, a 5% decrease.

Premiums in retention during the Reporting Period totaled to approx. NIS 1,315 million, compared with NIS 1,279 million in the corresponding period last year, a 3% increase.

Premiums in retention during the third quarter of 2013 totaled to approx. NIS 315 million, compared with NIS 362 million in the corresponding quarter last year, a 13% decrease.

Comprehensive income in non-life insurance during the Reporting Period amounted to NIS 138 million, compared with comprehensive income of NIS 217 million for the corresponding period last year. The decline in comprehensive income during the Reporting Period is due to the effect of the capital market, where yields were lower than those in the corresponding period last year, and the fact that during the corresponding period the surplus revenues which were released in respect of previous periods were higher than the surplus released during the Reporting Period and due to an extraordinary claim in the liabilities branch during the Reporting Period.

Comprehensive income in non-life insurance in the third quarter of 2013 was NIS 44 million, compared with comprehensive income of NIS 100 million for the corresponding quarter last year. The decrease in comprehensive income is due mainly to the effect of the capital market, where yields were lower than those in the corresponding period last year, to the effect of inflation which was higher in the third quarter of 2013 relative to the corresponding quarter last year.

Pre-tax profit in general (non-life) insurance during the Reporting Period amounted to NIS 147 million compared with NIS 166 million in the corresponding period last year, a 11% decrease.

Pre-tax profit from non-life insurance in was NIS 33 million in the third quarter of 2013, compared with NIS 54 million in the corresponding quarter last year.

2.9.1. Motor property

In motor-vehicle property insurance gross premiums during the Reporting Period amounted to NIS 759 million, compared with gross premiums of NIS 708 million during the corresponding period last year, an increase in 7%. Increase in premiums stems mostly from an incline in the share held by Harel Insurance of the insurance for state employees' motor vehicles during the Reporting Period against the corresponding period last year.

Total premiums from motor property insurance amounted to NIS 178 million in the third quarter of 2013, compared with NIS 194 million in the corresponding quarter last year, a decline of 9%.

Premiums in retention during the Reporting Period totaled to approx. NIS 598 million, compared with NIS 562 million in the corresponding period last year, a 6% increase.

Premiums in retention during the second quarter of 2013 totaled to approx. NIS 139 million, compared with NIS 154 million in the corresponding quarter last year, a 10% decrease.

Comprehensive income in motor-vehicle property insurance in the Reporting Period amounted to NIS 19 million, compared with comprehensive income of about NIS 15 million in the corresponding period last year.

Comprehensive income in motor-vehicle property insurance during the third quarter of 2013 amounted to NIS 9 million, compared with comprehensive income of about NIS 11 million in the corresponding period last year.

Pre-tax profit in motor-vehicle property insurance in the Reporting Period amounted to NIS 20 million compared with pre-tax profit of about NIS 11 million in the corresponding period last year.

Pre-tax profit in motor-vehicle property insurance during the third quarter of 2013 amounted to NIS 9 million compared with pre-tax profit of about NIS 7 million in the corresponding quarter last year.

On October 30, 2012, Harel Insurance was informed that it had been awarded 80% of the volume of the motor property insurance and compulsory motor insurance of state employees for 2013 (compared to a rate of about 10% in 2012 and a rate of 33% in 2011), as part of the tender published by the Ministry of Finance's Accountant General. Harel Insurance has insured the vehicles of state employees for more than 35 years .

On August 29, 2013, Harel Insurance was informed that it had won the tender for most of the models included in the tender for compulsory motor and motor property insurance of state employees for 2014, estimated at 50,000 vehicles, compared with 40,000 vehicles in 2013.

The winning of the tender and the expected increase in the number of state employees' vehicles that Harel Insurance insure in 2014 is not expected to affect its performance significantly.

2.9.2. Compulsory motor

During the Reporting Period, gross premiums in compulsory motor vehicle insurance sector amounted to NIS 406 million, compared with gross premiums of NIS 427 million during the corresponding period last year, a decrease in 5%.

Total premiums from motor property insurance amounted to NIS 101 million in the third quarter of 2013, compared with NIS 117 million in the corresponding quarter last year, a decline of 13%.

As to compulsory motor insurance for vehicles owned by state employees - see Par. 2.9.1 above.

During the Reporting Period, premiums in retention amounted to NIS 322 million compared with NIS 339 million in the corresponding period last year.

Premiums in retention during the third quarter of 2013 totaled to NIS 80 million, compared with NIS 92 million in the corresponding quarter last year, a 13% decrease.

Comprehensive income in compulsory motor insurance in the Reporting Period amounted to NIS 69 million compared with NIS 127 million profits in the corresponding period last year. The decrease was due to the effect of the capital market, where yields were lower than those in the corresponding period last year and from the release of surplus income over expenses for previous underwriting years, by an amount which was lower than that released in the corresponding period last year.

Pre-tax profit for compulsory motor insurance during the third quarter of 2013 amounted to NIS 10 million, compared with NIS 52 million during the corresponding quarter last year. The decrease in comprehensive income is due to the fact that yields in the capital market were lower than those in the corresponding quarter last year, and to the index (CPI) which was higher than in the corresponding quarter last year, by the release in the third quarter of 2013 of surplus income over expenses for previous underwriting years of an amount which was lower than that released in the corresponding period last year.

Pre-tax profit from compulsory motor insurance amounted to NIS 74 million for the Reporting Period, compared with profit of NIS 103 million for the corresponding period last year.

Pre-tax profit from compulsory motor insurance was NIS 5 million in the third quarter of 2013, compared with NIS 31 million in the corresponding quarter last year.

2.9.3. Liabilities branches and others

During the Reporting Period gross premiums in liabilities insurance and others amounted to NIS 523 million, compared with NIS 449 million during the corresponding period last year, an increase in 16%.

Gross premiums during the third quarter of 2013 totaled to NIS 120 million, compared with NIS 125 million during the corresponding period last year.

Premiums in retention in the Reporting Period amounted to NIS 238 million compared with NIS 196 million during the corresponding period last year, a 21% increase.

Premiums in retention during the second quarter of 2013 totaled to approx. NIS 49 million, compared with NIS 52 million in the corresponding quarter last year, a 5% decrease.

Comprehensive loss in liabilities insurance and others in the Reporting Period amounted to NIS 2 million compared with profit of about NIS 16 million in the corresponding period last year. Performance in the second quarter of 2013 was affected by an extraordinary claim in the liabilities branch by yields in the capital market which were lower than those of the corresponding period last year.

Comprehensive profit in liabilities insurance and others during the third quarter of 2013 amounted to NIS 1 million compared with profit of about NIS 12 million in the corresponding quarter last year. The Decrease in profit due to yields in the capital market which were lower than those of the corresponding period last year, and by the CPI which was higher than the CPI for the corresponding quarter last year.

Pre-tax profit in others liabilities insurance in the Reporting Period amounted to NIS 1.3 million, compared with profit of about NIS 3.1 million in the corresponding period last year.

Pre-tax loss in others liabilities insurance during the third quarter of 2013 amounted to NIS 2 million, compared with loss of about NIS 0.4 million in the corresponding quarter last year.

2.9.4. Property and other branches

Premiums in property and other branches during the Reporting Period amounted to NIS 664 million, compared with of about NIS 634 million in the corresponding period last year.

Premiums in property and other branches during the third quarter of 2013 amounted to NIS 215 million compared with NIS 187 million during the corresponding quarter last year, a 15% increase.

Premiums in retention during the Reporting Period amounted to NIS 169 million compared with NIS 148 million during the corresponding period last year, an 14% increase.

Premiums in retention during the third quarter of 2013 amounted to NIS 53 million compared with NIS 50 million during the corresponding period last year, an 6% increase.

Comprehensive profit in property and other branches in the Reporting Period amounted to NIS 20 million, compared with NIS 34 million in the corresponding period last year.

Comprehensive profit in property and other branches during the third quarter of 2013 amounted to NIS 8 million, compared with NIS 13 million in the corresponding quarter last year.

Pre-tax profit in property insurance and other branches during the Reporting Period amounted to NIS 20 million, compared with NIS 33 million in the corresponding period last year.

Pre-tax profit in property insurance and other branches during the third quarter of 2013 amounted to NIS 8 million, compared with NIS 13 million in the corresponding quarter last year.

2.9.5. Credit risks inherent in mortgage assets

Regarding the reduction of EMI's activity in light of the provisions of the Supervisor of the Banks - see Note 7.D(17) to the financial statements.

Premiums in retention in credit risks inherent in mortgage assets during the Reporting Period amounted to NIS 33 million compared with premiums in retention of about NIS 43 million in the corresponding period last year.

Premiums in retention during the third quarter of 2013 amounted to NIS 8 million compared with NIS 15 million during the corresponding period last year. These earned premiums are premiums from policies that were sold before the Reporting Period. There were no sales of new policies during the Reporting Year.

EMI does not have reinsurance agreements in this branch.

The comprehensive profit in credit risks inherent in mortgage assets during the Reporting Period amounted to NIS 33 million compared with NIS 24 million in the corresponding period last year. The increase in profit stems mostly from the Adjustment of the level of general and administrative expenses in the Company's scope of activities..

The comprehensive profit in credit risks inherent in mortgage assets during the third quarter of 2013 amounted to NIS 16 million compared with profit of NIS 12 million in the corresponding quarter last year.

Pre-tax profit in credit risks inherent in mortgage assets during the Reporting Period amounted to NIS 32 million compared with NIS 17 million in the corresponding period last year.

Pre-tax profit in credit risks inherent in mortgage assets during the third quarter of 2013 amounted to NIS 13 million compared with NIS 4 million in the corresponding quarter last year.

2.10. Insurance companies overseas

The Company is owns a 95.75% stake of Interasco Societe Anonyme General Insurance Company S.A.G.I (Interasco), an insurance company operating in Greece in the health and non-life insurance sectors, and holds the controlling interest (99.98% stake) in Turk Nippon which operates in Turkey in the general Insurance sector.

During the Reporting Period, the operating segment for insurance companies overseas earned premiums of NIS 132 million, compared with NIS 130 million for the corresponding period last year. Total premiums earned by the insurance companies operating overseas segment for the Reporting Period account for 2% of all premiums earned by the Group.

Total premiums earned in the insurance companies operating overseas segment during the third quarter of 2013 amounted to NIS 45.2 million, compared with NIS 42.3 million the corresponding period last year. Total premiums earned by the insurance companies operating overseas segment in the third quarter of 2013 account for 2% of all premiums earned by the Group.

The insurance companies in the overseas operating segment posted a comprehensive loss of NIS 10 million, compared with a comprehensive loss of NIS 7 million for the corresponding quarter last year.

The comprehensive profit in the segment for insurance companies operating overseas in the third quarter of 2013 was NIS 1 million, compared with a loss of NIS 3 million for the corresponding quarter last year.

During the Reporting Period, the insurance companies abroad posted a pre-tax loss of NIS 7 million, compared pre-tax loss of NIS 10 million in the corresponding period last year.

During the third quarter of 2013, the insurance companies abroad posted a pre-tax profit of NIS 1 million, compared with a loss of NIS 4 million for the corresponding quarter last year.

The loss posted by the overseas insurance companies segment can be attributed to the losses from Turk Nippon in Turkey, which operates in an extremely competitive market and also records losses on account of the fact that the scope of the company's activity is relatively small.

At September 30, 2013, Turk Nippon had a shortfall of regulatory capital (In accordance with the capital requirements which apply to Turk Nippon as an insurer operating in Turkey) of TL 3.3 million (about NIS 5.7 million).

Concerning the approval of a capital transfer to Turk Nippon, see Note 8(20) to the financial statements.

2.11. Capital market and financial services

During the Reporting Period, revenues in the capital market and financial services sector amounted to NIS 181 million, compared with NIS 148 million for the corresponding period last year, a 23% increase compared with the corresponding period last year. The increase in revenues during the Reporting Period, compared with the corresponding period last year is mainly due to the acquisition of the portfolio management activity and activity of the mutual funds of Clal Finance - see Note 5(2) to the Financial Statements, and to further growth of activity in index-linked and deposit certificates. In contrast, revenues from Stock Exchange services declined due to the sale of the TASE Member in November 2012.

Total management fees from the mutual funds and managed cases during the Reporting Period totaled NIS 156 million, compared with NIS 106 million for the corresponding period last year.

The volume of assets under management in the capital market and financial services segment at September 30, 2013, was NIS 50 billion, compared with NIS 28 billion at September 30, 2012, and compared with NIS 28.4 billion at December 31, 2012.

This increase in the volume of assets under management in this operating segment, relation to data as of December 31, 2012, can be attributed mainly to the acquisition of the portfolio management activity and activity of the mutual funds of Clal Finance, to the growth of assets under management in the mutual funds, as well as to the Group expanding its ETF and certificates deposit activity.

These amounts include mutual fund assets in the amount of NIS 31 billion at September 30, 2013, compared with NIS 19.2 billion at September 30, 2012 and NIS 19.5 million at December 31, 2012, as well as ETF assets and the deposit, which at September 30, 2013 amounted to NIS 11 billion against to NIS 4.8 billion at September 30, 2012 and NIS 6 billion at December 31, 2012. The assets under management, excluding the assets of the ETF Company and the deposit, are not included in the Company's consolidated balance sheets.

During the Reporting Period, the capital market and financial services sector recorded pre-tax profit of NIS 17.1 million, as against a pre-tax profit of NIS 13 million for the corresponding period last year.

During the third quarter of 2013, the capital market and financial services sector recorded pre-tax profit of NIS 10 million, as against a pre-tax profit of NIS 3 million for the corresponding period last year.

2.12. Income tax

Income tax during the Reporting Period amounted to an expense of NIS 253 million, compared with expenses for income tax of NIS 190 million during the corresponding period last year. Income tax during the third quarter of 2013 amounted to an expense of NIS 72 million, compared with expenses for tax of NIS 102 million during the corresponding period last year.

Regarding the agreement between Association of Life Assurance Companies and the Assessment Officer - see Note 37 to the third chapter to the Periodic Reports "Financial Statements".

Regarding the tax assessments in dispute with the Tax Authority - see Note 6.C(2) to the financial Statements.

2.13. Sources of finance and liquidity

2.13.1. Cash flows

During the Reporting Period total net cash flows used for on-going activity amounted to NIS 3,474 million. Net cash flows used for investment activity amounted to NIS 507 million. Net cash flows provided by activity and fluctuations in exchange rate amounted to NIS 4,194 million. The outcome of the entire activity is showing through the increase in cash flow in the sum of NIS 213 million.

2.13.2. Financing of operations

As a rule, the Company and its subsidiaries finance their on-going operations from their own sources. In some cases, new operations are acquired partially by means of external financing. Likewise, in view of the capital requirements applicable to the Company's subsidiaries that are insurers, and pursuant to the Capital Regulations, the regulatory capital required of an insurer may comprise tier-1 capital, hybrid tier-2 capital, and hybrid tier-3 capital. Accordingly, Harel Insurance and Dikla raised tier-2 capital and tier-3 capital , as specified below.

2.13.2.1. Issue of liability notes by Harel Insurance and by Harel Insurance, Financing and Share

Issues Ltd. ("Harel Share Issues").

Concerning the issuance of hybrid tier-3 capital by Harel Finance & Issues - see Note 9 to the Financial Statements.

2.13.2.2. Loans from banks

On loans which the Company and its subsidiaries took - see Note 9 to the Financial Statements.

2.13.2.3. A loan that Harel-Pia took from bank

On a loan which Harel-Pia took - see Note 9(3) to the Financial Statements.

2.13.2.4. Credit taken by Harel Financial Products

On credit taken by Harel Financial Products - see Note 9 to the Financial Statements.

2.13.2.5. Harel Trade & Securities - TASE member

On Harel Trade & Securities - TASE member - see Note 7 to the Financial Statements.

- 2.13.2.6. In addition to the mentioned loans, at September 30, 2013, the Company and the other companies in the Group short term loan amounted approximately NIS 73 million.
- 2.13.2.7. Harel Share Issues expansion of Series 6 bonds and Series 7 bonds as part of the Eliahu transaction.

With regard to an expansion of Series 6 bonds and Series 7 bonds as part of the Eliahu transaction, see Note 9.C(4) to the Financial Statements.

2.13.2.8. Harel Share Issues - issuance of bonds (Series 8)

Concerning an issuance of bonds (Series 8) by Harel Share Issues, see Note 9.C(5) to the Financial Statements.

2.13.2.9. Harel Share Issues - expansion of Series 7

Concerning a private placement of Series 7 bonds of Harel Share Issues, see Note 9.C(7) to the Financial Statements.

2.14. Compensation policy for officers of the Company

In the wake of the enactment of Amendment no. 20 to the Companies Law, as noted in Section 4.2.1.11 of the Periodic Report, the Company's Compensation Committee discussed the adoption of a revised compensation policy for its officers over a period of several months. The compensation policy will also serve as a guiding policy for the Company's subsidiaries, with the relevant changes. The new compensation policy replaces the policy applied by the Group's financial institutions, by virtue of the Commissioner's circular from 2009. For information about the previous compensation policy, see Article 21 (A)(1) in Chapter 5 of the Periodic Report, Additional Information about the Company.

The new compensation policy was approved by the Compensation Committee on July 15, 2013, and by the Board of Directors on July 17, 2013. The policy was approved by the general meeting on August 22, 2013. The purpose of the compensation policy is to motivate and direct the senior managers in line with the Company's goals and strategic plan, emphasizing increased competition in the recruitment and retention of quality manpower in the Group's senior management positions. All this with the purpose of creating long-term economic value for the Company and its shareholders. The compensation policy was devised, taking into account, inter alia, the size of the Company and the nature of its operations, advancement of the Company's goals, its strategy, long-term work plan and risk-management policy, as well as the employment conditions and bonuses that were Company practice in previous years, salary levels and terms of service and employment which are generally accepted among Israel's insurance and finance companies and large banks, and based on organizational considerations, including the wage costs of different groups of employees and the desired wage differences between them.

The compensation plan relates to different categories of officer: (a) directors who are not outside directors, are not controlling shareholders, and do not hold any other position in the Group - for this category it was determined that the terms of compensation will continue to be based on the compensation prescribed in the Companies (Rules Concerning Compensation and Expenses for an Outside Director) Regulations, 5760-2000 ("the Compensation Regulations") without the limitation of maximum payment for attending meetings for service in subsidiaries; (b) directors who are controlling shareholders - given that their salary was approved based on Amendment no. 16 to the Companies Law, the policy will be applied to them when their employment conditions are submitted for re-approval by the Company's competent organs (including the general meeting) at the end of the present period of approval; (c) directors who hold additional positions in the Group - will receive payment for their service as directors based on sub-section (a) above and compensation for their additional duties, as determined by the competent organs in each individual case depending on the nature of the additional duties, the scope of activity in those positions, as well as the details of the specific director, for example, experience, etc.

The compensation policy addresses a range of employment conditions for officers who are not directors, including the following components: (a) the compensation to be determined for each officer in line with his seniority, knowledge, experience, qualifications and contribution to the Group's results, and based on the defined benchmark group; (b) it was determined that a significant margin will be maintained between the CEO's salary and that of the other officers who report to the CEO; (c) minimum ratios were defined between the fixed components in the employment conditions and the overall employment conditions; (d) it was determined that a fixed salary component may be paid which does not entitle the recipient to social benefits; (e) it was determined that guaranteed bonuses which are part of the officer's employment conditions will be reduced by 50% and in the new agreements guaranteed bonuses will only be given on special grounds, and no more than 2 salaries; (f) provisions were prescribed concerning performance-linked annual bonuses, including the maximum amount of such bonuses for CEOs and for officers who report to the CEOs (for additional information about the annual bonuses, see below); (g) provisions were prescribed concerning the possibility of payment of special bonuses, which are not related to the annual bonuses, for outstanding performance in special projects. Special bonuses are designed for officers who are not the CEO and are not controlling shareholders, and they are limited in the budget to an insignificant amount; (h) provisions were prescribed concerning a capital bonus, which may only be given to CEOs; (i) provisions were prescribed concerning insurance and indemnity for officers and directors; (j) provisions were prescribed concerning termination of the employment conditions, including with respect to the following components: (i) severance pay at a maximum rate of 200% (double that required by law), subject to meeting conditions of seniority and other conditions; (ii) a period of advance notice (of termination) of no more than 6 months; (iii) an adjustment bonus of up to 6 monthly salaries; (iv) compensation for a non-competition commitment. It was determined that a non-competition agreement will be drawn up in exceptional cases only and subject to that the commitment is made in advance and not at the time of departure, and that it is made in cases of genuine concern of damage to the Company business. The maximum non-competition period is two years, and the compensation for this period was limited to a percentage of the current salary prior to termination of office, where the maximum payment, as noted, declines over the non-competition period, taking into account that the initial stage of the non-competition period is more significant from the Company's perspective. If a term of office is terminated under circumstances in which severance pay may be denied, the Company has a unilateral option to cancel the non-competition agreement and not to pay the compensation for the non-competition.

Details about the annual bonuses: provisions were prescribed whereby performance-linked bonuses will only be paid in years in which the Company achieves satisfactory results, at least. Likewise, to prevent the taking of short-term risks, the volume of the performance-linked bonuses is limited, according to a multiple of the monthly salaries, where the maximum amount is for CEOs - 12 salaries (the normative bonus is 10 salaries, including a discretionary component of up to 2 salaries); for chairman of the Board of Directors - 9.6 monthly salaries (the normative bonus is 8 salaries and there is no discretionary component); and 7.2 monthly salaries for other senior officers. It was also determined that the bonuses will be calculated based on meeting longterm goals and not only one-time, current annual targets. To this end, the compensation plan stipulates that different parameters will be computed for the current year and for the two preceding years, so that when determining the overall score for calculation of the annual bonus, the parameters in the current year will be given a weighting of 50%, the weight of the preceding year will be 30%, and the weight of the year preceding that year will be 20%. Notwithstanding the foregoing, transition provisions were prescribed regarding officers who had no compensation plan prior to approval of this compensation policy, as follows: when calculating the bonus for 2013, the current year will have a weight of 100%; when calculating the bonus for 2014 - 2014 will account for 67% and 2013 will account for 33%; and when calculating the bonus for 2015 and thereafter, the weight of the current year will be 50%, the preceding year will have a weight of 30%, and the year preceding that will have a weight of 20%.

The performance-linked annual bonus includes a discretionary component which is limited to 20% for the CEOs and the other officers (excluding for officers in positions of oversight and control).

The compensation plan prescribes a provision whereby the Company will generally honor existing agreements, even where they deviate from the compensation policy, unless the compensation policy contains a different specific instruction.

Pursuant to the approval of the compensation policy, as noted above, on November 24, 2013, after receiving the approval of the Compensation Committee, the Company's Board of Directors approved individual parameters for the annual bonus for the senior officers who are not the CEO, and this based on the principles prescribed in the compensation policy.

The Company's compensation policy stipulates that it will also apply, with the relevant changes, to the Company's subsidiaries.

Accordingly, during the Reporting Period, the Board of Directors of Harel Finance approved a compensation policy for the officers of Harel Finance and its subsidiaries, based on the principles of the Company's compensation policy. The compensation policy of Harel Finance was presented to the Company's Compensation Committee at a meeting held on October 23, 2013.

On November 24, 2013, the Board of Directors of Harel Insurance approved a revised compensation policy for Harel Insurance and its subsidiaries, that are financial institutions, with the purpose of ensuring that the compensation policy is consistent with the principles defined in the Company's compensation policy. In this context, parameters were revised for determining the annual bonus for senior officers of Harel Insurance, and revised parameters were prescribed for the investment managers, the discretionary component of the annual bonus was reduced to 20%, and threshold conditions and a comprehensive budget limit were prescribed for all the bonuses for senior officers.

2.15. Revised terms of employment of Mr. Michel Siboni:

Concurrent with the approval of the compensation policy, and based on the provisions prescribed in the compensation policy, on July 15, 2013 and July 17, 2013, the Compensation Committee and Board of Directors, respectively, approved revised employment conditions for Mr. Michel Siboni, Co-CEO of the Company, CEO of Harel Insurance and Chairman of the Board of Directors of the Group's financial institutions. The revised employment conditions were approved by the general meeting on August 22, 2013. The revised employment conditions are consistent with the Company's compensation policy, while maintaining previous employment conditions.

Details of the revised terms of employment:

2.15.1. Period of employment

The provisions of the new employment agreement apply from October 1, 2013, for an unlimited period. Notwithstanding the foregoing, both parties may terminate the agreement at any time, by giving 90 days advance notice (no change from the present employment agreement).

2.15.2. Current salary

Mr. Siboni's salary will remain unchanged compared with his present salary, which is NIS 190,000 (in this section: "the Salary"). The Salary will be linked to the CPI each monthly, according to the present conditions, namely monthly linkage to the CPI.

2.15.3. Annual performance-linked bonus

According to the Company's compensation policy, Mr. Siboni will be entitled to an annual performance-linked bonus, as follows:

Threshold conditions:

Payment of the annual bonus takes into account the Company's financial position. Accordingly, the annual bonus is conditional on meeting the following conditions:

The Company must achieve a return on equity - comprehensive income (RoE-CI) of 7% ("threshold yield) or higher in the year of the bonus. If the yield is less than 4% ("the Minimum Yield"), the quantitative annual bonus will not be paid, at yield rates of 4%-7%, a proportion of the annual bonus will be paid, calculated as specified below, on a linear basis (if the yield is 4%, 4/7 of the quantitative bonus will be paid, calculated as detailed below; if the yield is 5%, 5/7 of the quantitative bonus will be paid, as detailed below, and so on). Nevertheless, the foregoing is not intended to derogate from the possibility of paying

The discretionary component in full, subject to the approval of the Compensation Committee and the Board of Directors.

After all the annual bonuses have been paid to the officers and other senior Company employees, Harel Insurance must be in compliance with the regulatory capital, based on the instructions of the Commissioner of the Capital Market, Insurance and Savings, plus NIS 150 million.

The sum total of the performance-linked annual bonuses paid to all the Company's senior officers must not exceed 5.5% of comprehensive income before tax.

Maximum annual performance-linked bonus:

The annual bonus paid to Mr. Siboni will be limited to 12 monthly salaries (the normative amount of the annual bonus is 10 monthly salaries, including the discretionary component which is up to 2 monthly salaries).

Composition of the annual bonus:

The annual performance-linked bonus payable to Mr. Siboni, will include the following components:

Measurable component - an amount derived from multiplying Mr. Siboni's multi-year personal score by 80% of his normative bonus.

Discretionary component - a supplement of up to 20% of the officer's normative annual bonus, or a reduction of up to 50% of that amount, as recommended by the Chairman of the Board, and approved by the Compensation Committee and Board of Directors;

Method of calculating the measurable component (80% of the normative bonus):

The amount of the bonus in respect of the measurable component will be determined by multiplying the score calculated according to the following parameters, by 80% of the "normative bonus" (i.e. 8 monthly salaries). For example, if the score calculated for the measurable component is 100%, then 8 monthly salaries will be paid for this component, if the score is 80%, then 6.4 monthly salaries will be paid for the measurable component; if the score calculated is 125%, the maximum bonus will be paid for the measurable component, namely 10 monthly salaries.

Parameters for determining the score for the measurable component for Mr. Siboni:

The score will be determined according to the Company's performance for the last three years, where the current year has 50% weighting, the previous year will be given a weight of 30% and the year preceding that 20%.

Components of the compensation:

Return on equity - comprehensive income (RoE-CI) (30% weighting):

The score for the criteria for the year of the bonus will be given according to the RoE-CI achieved according to the financial statements of Harel Investments, compared with the yield attained according to the financial statements of the four other largest insurance and finance companies (Migdal, Clal, The Phoenix, and Menorah Mivtachim) (in this section: "the Benchmark Companies), as follows:

The highest yield in the benchmark group (including Harel Investments) will receive a maximum score of 125%, and the lowest yield will receive a minimum score of (-25%). The score will be determined according to the Company's RoE-CI on a linear basis, based on the two extreme points, as mentioned.

Notwithstanding the foregoing:

- At a rate of RoE-CI of 17% or higher, a maximum score of 125% will be given.
- At a rate of RoE-CI of 13%, a score of 90% will be given;
- At a rate of RoE-CI of between 13% and 17%, a score will be given on a linear basis as described above, but in any event no less than a score of 90%.
- At a rate of RoE-CI of 5% or lower, a score of (-25%) will be given;

VNB/VIF index (25% weighting):

The score for this criterion for the year of the bonus will be given by comparing the ratio of the embedded value in new business performed in the year of the bonus (VNB) with the value in force of the portfolio (VIF), compared to the ratio for the four largest insurance and finance companies, as noted above. The VNB and VIF data are published in the first quarter reports of the subsequent year. The score will be determined as follow:

The highest ratio in the benchmark group (including Harel Investments) will receive a maximum score of 125%, and the lowest ratio will receive a minimum score of (-25%). The score will be determined according to the position of the VNB/VIF ratio of Harel Insurance, between the two extreme points, as noted.

Notwithstanding the foregoing:

- If the VNB/VIF ratio equals 8% or higher, a maximum score of 125% will be given;
- If the VNB/VIF ratio is 5%, a score of 100% will be given;
- If the VNB/VIF ratio is between 5% and 8%, a score will be given according to the position of the VNB/VIF ratio between the two extreme points as described above, but under no circumstances will the score be less than 100%.
- If the VNB/VIF ratio is 3.5% or lower, a score of (-25%) will be given;

The rate of increase in VIF compared with the other four largest insurance companies (25%):

The score for the criteria of the year of the bonus will be given according to the rate of change in VIF relative to the previous year, compared with the four benchmark companies. The score will be determined as follow:

The highest rate of increase (or lowest rate of decline) in the benchmark group (including Harel Investments) will receive a maximum score of 125%, and the lowest rate will receive a minimum score of (-25%). The score for Harel will be determined according to its rate of growth on a linear basis, based on the two extreme points, as mentioned.

Notwithstanding the foregoing:

- At a growth rate of 15% or more, a maximum score of 125% will be given;
- At a growth rate of 10%, a score of 100% will be given;
- At a growth rate of between 10% and 15%, a score will be given on a linear basis based on two extreme points as described above, but in any event no less than a score of 100%.
- A negative rate of change of (-2%) or lower will receive a minimum score of (-25%).

Rate of increase in gross insurance premiums (20% weight):

The score for the criteria of the year of the bonus will be given according to the weighted rate of change in the volume of premiums compared with the weighted rate of change for the four benchmark companies. The calculation will be made for personal lines premiums (after adjustment for group insurance policies), and separating the following sectors: long-term savings, health insurance, and non-life insurance. The rate of change in the volume of premiums and benefit contributions in each segment will be weighted to a general weighted rate of change, so that the long-term savings and health segments will each receive 40% of the weighting and the non-life insurance segment will receive 20% of the weighting. The comparison with the insurance companies will be made as follows:

The highest weighted growth rate in the benchmark group (including Harel Investments) will receive a maximum score of 125%, and the lowest rate will receive a minimum score of (-25%). The score will be determined according to the Company's rate of growth on a linear basis, based on the two extreme points, as mentioned.

Notwithstanding the foregoing:

- At a growth rate of 12% or more, a maximum score of 125% will be given;
- At a growth rate of 10%, a score of 100% will be given;
- At a growth rate of between 10% and 12%, a score will be given on a linear basis based on two extreme points as described above, but in any event no less than a score of 100%.
- A negative rate of change of (-2%) or lower will receive a minimum score of (-25%).

Method of determining the discretionary component (20% of the normative bonus):

The discretionary component will be influenced, in part, by the extent to which the Company's goals, as set by the Board of directors, are met. These include risk management, compliance with laws, compliance with regulatory provisions and Company procedures, relying, inter alia, on internal audit reports and control studies which will form part of the considerations in supplementing or reducing the bonus.

Insofar as it is positive, the discretionary component may be paid in full even if the threshold conditions mentioned above are not met.

The discretionary component will be determined by the Compensation Committee and approved by the Board of Directors, after receiving a recommendation from the Chairman of the Board.

If annual bonuses are paid to the CEO on the basis of data which at a later stage are found to be erroneous due to an error by the Company which is a significant error (irrespective of whether the error is a material error in the financial statements or is a material error in calculations prepared for determining the annual bonus), the CEO will return the surplus bonus amounts, and if the bonus was underpaid, the Company will make up the shortfall within one year of the date of the Company's notification of such, linked to the CPI. After informing the CEO 15 days in advance, the Company may offset the surplus bonus amounts or part thereof from bonuses owed to the CEO for the subsequent years.

If Mr. Siboni's employment is terminated during the course of the calendar year, the annual bonus will be calculated pro rata to the period during which he worked for the Company in that year.

The results of the calculation of the annual bonus must be approved by the Company's compensation committee each year, after the date of approval of the financial statements for the year ended, and no later than the end of June.

2.15.4. Fixed compensation which does not provide entitlement to social or pension benefits

Mr. Michel Siboni will be entitled to fixed compensation which does not entitle him to social or pension benefits in the total annual amount of NIS 1,000,000. Fixed compensation which does not provide entitlement to social provisions is the type of compensation included in the Company's compensation plan, as part of the on-going salary components. Concerning Mr. Siboni - this compensation is paid as compensation for cancellation of the fixed bonuses and retention bonuses which Mr. Siboni received in the past (in similar amounts) and which he will not receive in the future. With respect to the cost of Mr. Siboni's current salary relative to the benchmark group, this component is taken into account as part of the cost of the current salary.

2.15.5. Related conditions

Michel Siboni will be entitled to a refund of reasonable expenses incurred while fulfilling his duties, including costs of a telephone / mobile phone, membership fees of professional organizations, subscription to newspapers and professional literature, professional liability insurance, periodic surveys, health insurance policy / group dental insurance for Harel Group employees, group risk policy for senior Harel Group executives, group work disability policy for Harel Group employees, participation in study days and incentive trips for agents (with spouse), wellbeing activities as accepted in the Harel Group (e.g. prefestival gifts, vacation, meals, team-building activities, etc.), purchase of Harel Group insurance products under conditions given to the Group's employees, purchase of Harel Finance financial products under conditions given to Group employees.

Additionally, Mr. Siboni is entitled to a company car, as is accepted practice for the Company's CEO. The cost of car maintenance, including the tax charged for use of the vehicle, will be paid by the Company.

The Company will make provision for social benefits according to generally accepted standards for pension, severance pay and work disability. Likewise, Michel Siboni will be entitled to contributions to an education fund in respect of his salary (7.5% of his salary at the employer's expense, and 2.5% at the employee's expense).

Michel Siboni will be entitled to 10 days convalescence a year according to the tariff published by the Coordinating Bureau of Economic Organizations (no change from the present employment agreement).

Michel Siboni will be entitled to 24 days paid vacation a year. Unutilized vacation days, including in respect of the period of Mr. Siboni's employment from the commencement date of his employment for the Company, will be accumulated and may be redeemed when his employment terminates (no change from the present employment agreement).

Michel Siboni will be entitled to 30 days paid sick leave a year, and he may accumulate these days up to a total of 180 days, although he will not be entitled to redeem them when his employment for the Company terminates (no change from the present employment agreement).

Michel Siboni will be given a letter of indemnity, as part of the Company's decisions as approved by the general meeting in July 2006 and by a general meeting in March 2012.

2.15.6. Termination of employment

Mr. Siboni will be entitled to a salary for an 8-month adjustment period (no change from the present employment agreement).

It should be noted that in accordance with the Company's compensation policy, the adjustment bonus is for a period of up to 6 months. Nevertheless, the Compensation Committee and Board of Directors believe that, in this regard, there is no reason to change the provisions of Michel Siboni's present agreement, for the reasons which form the basis of the instruction concerning compensation policy, in which as a rule, except for those matters which were expressly prescribed in the compensation policy, it is company policy not to infringe upon conditions prescribed in existing agreements. Furthermore, in view of the fact that the advance notice period defined in Mr. Siboni's employment agreement is 3 months, whereas the maximum period of advance notice defined in the compensation policy is 6 months, the total period of advance notice and adjustment does not deviate from the total period defined in the compensation policy.

Michel Siboni will be entitled to severance pay of 200% (double the severance pay by law) for the period commencing August 1, 2009 until the date on which his employment for the Company is terminated (according to the present employment agreement). For the period from the commencement of his employment for the Company and up to July 31, 2009, Michel Siboni will be entitled to 150% severance pay (in the present employment agreement the amount is 100% for this period). According to the Company's present compensation policy for senior officers, employees with considerable seniority are entitled to 200% severance pay. Payment of increased severance pay is accepted practice for senior officers of companies of a comparable size to the Company and in companies in the benchmark group, and reflects the desire to remunerate the CEO and encourage him to continue working for the development and progress of the Company, Harel Insurance and its subsidiaries in achieving profits for the Group and attaining its goals.

In his present employment agreement, Mr. Siboni undertook not to compete with the Company when his employment ends for a period of 7 years from the termination of his employment, in return for a non-competition bonus of NIS 5,000,000 (no change from the present employment agreement). Based on the non-competition commitment, Michel Siboni undertook that during the non-competition period he will not serve as the CEO of an insurance company in Israel, either as a salaried employee or as a service provider, and he also undertook not to utilize the knowledge he gained and will gain in the Company in the area of health insurance, and accordingly he undertook not to serve as a consultant to insurance companies in the area of health insurance.

Based on the Company's compensation policy, Mr. Siboni will be entitled, together with members of his family, to continue to be included in the group insurance policy of Harel employees even after his employment terminates, in return for payment of premiums, according to the amounts which were accepted for all Group employees.

2.15.7. Ratio of the terms of service and employment of Michel Siboni to those of all the Company's employees

Data comparing Michel Siboni's on-going salary and total cost of his employment conditions with the current median and average salary and the median and average cost of employment of all the Group's employees were presented to the Compensation Committee and the Board of Directors.

Following are data regarding these ratios:

The ratio between Mr. Siboni's current salary (excluding provision for social benefits) and the current average wage (excluding provision for social benefits) is 18.7.

The ratio between Mr. Siboni's current salary (excluding provision for social benefits) and the current median wage (excluding provision for social benefits) is 25.3.

The ratio between the total cost of Mr. Siboni's employment conditions (excluding non-recurring influences) and the average wage¹ in the Group: 35

The ratio between the total cost of Mr. Siboni's employment conditions (excluding non-recurring influences) and the median wage² in the Group: 54.5

The ratio between the total cost of Mr. Siboni's employment conditions (excluding non-recurring influences) and the overall average cost of employing the Group's employees: 25.5.

The ratio between the total cost of Mr. Siboni's employment conditions (excluding non-recurring influences) and the overall median cost of employing the Group's employees: 38.

After reviewing these ratios, in light of Mr. Siboni's centrality and significant contribution to the Group's performance, in light of the broad responsibility imposed on him in his positions, as well as the excellent work relationships prevailing in the Group, the Compensation Committee and Board of Directors are of the opinion that the ratio is fair and reasonable.

¹ Regarding this, "wage" is the income on which National Insurance fees are paid under Chapter 16 of the National Insurance Law [Consolidated Version], 5765-1995.

² Regarding this, "wage" is the income on which National Insurance fees are paid under Chapter 16 of the National Insurance Law [Consolidated Version], 5765-1995.

2.15.8. The following details the total cost to the Company of Michel Siboni's employment conditions:

Details of the expected compensation for 2013 (based on the revised compensation plan and taking into account that it will become applicable, subject to approval, only from October 1, 2013, and will include non-recurring provisions):

	Compensation recipient					Compensation for services						Other compensation		
Name	Position		Percentage holding of company equity	Wage	Bonus	Share- based payment	Management fee	Consultin g fee	Commissio n	Other	Interest	Rental	Other	Total
Michel Siboni	Co-CEO of the Company, CEO Harel Insurance, Chairman of several of the Group's financial institutions	100%	-	4,186	(*)	308				**2,214				6,708

- (*) The amounts do not include the performance-linked bonus payable for 2013 as it is impossible to estimate whether Mr. Siboni will be entitled to this bonus and what the scope of the bonus will be. It should be noted that even at the publication date of the financial statements for 2013, the Company will not have this information, and consequently the figures published will not include data for the annual performance-linked bonus. It should be noted that the annual normative bonus is 10 times the current monthly salary and the maximum annual bonus is 12 times the current monthly salary. For information about the compensation which would have been paid had the bonus plan for 2011 and 2012 results been applied, see below.
- (**) This amount includes non-recurring provisions arising mostly from an increase of severance pay to 150% for the period up to 2009.

Details of the expected compensation for 2014:

	Compensation recipient				Compensation for services Ot						Other	compen	<u>Total</u>	
Name	Position	Scope of position	Percentage holding of company equity	Wage	Bonus	Share- based payment	Management fee	Consultin g fee	Commissio n	Other	Interest	Rental	Other	Total
Michel Siboni	Co-CEO of the Company, CEO Harel Insurance, Chairman of several of the Group's financial institutions	100%	-	4,186	(*)					239				4,424

^(*) The amounts do not include the performance-linked bonus payable for 2013 as it is impossible to estimate whether Mr. Siboni will be entitled to this bonus and what the scope of the bonus will be. It should be noted that the annual normative bonus is 10 times the current monthly salary and the maximum annual bonus is 12 times the current monthly salary. For information about the compensation which would have been paid had the bonus plan for 2011 and 2012 results been applied, see below.

2.15.9. Information about the bonus that would have been paid according to performance-linked bonus plan for Michel Siboni had it been applicable in 2011 and 2012

2011:

According to the quantitative parameters mentioned above, had they been applied to 2011, Michel Siboni would not have been eligible for any annual performance-linked bonus for 2011. Nevertheless, the Compensation Committee and Board of Directors would have been able to approve a discretionary bonus of twice his current monthly salary. According to Mr. Siboni's salary at the end of 2011, the total annual performance-linked bonus would have amounted to NIS 348,048.

2012:

The total performance-linked bonus that would have been paid according to the above-mentioned quantitative parameters amounts to 8.61 times the current monthly salary. According to the revised monthly salary, the bonus would have amounted to NIS 1,628,082. In addition to this bonus, the Board of Directors may approve a discretionary bonus of up to twice the current monthly salary, so that the maximum bonus could have amounted to NIS 2,006,266.

2.15.10. Summary of the reasons given by the Compensation Committee and Board of Directors for approving the revised employment conditions of Mr. Michel Siboni:

As Co-CEO of the Company, CEO of Harel Insurance, which is the Group's key company, and chairman of the boards of directors of the Group's financial institutions, Michel Siboni is involved in and directs most of the Group's significant business decisions, formulation of its strategy, its business development, embarking on new areas of activity, its business relations with customers and agents, and, together with the Group's senior officers, he is involved in and directs most of its business activity. It is largely thanks to his many of years of experience that the Group's achievements in recent years have been so impressive, whether in relation to profit, growth rates or the increase in the EV of Harel Insurance, including when compared with the performance of the other large insurance and finance groups. Mr. Siboni's long-standing and unique experience in the insurance and long-term savings sector and his familiarity with the Company, its range of activities, its business and its customers, are extremely valuable to the Company and its business success.

During the course of discussions on this subject, based on the desire to compensate Mr. Siboni and provide him with an incentive to continue the pursuit of his successful activity for many more years for the development and dominance of the Group, to improve the Group's profits and achieve the ambitious targets set by the Board of Directors every year, in this period of challenges and important changes in the insurance and finance markets, the following information and parameters were taken into account: (a) a comparison of the proposed compensation with Mr. Siboni's present terms of employment; (b) comparison data regarding the salary, terms of office and employment of CEOs in the benchmark group, which is the large insurance and finance groups and the five largest banks; and (c) information about the scope of the proposed compensation for the CEO and the financial ramifications, including provisions in respect of the compensation. As part of these comparative data, the grant components and other salary components were taken into account.

During the course of these discussions, the fact that the proposed employment conditions do not include an equity component, as was accepted practice in the past, was taken into account, together with the fact that special bonuses as given in the past will no longer be given as they were previously.

Likewise, the approval took into account the fact that the parameters for payment of the bonus are based on comparative parameters for the largest insurance and finance groups, where the discretionary component is not significant.

Data comparing Michel Siboni's on-going salary and total cost of his employment conditions with the current median and average salary and the median and average cost of employment of all the Group's employees were presented to the Compensation Committee and the Board of Directors. The Compensation Committee and Board of Directors concluded, taking note of Mr. Siboni's considerable contribution to the Group's achievements and performance, taking note of the extensive responsibility imposed on Mr. Siboni in his different positions within the Group, and taking note of the excellent work relationships in the Group, that the present ratio is reasonable.

Regarding the current salary, including the fixed compensation which does include entitlement to social benefits, the Compensation Committee and Board of Directors received comparative data for the on-going salary and total cost of employment in the benchmark groups, and concluded that taking note of the size of the Company, its business success, on-going salary and as a result the overall cost of employment do not deviate from the accepted norm. The considerations taken into account concerning the on-going compensation included the fact that Mr. Siboni previously received various bonuses on a regular basis, which will not be paid in the future and are no longer part of the compensation policy. Likewise, when addressing this subject, the Compensation Committee and Board of Directors considered the importance of encouraging Mr. Siboni to remain in his position as Company CEO for many years, and the Compensation Committee and Board of Directors therefore believe that Mr. Siboni's salary should be guaranteed and that the overall cost of his employment conditions should be in the upper range of the accepted employment conditions for CEOs of companies in the benchmark group.

The Compensation Committee and Board of Directors reached the conclusion that the economic and related benefits which are part of Mr. Siboni's terms of employment do not deviate from those accepted by the Group or from the accepted norms in the markets in which the Group operates. The Compensation Committee and Board of Directors are therefore of the opinion that the related conditions are reasonable and fair and that the granting of such benefits serves the Company's best interests.

Regarding the annual performance-linked bonus, the Compensation Committee and Board of Directors are of the opinion that such a bonus serves as an incentive of the first order for the CEO to lead the Group to success, both in absolute terms and when compared with the other insurance and finance groups. Accordingly, objective quantitative indices were defined, most of which are comparable to the results of the other insurance and finance groups.

These quantitative parameters which were defined for the purpose of computing the annual performance-linked bonus are significant to the success of the Company and will be used by the Board of Directors to direct and outline the Company's operating policy, in accordance with the strategy determined by the Board of Directors. The Compensation Committee and Board of Directors are of the opinion that these parameters, almost all of which are the key parameters for the compensation plan that the Group's financial institutions have applied since 2010, will continue to serve as the main form of incentive for the CEO and maintain the ability to direct the CEO's activity, focusing it on matters which are material to the Company's success.

To ensure that performance-linked bonuses will only be paid in years in which the Company achieves satisfactory results, at the very least, minimum criteria were established for the payment of performance-linked bonuses.

Likewise, to prevent the taking of short-term risks, the volume of the performance-linked bonuses is limited, according to a multiple of the monthly salaries, where the maximum amount is for 12 salaries. The Compensation Committee and Board of Directors believe that this limitation is essential in a financial institution, and that the limitation prevents the taking of short-term risks or risks which do not correspond with the Company's risk appetite, as defined from time to time in the Board of Directors' policy.

The Compensation Committee and Board of Directors believe that the granting of letters of indemnity is accepted practice among public companies in general and among companies in the insurance and financial services industry in particular. The granting of letters of indemnity is for the benefit of the Company, as it provides the CEO with the ability to carry out his duties properly and for the Company's benefit, taking into account the judicial risks entailed in performing his duties and the considerable responsibility imposed on him by law.

The Compensation Committee and Board of Directors are of the opinion that the conditions prescribed in connection with the termination of employer-employee relations are reasonable and fair and that they serve the Company's best interests. The defined period of three months advance notice is reasonable, taking into account that the maximum period of advance notice defined in the compensation policy is six months, Mr. Siboni's adjustment bonus, which has been part of his employment agreement for several years, is reasonable taking into account his contribution to the Group over many years and the desire of the Compensation Committee and Board of Directors to encourage him to continue to lead the Group in achieving its ambitious goals for many years to come. The non-competition agreement with Mr. Siboni is for a relatively long period, and this in view of his unique characteristics. Mr. Siboni has held key positions in the Company for some two decades and senior management positions in the insurance industry for almost three decades. Mr. Siboni has been a key partner in most of the Group's strategic moves during his term of office and as CEO of the Company he now leads implementation of the Group's strategy. Against this backdrop, and if we compare the overall compensation for non-competition which is for a particularly long period, with the total annual cost of the Mr. Siboni's employment conditions, the Compensation Committee and Board of Directors reached the conclusion that the non-competition agreement is reasonable and serves the Company's best interests.

The Compensation Committee and Board of Directors believe that approval of 150% severance pay for Mr. Siboni for the period of his employment in the Group, until his appointment as CEO of Harel Insurance (from the time of his appointment as CEO of Harel Insurance in 2009, and based on the Group's accepted practice, Mr. Siboni is entitled to 200% severance pay) is fair and reasonable. The granting of such severance pay corresponds with the Company's compensation policy and with the Group's accepted practice for many years with respect to senior officers who have been employed by the Group in senior positions. Notwithstanding the foregoing, the Compensation Committee and Board of Directors set the rate of severance pay for this period at 150% and not 200%, as defined in the compensation policy. The Compensation Committee and Board of Directors reached the conclusion that the granting of increased severance pay, which is an accepted compensation component in the terms of employment of CEOs and senior officers in the markets in which the Company operates, is for the benefit of the Company, where the failure to offer such compensation will result in inferior terms of employment for the CEO relative to the relevant alternatives. The granting of increased severance pay is therefore a significant component in the Company's ability to retain the CEO so that he can continue his work for the Company in the long term.

Based on all the foregoing, and in view of Mr. Siboni's importance to and central role in the Company, the Compensation Committee and the Board of Directors determined that the overall compensation is reasonable and fair, taking note of his position in the Company and that it is consistent with market conditions when compared with the relevant benchmark group. Similarly, it was determined that except for two subjects which in the view of the Compensation Committee and the Board of Directors do not constitute a significant deviation, the compensation is consistent with the compensation plan, it is for the Company's benefit and advances the Company's goals, achieves an appropriate balance between the bonus and fixed salary components, thus avoiding a conflict with the Company's best interests. The compensation is therefore reasonable, adequate and consistent with Michel Siboni's contribution to the Company's performance, both in the short and longer term, and it offers Mr. Siboni the appropriate incentive to continue to realize the ambitious goals set by the Company in its work plan as well as in years to come.

2.16. Revised terms of employment of Mr. Shimon Elkabetz

Concurrent with the approval of the compensation policy, and based on the provisions prescribed in the compensation policy, on July 15, 2013 and July 17, 2013, the Compensation Committee and Board of Directors, respectively, approved revised employment conditions for Mr. Shimon Elkabetz, Co-CEO of the Company, Chairman of the Board of Directors of Harel Finance and Chairman of the Board of Directors of Harel-Pia. In addition to these positions, Mr. Elkabetz also holds other senior positions in the Group: Chairman of the Board of Directors of EMI, director in Harel Financing and member of the nostro investment committee of the Group's financial institutions. The revised employment conditions were approved by the general meeting on August 22, 2013.

The revised employment conditions are consistent with the Company's compensation policy, while maintaining previous employment conditions.

2.16.1. Period of employment

The provisions of the new employment agreement apply from October 1, 2013, for an unlimited period. Notwithstanding the foregoing, Mr. Elkabetz may terminate the agreement at any time, by giving 90 days advance notice. The Company may terminate the agreement at any time, by giving 6 months advance notice (no change from the present employment agreement).

2.16.2. Current salary

Based on Shimon Elkabetz' present employment conditions, he is entitled to monthly management fees of NIS 306,000 plus VAT, and this amount is linked to the CPI every month. The amount of the on-going management fees will remain unchanged, and will be linked to the CPI every month.

2.16.3. Annual performance-linked bonus

According to the Company's compensation policy, Mr. Elkabetz will be entitled to an annual performance-linked bonus, as follows:

Threshold condition:

The annual bonus takes into account the Company's financial position. Accordingly, payment of the annual bonus is conditional on meeting the following conditions:

The Company must achieve a comprehensive income yield of 7% ("threshold yield") or higher in the year of the bonus. If the yield is less than 4% ("the Minimum Yield"), the quantitative annual bonus will not be paid, at yield rates of 4%-7%, a proportion of the annual bonus will be paid, calculated as specified below, on a linear basis (if the yield is 4%, 4/7 of the quantitative bonus will be paid, calculated as detailed below; if the yield is 5%, 5/7 of the quantitative bonus will be paid, as detailed below, and so on). Nevertheless, the foregoing is not intended to derogate from the possibility that the discretionary component will be paid in full, subject to the approval of the Compensation Committee and the Board of Directors.

After all the annual bonuses have been paid to the officers and other senior Company employees, Harel Insurance must be in compliance with the regulatory capital, in accordance with the provisions of the Commissioner of the Capital Market, Insurance and Savings, plus NIS 150 million.

The sum total of the performance-linked annual bonuses paid to all the Company's senior officers must not exceed 5.5% of comprehensive income before tax.

Maximum annual performance-linked bonus:

Given that Mr. Elkabetz receives compensation in the form of a management fee which is paid against an invoice, regarding payment of the annual bonus, the "current salary" or "wage" will be computed as 62% of the current monthly management fee. This rate reflects a "normalization" of the payment of management fees paid as compensation just as a salary would be paid in the context of an employment relationship.

The annual bonus paid to Mr. Elkabetz will be limited to 12 times the current monthly salary (the normative amount of the annual bonus is equal to 10 times the current monthly salary).

Minimum bonus:

Mr. Elkabetz announced that he waives the guaranteed (minimum) bonus which was defined in his present employment agreement.

Composition of the annual bonus:

The annual performance-linked bonus payable to Mr. Elkabetz, will include the following components:

Measurable component - an amount derived from multiplying Mr. Elkabetz' multiyear personal score by 80% of his normative bonus.

Discretionary component - a supplement of up to 20% of the officer's normative annual bonus, or a reduction of up to 50% of that amount, as recommended by the Chairman of the Board, and approved by the Compensation Committee and Board of Directors:

Method of calculating the measurable component (80% of the normative bonus):

The amount of the bonus in respect of the measurable component will be determined by multiplying the score to be calculated according to the following parameters, by 80% of the "normative bonus" (i.e. 8 monthly salaries). For example, if the score calculated for the measurable component is 100%, then a bonus of 8 times the current salary will be paid for this component; if the score is 80%, then a bonus of 6.4 times the current salary will be paid for the measurable component; if the score calculated is 125%, the maximum bonus will be paid for the measurable component, namely 10 monthly salaries.

Parameters for determining the personal score for the measurable component for Mr. Elkabetz:

The score will be determined according to the Company's performance over the last three years, with the current year weighted as 50%, the previous year will weighted as 30% and the year preceding that 20%.

Components of the compensation:

Return on equity - comprehensive income (RoE-CI) (30% weighting):

The highest yield in the benchmark group, based on the financial statements, (including Harel Investments) will receive a maximum score of 125%, and the lowest yield will receive a minimum score of (-25%). The score will be determined according to the return on equity - comprehensive income of the Company on a linear basis, based on the two extreme points, as mentioned.

Notwithstanding the foregoing:

- At a rate of RoE-CI of 17% or higher, a maximum score of 125% will be given.
- At a rate of RoE-CI of 13%, a score of 90% will be given;
- At a rate of RoE-CI of between 13% and 17%, a score will be given on a linear basis based on the two extreme points as described above, but in any event the score will be at least 90%.
- At a rate of RoE-CI of 5% or lower, a score of (-25%) will be given;

The aggregate market segment in the mutual funds and index-linked certificates sector (15% weighting):

The score will be determined according to the growth (decrease) in the aggregate market segment of the mutual funds and index-linked certificates, which is not the result of mergers and acquisitions. A 0.25% supplement (0.25 percentage points) to the market segment will provide a score of 100% and a further supplement of 0.2% or more will provide a maximum score of 125%. Conversely, a decline of 1% or more in the market segment will lead to a minimum score of (-25%), as follows:

<u>Market</u>		<u>Score</u>
0.45%	=<	125%
0.25%		100%
0.00%		75%
-0.75%		0%
-1.00%	=>	-25%

A result between two adjacent values in the table will provide a score on a linear basis according to those values (from the top and the bottom).

EBITDA rate (15%):

Meeting the EBITDA target rate - the EBITDA rate is the ratio between EBITDA and revenues, as they are defined, as follows:

- "EBITDA" profit from ordinary activity (before tax) according to the financial statements of Harel Finance for the year of the bonus, after adjustment for depreciation, amortization, financing income and expenses, and provision for impairment of value;
- Revenues income according to the financial statements of Harel Finance for the year of the bonus, after adjustment for financing income.

The EBITDA target rate is as follows: 2013-18%; 2014-19%; 2015-20%.

The EBITDA target rate was set by the Board of Directors as part of the compensation plan and it will apply for three years or until a new compensation policy is approved, whichever is earlier.

The score will be obtained according to the actual difference between the EBITDA rate and the target, based on the following table:

% difference		<u>Score</u>
15%	<=	125%
5%		110%
2%		100%
-2%		100%
-5%		85%
-10%		50%
-20%	=>	-25%

EBITDA of Harel Finance (15% weighting):

The following EBITDA target rates for Harel Finance must be met: 2013 - NIS 44 million; 2014 - NIS 50 million; 2015 - NIS 55 million.

The score will be obtained according to the rate of difference from the target, based on the following table:

	<u>Score</u>
<=	125%
	110%
	100%
	100%
	85%
	50%
=>	-25%

Quantitative score for the investment division of Harel Insurance (25% weighting):

A quantitative score which is derived mainly from criteria used to determine the investment division's quantitative score and comprises three indices:

A score for relative measurement of the yields in the different areas of activity (14% weighting) - relative measurement of the division's performance in the different sectors (pension, insurance, provident, and education funds), by comparing the yields of the leading funds in each sector with the average weighted yield of the principal competitors in that sector. The measurement is for performance in the current year.

A score for relative measurement of the investment risk (6% weighting) - the proposed risk index is a sum of all the negative monthly yields during the measured period. This method examines the monthly yields of the investments, and summarizes only the negative yields, which reflect a risk that has materialized. Insofar as this amount is high compared with that of the competing funds, it is evidence of a relatively high risk. Here too, the measurement will include the activity sectors, as noted above, for the current year.

Performance which is measured using the first two criteria includes measurement of the investment yields and of the impairment rates in the different areas of activity, compared with the results of the largest competitors in each area. Details of the competitors in the different areas:

Profit-sharing policies	Pension funds	Provident funds	Education funds
Harel	Harel-Gilad Pension	Harel Otzma Taoz General	Harel Education
Migdal	Mivtachim	Psagot Gadish General	Migdal Kahal Education – general track
Clal Insurance	Makefet	Clal Tamar General	Psagot Kinneret General
The Phoenix	Atidit	Dash Benefits	Dash Education
Menorah-Mivtachim	The Phoenix	Excellence Gemel	Clal Education General
		Yahavit Yelin Lapidot Gemel General Altshuler Shaham Gemel	Altshuler Shaham Education – general track Yelin Lapidot Education – general track Excellence Education
		General	Analyst Education General Halman Aldubi Yahavit Education

The score will be given according to the position of the fund/portfolio with respect to the yield compared with the competitors (on a scale from highest to lowest), as follows:

	Insurance &	Provident &
	<u>pension</u>	<u>education</u>
Position		
1	125%	125%
2	100%	110%
3	60%	80%
4	20%	30%
5	-25%	0%
6 and lower		-25%

Regarding the risk, the score will be determined similarly after a ranking of the competitors according to the monthly reductions in absolute values, from lowest to highest.

Nostro portfolio yield (5% weighting) - the insurance company's annual nostro portfolio yield compared with the yield for the four other largest insurance companies, as follows: the highest yield in the benchmark group (including Harel Investments) will receive a maximum score of 125%, and the lowest yield will receive a minimum score of (-25%). The score will be determined according to the yield in the Company's nostro portfolio on a linear basis, based on the two extreme points, as mentioned.

		Weight in determining				
			Unit score			
			Risk –			
	Type of	Yield in	percentage decline			
Measured sector	<u>measurement</u>	last year	in last year			
Profit-sharing policies	Comparison with	3.5%	1.5%			
Large provident funds	largest	3.5%	1.5%			
Large pension funds	competitors	3.5%	1.5%			
Large education funds	in sector	3.5%	1.5%			
Nostro portfolio		5.0%				
		<u>19.0%</u>	<u>6.0%</u>			

Should one of the companies listed above cease to operate in its present format, it will not be taken into account in calculation of the parameters and adjustment will be made, as long as there are at least two benchmark companies.

Method of determining the discretionary component (20% of the normative bonus):

The discretionary component will be influenced, in part, by the extent to which the Company's goals, as set by the Board of directors, are met: risk management, compliance with laws, compliance with regulatory provisions and Company procedures, relying, inter alia, on internal audit reports and control studies which will form part of the considerations in supplementing or reducing the bonus.

Insofar as it is positive, the discretionary component may be paid in full even if the above-mentioned threshold conditions are not met.

The discretionary component will be determined by the Compensation Committee and approved by the Board of Directors, after receiving a recommendation from the Chairman of the Board.

If annual bonuses are paid to Mr. Elkabetz on the basis of data that are subsequently found to be erroneous due to an error by the Company which is a significant error (irrespective of whether the error is a material error in the financial statements or is a material error in calculations prepared for determining the annual bonus), the CEO will return the surplus bonus amounts, and if the bonus was underpaid, the Company will make up the shortfall within one year of the date of the Company's notification of such, linked to the CPI. After informing the CEO 15 days in advance, the Company may offset the surplus bonus amounts or part thereof from bonuses owed to the CEO for the subsequent years.

If Mr. Elkabetz' employment is terminated during the course of the calendar year, the annual bonus will be calculated pro rata to the period during which he worked for the Company in that year.

The results of the calculation of the annual bonus must be approved by the Company's Compensation Committee each year, after the date of approval of the financial statements for the year ended, and no later than the end of June.

2.16.4. Related conditions

Mr. Shimon Elkabetz will be entitled to a refund of reasonable expenses incurred while fulfilling his duties, including costs of a telephone / mobile phone, membership fees of professional organizations, subscription to newspapers and professional literature, professional liability insurance, periodic surveys, health insurance policy / group dental insurance for Harel Group employees, group risk policy for senior Harel Group executives, group work disability policy for Harel Group employees, participation in study days and incentive trips for agents (with spouse), wellbeing activities according to general practice in the Harel Group (e.g. pre-festival gifts, vacation, meals, team-building activities, etc.), purchase of Harel Group insurance products under conditions given to the Group's employees, purchase of Harel Finance financial products under conditions given to Group employees. Mr. Elkabetz will not be entitled to a refund of expenses for a car or to social benefits.

Mr. Elkabetz will be entitled to 25 days paid vacation a year. Unutilized vacation days, including in respect of the period of Mr. Elkabetz' employment from the commencement of his employment for the Company, will be accumulated and may be redeemed when his employment terminates (no change from the present employment agreement), but in any event no more than 40 days may be accumulated.

Mr. Elkabetz will be entitled to 30 days paid sick leave a year, and he may accumulate these days up to a total of 180 days, although he will not be entitled to redeem them when his employment for the Company terminates (no change from the present employment agreement).

Mr. Elkabetz will be given a letter of indemnity, as part of the Company's resolutions as approved by the general meeting in July 2006 and by a general meeting in March 2012.

2.16.5. Termination of employment

Mr. Elkabetz will be entitled to a salary for a 6 month adjustment period (in the present agreement, he is entitled to a salary for a 3-month adjustment period), which corresponds with the permitted period in the Company's compensation policy.

Mr. Elkabetz will be entitled to 50% severance pay (over and above the lawful entitlement at a rate of 100% which is paid as part of the on-going management fees in the amount specified above) for the period commencing from the date on which he commenced his term of office for the Company and up to the date on which he terminates his employment for the Company. According to the Company's present compensation policy for senior officers, employees with considerable seniority are entitled to 200% severance pay. Payment of increased severance pay is accepted practice for senior officers of companies comparable in size to the Company and by companies in the benchmark group, and in light of the desire to remunerate the CEO and encourage him to continue working for the development and progress of the Company, Harel Insurance and its subsidiaries, in achieving profits for the Group and attaining its goals.

Based on the Company's compensation policy, Mr. Elkabetz and his family members will be entitled to continue to be included in the group insurance policies of Harel employees, in return for payment of the premiums, even after his employment terminates, according to the amounts which were accepted for all Group employees.

2.16.6. Ratio of the terms of service and employment of Shimon Elkabetz to those of all the Company's employees

Data comparing Shimon Elkabetz' on-going salary and total cost of his employment conditions with the current median and average salary and the median and average cost of employment of all the Group's employees were presented to the Compensation Committee and the Board of Directors.

Following are data regarding these ratios:

The ratio between Mr. Elkabetz' current salary (excluding provision for social benefits) and the current average wage in the Group is 18.1.

The ratio between Mr. Elkabetz' current salary and the median wage (excluding provision for social benefits) in the Group is 24.5.

The ratio between the total cost of Mr. Elkabetz' employment conditions (excluding non-recurring influences) and the average wage in the Group: 31.4

The ratio between the total cost of Mr. Elkabetz' employment conditions (excluding non-recurring influences) and the median wage in the Group: 48.9

The ratio between the total cost of Mr. Elkabetz' employment conditions (excluding non-recurring influences) and the overall average cost of employment of the Group's employees: 22.9.

The ratio between the total cost of Mr. Elkabetz' employment conditions (excluding non-recurring influences) and the overall median cost of employment of the Group's employees: 34.1.

After reviewing these ratios, in light of Mr. Elkabetz' key position and significant contribution to the Group's performance, in light of the broad responsibility which are part of his duties, as well as the excellent work relationships prevailing in the Group, the Compensation Committee and Board of Directors are of the opinion that the ratio is fair and reasonable.

2.16.7. The following details the total cost to the Company of the employment conditions of Shimon Elkabetz:

Details of the expected compensation for 2013 (based on the revised compensation plan and taking into account that it will become applicable, subject to approval, only from October 1, 2013, and will include non-recurring provisions):

	Compensation recipient				Compensation for services							Other compensation		
Name	Position	Scope of position	Percentage holding of company equity	Wage		Share- based payment	Management fee	Consulting fee	Commission	Other	Interest	Rental	Other	Total
Shimon Elkabetz	Co-CEO of the Company, Chairman - Harel Finance, Chairman - Harel-Pia, Chairman of the Board EMI.	100%	-		**1,386	811	3,678			***1,537				*7,412

- (*) The amounts do not include the performance-linked bonus payable for 2013 as it is impossible to estimate whether Mr. Elkabetz will be entitled to this bonus and what the scope of the bonus will be. It should be noted that even at the publication date of the financial statements for 2013, the Company will not have this information, consequently the figures published will not include data for the annual performance-linked bonus for 2013. It should be noted that the annual normative bonus is 10 times the current monthly salary (according to 62% of the on-going management fee) and the maximum annual bonus is 12 times the current monthly salary. For information about the compensation which would have been paid had the bonus plan for 2011 and 2012 results been applied, see below.
- (**) The bonus is for 2012, based on the information in Section 5 of the agenda for the general meeting. Given that on the publication date of the 2012 financial statements the bonus could not be paid, due to the fact that the compensation plan for Mr. Elkabetz had not been defined, and the subject is only now being submitted for approval, the 2012 bonus was not included in the 2012 financial statements, and it will be included in the 2013 report.
- (***) This amount includes non-recurring provision for an increase in the rate of severance pay and an increase in the retirement bonus.

Details of the expected compensation for 2014:

	Compensation recipient				Compensation for services					Other compensation			Total	
Name	Position	Scope of	Percentage holding of company equity	Wage	Bonus	Share- based payme nt	Manage ment fee	Consu lting fee	Comm	Other	Interest	Rental	Other	Total
Shimon Elkabetz	Co-CEO of the Company, Chairman - Harel Finance, Chairman - Harel-Pia, Chairman of the Board EMI.	100%	-		(*)	491	3,678			100				*4,269

^(*) The amounts do not include the performance-linked bonus payable for 2013 as it is impossible to estimate whether Mr. Elkabetz will be entitled to this bonus and what the scope of the bonus will be. It should be noted that the annual normative bonus is 10 times the current monthly salary (according to 62% of the on-going management fee) and the maximum annual bonus is 12 times the current monthly salary. For information about the compensation which would have been paid had the bonus plan for 2011 and 2012 results been applied, see below.

2.16.8. Information about the bonus which would have been paid according to performance-linked bonus plan for Mr. Elkabetz had it been applicable in 2011 and 2012 Year 2011:

According to the quantitative parameters mentioned above, had they been applied to 2011, Shimon Elkabetz would not have been eligible for any annual performance-linked bonus for 2011. Nevertheless, the Compensation Committee and Board of Directors would have been able to approve a discretionary bonus of twice his current monthly salary. According to Mr. Elkabetz' salary at the end of 2011 (62% of the monthly management fee), the total annual performance-linked bonus would have amounted to a maximum of NIS 372,000.

Year 2012:

The total performance-linked bonus which would have been paid according to the above-mentioned quantitative parameters according to the information for 2012 amounts to 8.68 times the current monthly salary. Based on Mr. Elkabetz' monthly salary at the end of 2012 (62% of the monthly management fee), the bonus would have amounted to NIS 1,636,932. In addition to this bonus, the Board of Directors could have approved a discretionary bonus of up to twice the current monthly salary. The maximum bonus which Mr. Elkabetz could have received for 2012 would therefore have amounted to NIS 2,014,105.

2.16.9. Summary of the reasons given by the Compensation Committee and Board of Directors for approving the revised employment conditions of Mr. Shimon Elkabetz:

As Co-CEO of the Company, Chairman of Harel Finance, Chairman of Harel-Pia, Chairman of EMI, member of the nostro investment committees of the Harel Group's financial institutions and the person responsible for the investment division of Harel Insurance, Shimon Elkabetz is involved in most of the Group's significant business decisions, formulation of its strategy, development of its business in the areas of finance and investments, embarking on new areas of investment activity, and he is involved in and directs, together with the Group's senior officers, most of its business activity. Mr. Elkabetz is a key partner in the achievements that the Group has made in recent years.

Mr. Elkabetz' long-standing experience in the investment and capital markets sector is extremely valuable to the Company and its business success.

During the course of discussions on this subject, based on the desire to compensate Mr. Elkabetz and provide him with an incentive to continue the pursuit of his successful activity for many more years for the development and dominance of the Group, to improve the Group's profits and achieve the ambitious targets set by the Board of Directors every year, in this period of challenges and important changes in the insurance, capital market and finance markets, the following information and parameters were taken into account: (a) comparison of the proposed compensation with Mr. Elkabetz' present terms of employment; (b) comparison data regarding the salary, terms of office and employment of CEOs in the benchmark group, which is the large insurance and finance groups and the five largest banks; and (c) information about the scope of the proposed compensation for the CEO and the financial ramifications, including provisions in respect of the compensation. As part of these comparative data, the bonus components and other salary components were taken into account; In the context of these discussions, the fact that the proposed employment conditions do not include an equity component, as was accepted practice in the past, was taken into account, together with the fact that the special bonuses paid in the past will no longer be given as they were previously. Likewise, the approval took into account the fact that the parameters for payment of the bonus are based mainly on comparative parameters for the largest insurance and finance groups, where the discretionary component is not significant.

Data comparing Shimon Elkabetz' on-going salary and total cost of his employment conditions with the current median and average salary and the median and average cost of employment of all the Group's employees were presented to the Compensation Committee and the Board of Directors. The Compensation Committee and Board of Directors concluded, taking note of Mr. Elkabetz' considerable contribution to the Group's achievements and performance, taking note of the extensive responsibility imposed on Mr. Elkabetz in his different positions within the Group, and taking note of the excellent work relationships in the Group, that the present ratio is reasonable.

Regarding the current salary, including the fixed compensation which does not include entitlement to social benefits, the Compensation Committee and Board of Directors received comparative data for the current salary and total cost of employment in companies in the benchmark group, and concluded that taking note of the size of the Company and its business success, the current salary and resulting overall cost of employment, do not deviate from the accepted norm. When addressing this subject, the Compensation Committee and Board of Directors considered the importance of keeping Mr. Elkabetz in his position as Company CEO for many years, and the Compensation Committee and Board of Directors therefore believe that his salary should be guaranteed and that the overall cost of his employment conditions should be in the upper range of the employment conditions which are the accepted norm for CEOs of companies in the benchmark group.

The Compensation Committee and Board of Directors reached the conclusion that the general and related benefits which are part of Mr. Elkabetz' terms of employment do not deviate from those accepted by the Group or from the accepted norms in the markets in which the Group operates. The Compensation Committee and Board of Directors are therefore of the opinion that the related conditions are reasonable and fair and that the granting of such benefits serves the Company's best interests.

Regarding the annual performance-linked bonus, the Compensation Committee and Board of Directors are of the opinion that such a bonus serves as a key incentive for the CEO to lead the Group to success, both in absolute terms and when compared with the other insurance and finance groups. Accordingly, objective quantitative indices were defined, most of which can be compared with the results of the other insurance and finance groups. These quantitative parameters which were defined for the purpose of computing the annual performance-linked bonus are significant to the success of the Company and will be used by the Board of Directors to direct and outline the Company's operating policy, in accordance with the strategy determined by the Board of Directors. The Compensation Committee and Board of Directors are of the opinion that these parameters will serve as the main form of incentive for the CEO and maintain the ability to direct the CEO's activity, focusing it on matters which are material to the Company's success.

To ensure that performance-linked bonuses will only be paid in years in which the Company achieves satisfactory results, at the very least, minimum criteria were established for the payment of performance-linked bonuses.

Likewise, to prevent the taking of short-term risks, the scope of the performance-linked bonuses was limited, according to a multiple of the monthly salaries, where the maximum amount is for 12 salaries. The Compensation Committee and Board of Directors believe that this limitation is essential in a financial institution, and that the limitation prevents the taking of short-term risks or risks which do not correspond with the Company's risk appetite, as defined from time to time in the Board of Directors' policy.

The Compensation Committee and Board of Directors believe that the granting of letters of indemnity is accepted practice among public companies in general and among companies in the insurance and financial services industry in particular. The granting of letters of indemnity is for the benefit of the Company, as it provides the CEO with the ability to carry out his duties properly and for the Company's benefit, taking into account the judicial risks entailed in performing his duties and the considerable responsibility imposed on him by law.

The Compensation Committee and Board of Directors are of the opinion that the conditions prescribed with respect to the termination of a term of office in the Company are reasonable and fair and that they serve the Company's best interests. The defined six-month advance notice period is reasonable and accepted for CEOs and is consistent with the period defined in the compensation policy.

Mr. Elkabetz' adjustment bonus, which has been part of his employment agreement for several years, is reasonable taking into account his contribution to the Group and the desire of the Compensation Committee and Board of Directors to encourage Mr. Elkabetz to continue to lead the Group in achieving its ambitious goals for many more years. The scope of the adjustment bonus is within the range defined in the compensation policy.

The non-competition agreement with Mr. Elkabetz is for a relatively long period, in view of his important position within the Group. Mr. Elkabetz is a key partner in most of the Group's strategic moves. Against this backdrop, and if we compare the overall compensation for non-competition which is for a particularly long period, with the total annual cost of the Mr. Elkabetz' employment conditions, the Compensation Committee and Board of Directors concluded that the non-competition agreement is reasonable and serves the Company's best interests.

The Compensation Committee and Board of Directors believe that approval of 50% additional severance pay for Mr. Elkabetz, over and above the severance pay which is paid as part of his on-going management fee, is fair and reasonable. The granting of such severance pay corresponds with the Company's compensation policy and has been accepted practice by the Group for many years with respect to senior officers who have been employed by the Group in senior positions. Notwithstanding the foregoing, the Compensation Committee and Board of Directors set the rate of severance pay for this period at 150% and not 200%, in line with the maximum rate defined in the compensation policy. The Compensation Committee and Board of Directors reached the conclusion that the granting of increased severance pay, which is an accepted compensation component in the terms of employment of CEOs and senior officers in the markets in which the Company operates, is for the benefit of the Company, where the failure to offer such compensation will result in inferior terms of employment for the CEO relative to the relevant alternatives. The granting of increased severance pay is therefore a significant element in the Company's ability to retain the CEO so that he can continue his work for the Company in the long term.

Based on all the foregoing, and in view of Mr. Elkabetz' importance to and central role in the Company, the Compensation Committee and the Board of Directors determined that the overall compensation is reasonable and fair, taking note of his position in the Company and that it meets market conditions when compared with the relevant benchmark group. Similarly, it was determined that, with the exception of two subjects which in the view of the Compensation Committee and the Board of Directors do not constitute a significant deviation, the compensation is consistent with the compensation plan, it is for the Company's benefit and advances the Company's goals, achieves an appropriate balance between the bonus and fixed salary components, thus avoiding a conflict with the Company's best interests.

The compensation is therefore reasonable, adequate and consistent with Shimon Elkabetz' contribution to the Company's performance, both in the short and longer term, and it offers Mr. Elkabetz the appropriate incentive to continue to realize the ambitious goals set by the Company in its work plan as well as in years to come.

2.17. Approval of the bonus payable to Shimon Elkabetz for 2012

2.17.1. Details of the bonus

Mr. Shimon Elkabetz was not subject to the compensation plan defined for the Group's financial institutions, given that he does not serve as CEO of the financial institutions controlled by the Group, and that the bonus paid to him for previous years was discretionary on the part of the Board of Directors, except for a guaranteed bonus of NIS 500,000 which is defined in his present employment conditions.

When the bonuses for 2012 for the Company's senior officers were approved, the Compensation Committee and Board of Directors resolved that the bonus for Mr. Elkabetz for 2012 would be discussed and approved as part of the discussions on the compensation plan, based on Amendment no. 20 to the Companies Law, and that the bonus for 2012 would be defined on the basis of the parameters laid out in the compensation plan.

The compensation plan for Mr. Elkabetz, as detailed in Section 2.16, includes quantitative parameters for the purpose of defining the annual performance-linked bonus. Two of these parameters (EBITDA rate and compliance with the EBITDA rate) are not computed in comparison to other companies, but are computed based on the targets set by the Compensation Committee and Board of Directors for the first time in the compensation plan. Given that these targets did not exist in 2012, the Compensation Committee and Board of Directors resolved that the calculation of the bonus for Mr. Elkabetz for 2012 would not take these components into account. Likewise, given that prior to the approval of the compensation policy, the compensation plan did not apply to Mr. Elkabetz, based on the provisions of the plan, the parameters computed for 2012 are all the parameters for calculating the annual bonus (100% weighting for 2012).

The following details the results of the quantitative parameters defined for Mr. Elkabetz in the compensation plan, as applicable to the Company's performance in 2012.

The total performance-linked bonus to which Mr. Elkabetz is entitled, according to the quantitative parameters detailed in Section 2.17 above, based on the data for 2012, after adjustment for the EBITDA rate parameter and for the parameter of compliance with the EBITDA target of Harel Finance, (as noted above, given that these parameters were defined for the first time in the compensation plan, it was decided not to apply them retrospectively and as specified in the compensation policy, and as 2012 was the first year in which the plan was applied to Mr. Elkabetz, results for the two years preceding 2012 were not taken into account in calculating the weighting of the quantitative parameters) amounts to 8.7 times the current monthly salary. Accordingly, based on Mr. Elkabetz' monthly salary in March 2013 (62% of the monthly management fee), the bonus would have amounted to NIS 1,636,932.

Additionally, according to the decision of the Compensation Committee and Board of Directors, and in view of the results for 2012, and the projects led by Mr. Elkabetz in 2012, the Compensation Committee and Board of Directors resolved that Mr. Elkabetz is entitled to a discretionary bonus of 1.3 times the current monthly salary (out of twice the current salary).

Consequently, the total bonus to which Mr. Elkabetz is entitled for 2012 amounts to NIS 1,885,866.

Given that Mr. Elkabetz has already received the guaranteed component of the bonus in the amount of NIS 500,000, he is entitled to the outstanding amount of the annual bonus of NIS 1,385,866.

2.17.2. Compliance of the bonus for 2012 with the conditions of the compensation plan

Mr. Elkabetz did not receive a bonus for 2012, a year in which the Company posted excellent results, due to the fact that in the past the compensation plan applicable to him did not include quantitative parameters for the payment of annual bonuses (excluding the guaranteed bonus of NIS 500,000).

The bonus for which we now seek approval was calculated based on the conditions of the compensation policy outlined above, and on the employment conditions of Mr. Shimon Elkabetz. In making the calculation, two parameters which cannot be compared with the results of other companies were discounted, but were defined as part of the compensation plan as a target for coming years, and for which the Board of Directors had not set a defined target in 2012. Consequently, the deviation in the compensation policy is designed to guarantee the objectivity of the parameters used to calculate the bonus for 2012.

2.17.3. Summary of the reasons given by the Compensation Committee and Board of Directors concerning the granting of a bonus for 2012:

The purpose of the annual performance-linked bonus is to serve as an incentive for the CEO to lead the Group to success, both in absolute terms and when compared with the other insurance and finance groups. According to the previous employment conditions of Mr. Elkabetz, the annual bonus paid to him was set by the Board of Directors at the Board's discretion, based on the Company's performance and on a review conducted by the Board of Directors regarding the scope of the entitlement to a bonus, taking into account the meeting of various targets.

In view of the entering into force of Amendment no. 20, a bonus could not be paid to Mr. Elkabetz for 2012, even though this was a particularly successful year for the Company, and it was therefore decided that the bonus will be paid after the compensation policy is approved, and based on the quantitative parameters defined in the compensation policy.

Payment of the bonus for 2012 according to the defined quantitative parameters, which are mostly parameters that compare the Company's performance with that of other companies in its operating sectors, ensures that the bonus will be paid based on objective criteria which reflect the Company's strong performance in 2012.

As Co-CEO of the Company and the person who holds a variety of positions in the Group, Shimon Elkabetz was a key partner in the Group's success in 2012 and to important moves taken during the year in a variety of areas of activity.

The Compensation Committee and Board of Directors received comparative figures regarding the total cost of Mr. Elkabetz' employment, including the amount of the proposed bonus for 2012, as well as comparative figures regarding the overall cost of employment of the CEOs of the benchmark companies, and they concluded that the bonus is fair and reasonable, and that payment of the bonus serves the Company's interest in that it demonstrates the Company's appreciation of Mr. Elkabetz' contribution to performance in 2012.

3. Market Risk Exposure and Management

There were no material changes during the Reporting Period in the exposure to the Company's market risks and their management compared with the periodical report.

4. Corporate governance

4.1. Details concerning the process for approving the Company's financial statements

The Companies (Provisions and conditions concerning the procedure for approval of the financial statements) Regulations, 5770-2010, include mandatory rules that public companies must apply in the process of approvi7ng financial statements. The provisions of the regulations apply from the financial statements at December 31, 2010.

The regulations stipulate that before the financial statements are presented for the approval of the company's board of directors, the reports are to be discussed and approved by a special committee known as "the Committee for the Review of the Financial Statements" ("the Committee"). The Committee is responsible for discussing the financial statements and formulating a recommendation to the board of directors regarding those matters prescribed in the regulations.

The regulations prescribe several conditions with respect to the composition of the Committee and its discussions:

The Committee shall consist of at least 3 members;

Members of the Committee shall not be employees of the company, permanent service providers of the company, a controlling shareholder or relative of such a person (like the audit committee);

The Committee's chair shall be an outside director;

Only directors shall be members of the Committee:

A majority of the Committee's members shall be independent directors;

All members of the Committee must have the ability to read and understand financial statements;

At least one of the independent directors shall have accounting and finance expertise;

The Committee members have declared that they are capable of reading and understanding financial statements and a director who has accounting and finance expertise must give a declaration in accordance with the Companies (Conditions and tests for a director with accounting and finance expertise and a director with professional qualifications) Regulations, 5765-2005.

The quorum required for discussing and passing resolutions by the Committee is a majority of its members, provided that most of those present are independent directors and that at least one outside director is present. Until these regulations took effect, the Company had a balance sheet committee whose functions were similar to those prescribed in the regulations for the "Committee for the review of the financial statements".

The Committee consists of the following members:

David Granot, Chairman (External Director)

Prof. Israel Gilad (External Director)

Doron Cohen

Esther Dominissini (External Director)

As noted above, the Committee is a special purpose committee appointed for the purpose of approving the financial statements and the Audit Committee will not serve as the Committee for the approval of the financial statements.

- 4.1.1. Regarding details concerning the members of the Committee for the review of the financial statements see Article 26 in chapter 5 Additional information about the Company in the Periodic Report of the Company for 2012.
- 4.1.2. Procedure for approval of the financial statements:

To approve the financial statements at September 30, 2013, the Committee convened on November 18, 2013.

In addition, the Company's CPA are invited to and attend meeting of the Committee and Board of Directors' meeting that discuss and approve the financial statements, and they present the principal findings, if there are such, that emerged during the course of the audit or the review. The meeting was also attended by the Company's CFO, Ronen Agassi CPA, and legal advisor, Adv. Hanan Fridman. A meeting of the Committee held on November 18, 2013 was attended by the Company's CPA and the internal auditor was also invited to the meeting.

A detailed review of the material issues in the financial reporting is presented to the balance sheet committee, including material transactions that are not the normal course of business, if and insofar as there are any, the material assumptions and critical estimates that were applied in the financial statements, the reasonability of the data, the accounting policy which was applied and any changes which occurred in this policy, as well as implementation of the principle of fair disclosure in the financial statements and related information. The balance sheet committee also receives a review of issues that emerged, if they emerged, while performing the audit and risk management, the efficacy of the controls and procedures.

The Committee also reviews various aspects of risk management and control, those that are reflected in the financial statements, as well as those that affect the credibility of the financial statements. In addition, the Committee may request that other subjects are also reviewed, at the discretion of the committee's members.

The Committee is also advised of the results of the SOX procedure implemented by the Company and its subsidiaries that are financial institutions, and it reviews the effectiveness of the internal control.

To formulate its recommendations to the Board of Directors, the draft financial statements are submitted to the members of the Committee several days before the meeting scheduled to discuss them. The Committee meets prior to the Board of Directors' meeting which discusses and approves the Financial Statements. The Committee's recommendations are submitted to the Board of Directors as soon as the Committee's meeting is over.

At a meeting of the committee held on November 18, 2013, the committee members held a detailed discussion of the Company's estimates and assessments on which the financial reports were based, addressing the discretion applied by management on various issues. The committee's members were also advised regarding the internal control process, they examined material issues in the financial reports, the completeness and reasonability of the financial reporting, the accounting policy and figures in the financial statements.

During the meeting of the Company's Board of Directors which approves the financial statements, the Committee's recommendations, insofar as there are any, are reviewed, in connection with the approval of the financial statements, the Company's financial performance is reviewed and the changes that have occurred during the reported period are presented. During the course of the deliberations of the Company's Board of Directors, questions are raised by the members of the board on issues that arose during the audit and whether the financial statements faithfully reflect the Company's financial position. The questions and issues discussed are answered by management. After the discussion, the Chairman of the Board calls for a vote to approve the financial statements.

On a meeting of the Company's Board of Directors held on November 24, 2013, the Board of Directors was updated with the committee's recommendations, the main consolidated financial statements, in divisions to the different activity segments, were reviewed by the Company's CEO and the material issues were in debate.

Auditors' review report to the shareholders of Harel Insurance Investments and Financial Services Ltd.

Introduction

We reviewed the attached financial information of Harel Investments in Insurance and Financial Services Ltd. and its subsidiaries (hereinafter: "the Group") which include the condensed interim consolidated statement of position as at September 30, 2013 and the condensed interim consolidated statements of income, comprehensive income, changes in capital and cash flows for the nine and three months then ended. The Board of Directors and management are responsible for the preparation and presentation of the financial information for these interim periods in accordance with international accounting standard IAS 34 "Financial reporting for interim periods", and they are responsible for the preparation for the preparation of financial information for these interim periods under Chapter D of the Securities Regulations (Periodic and Immediate Reports) - 1970. To the extent that these regulations apply to insurance companies and subject to the disclosure requirements issued by the Supervisor of Insurance according to the Law for the Supervision of Financial Services (Insurance) - 1981. Our responsibility is to express a conclusion on the financial information for the interim periods, based on our review.

We did not review the condensed financial information for the interim periods of consolidated companies whose assets included in the consolidation comprise 15.56% of all the consolidated assets as at September 30, 2013 and whose revenues included in the consolidation comprise 2.10% and 2.16% of all the consolidated revenues for the period of nine and three months then ended, respectivly. Moreover we did not review the condensed financial information for the interim period of investee companies presented by the equity method in which the investment in them is NIS 123.196 thousand as at September 30, 2013, and the Group's shares of their profit aggregated NIS 7,588 thousand and NIS 2,773 thousand for the periods of six and three months then ended, respectively. The condensed financial information for the interim period of those companies were reviewed by other auditors whose review reports were furnished to us and our conclusions, to the extent that they relate to financial information for those companies, are based on the review reports of the other auditors.

Scope of the review

We prepared our review in accordance with Review Standard 1 of the Institute of Certified Public Accountants in Israel "Review of financial information for interim periods prepared by the entity's auditor". The review of the financial information for interim periods comprises clarifications, mainly with the people responsible for financial and accounting matters, and from adopting analytical and other review procedures. A review is considerably more limited in scope than an audit performed in accordance with generally accepted auditing standards in Israel, and therefore does not enable us to be certain that we will know of all the significant matters which could have been identified in an audit. Consequently, we are not issuing an opinion of an audit.

Somekh Chaikin

KPMG Millennium Tower Telephone: 03-684 8000 17 Ha'arbaa Street, P.O. Box 609 Fax: 03-684 8444 Tel-Aviv 61006 Internet: www.kpmg.co.il

Conclusion

Based on our review, and on the review report of the other auditors, nothing came to our notice which would cause us to think that the above financial information is not prepared, in all significant aspects, in accordance with International Accounting Standard IAS34.

In addition to the remark in the previous paragraph, based on our review and on the review reports of the other auditors, nothing came to our attention which cause us to think that the above financial information does not meet, from all significant aspects, the provisions of the Pronouncement under Chapter D of the Securities Regulations (Periodic and Immediate Reports) - 1970 to the extent that the regulations apply to insurance companies and according to the disclosure requirements issued by the Supervisor of Insurance according to the Law for the Supervision of Financial Services (Insurance) - 1981.

Without qualifying our above conclusions we direct attention to Note 7A to the interim condensed consolidated financial statements regarding exposure to contingent liabilities.

Note 1 - General

The reporting entity

Harel Investments in Insurance and Financial Services Ltd. (hereinafter: "the Company") is an Israeli resident company, which was incorporated in Israel, and whose shares are traded on the Tel Aviv Stock Exchange. Its official address is 3 Abba Hillel Silver Street, Ramat Gan.

The Company is a holding company whose main holdings are in subsidiaries comprising insurance and financial companies. The condensed interim consolidated financial statements, as at September 30, 2013, include those of the Company and its subsidiaries (hereinafter: "the Group"), the Company's rights in entities with joint control and the Group's rights in affiliated companies.

The condensed interim consolidated financial statements mainly reflect assets and liabilities and operations of the subsidiary insurance companies and, therefore, were prepared in a similar format.

Note 2 - Basis for preparing the financial statements

a. Declaration on compliance with International Financial Reporting Standards

The condensed interim consolidated financial statements were prepared in accordance with IAS 34 - Financial Reporting for Interim Periods and in accordance with the requirements of the Pronouncements issued by the Supervisor of Insurance and in accordance with the Law for the Supervision of Financial Services (Insurance) – 1981 (hereinafter: "The Law for the Supervision"), and does not include all of the information required in full annual financial statements. One must read them together with the financial statements as at and for the year ended December 31, 2012 (hereinafter: "the Annual Statements"). Moreover, these statements were prepared in accordance with the provisions of Chapter D of the Securities Regulations (Periodic and Immediate Reports) - 1970.

The condensed interim consolidated financial statements were approved for publication by the Company's Board of Directors on November 24, 2013.

b. Use of estimates and discretion

1. In the preparation of the condensed interim consolidated financial statements in accordance with IFRS and in accordance with the Supervision Law and the Regulations issued under it, the Group's management is required to use its discretion in evaluations, estimates and assumptions, including actuarial assumptions and estimates (hereinafter: "Estimates") which affect the implementation of the accounting policy and the value of assets and liabilities, and of amounts of revenues and expenses. It should be clarified that actual results are liable to be different from these estimates. The main estimates included in the financial statements are based on actuarial evaluations and on external evaluations.

On formulating these accounting estimates used in the preparation of the Group's financial statements, the Company's management is required to assume assumptions regarding circumstances and events which are connected with considerable uncertainty. When using their discretion in determining the estimates, the Company's management bases itself on past experience, various factors, external factors, and reasonable assumptions in accordance with the relevant circumstances for every estimate.

The estimates are reviewed on a current basis. Changes in accounting estimates are recognized during the period in which the estimates were amended and in every future affected period.

The evaluations and discretion that management uses in order to implement the accounting policy and prepare the condensed consolidated interim financial statements are mainly consistent with those used in the preparation of the consolidated financial statements as at December 31, 2012.

Note 2 - Basis for preparing the financial statements (contd.)

b. Use of estimates and discretion (contd.)

2. On January 30, 2012, the Ministry of Finance published a new tender for the setting up and operation of an individual price quote and interest rate database for financial institutions (corporate bonds, loans, deposits etc.).

On October 14, 2012, Shaarey Ribit won the tender for the creation and operation of a price quotation and interest rate database for financial institutions. Shaarey Ribit will supply price quotation and interest rate for financial institutions for the revaluation of non-marketable debt assets including establish the methodology for determining prices and interest rates for the capitalization of cash flows of non-marketable debt assets. Shaarey Ribit will also establish a database for non-marketable debt assets. In a publication of the Ministry of Finance from April 17, 2013 it was stipulated that the date of transition to the revaluation based on the quotes of Shaarey Ribit will be not sooner than July 2013.

A Ministry of Finance publication dated September 17, 2013 stipulated that the transition date for revaluation, based on quotes from Shaarey Ribit will not be before January 2014. The precise date will be published, at the latest, 30 days before the transition date.

At this stage, the Group's financial institutions are unable to estimate the effect of the projected change in methodology on the fair value of non-marketable debt assets and whether there will be any such effect.

3. The insurance liabilities in respect the acquisition of the activity of Eliahu are included in the financial statements of Harel for the first time since the beginning of 2013, and they were calculated mainly in accordance with the assumptions and methods applied by Harel, net of the future profits embedded therein which were computed by an external appraiser.

In view of the unique nature of the insurance liabilities in Eliahu's long-term care insurance plans compared with those of Harel, which include a mechanism for sharing the investment profits, and based on adjustment of the sums insured for the policyholder, the reserve was computed using the Net Premium Reserve method and not using the Gross Premium Reserve Method, as is customary for the long-term care insurance plans, where the insurance sum is permanent.

Excluding those details in clause a. above, the Group's accounting principles in these condensed interim consolidated financial statements is the policy which is applied in the annual statements. The following is a description of the nature of the changes made in the accounting policies in these condensed interim consolidated financial statements and their effect.

a. First implementation of new standards

From January 1, 2013, the Group is implementing the following standards and amendments:

1. Deferred Taxes in respect of Investment Property

IFRS 10, Consolidated Financial Statements ("IFRS 10")

- IFRS 10 introduces a new single control model for determining whether an investee should be consolidated, which is to be implemented with respect to all investees.
- De facto power is to be considered when assessing control, which means that the existence of effective control of an investee will require consolidation.
- When assessing the existence of control, all substantive potential voting rights will be taken into account, and not only potential voting rights that are currently exercisable.
- The requirements of IAS 27 will continue to be valid only for separate financial statements.

In the opinion of the Group, application of the suite of standards will not have a material effect on the financial statements.

IFRS 11, Joint Arrangements ("IFRS 11"), Joint Ventures, IAS 28 Investments in Associates

IFRS 11 classifies joint arrangements as joint operations or as joint ventures on the basis of the rights and obligations of the parties to the arrangement. Joint ventures, which are all the joint arrangements structured in a separate vehicle in which the parties with joint control have rights to the net assets of the joint arrangement, shall only be accounted for using the equity method (the option to apply the proportionate consolidation method has been eliminated).

IFRS 11 will be applied retrospectively. Subsequent to the adoption of IFRS 11, joint ventures will henceforth be accounted for using the equity method, whereas prior to the application of IFRS 11 it was Company policy to apply the proportionate consolidation method. In the wake of the foregoing, an investment in subsidiaries in the amount of NIS 416 million at January 1, 2012 (and a total of NIS 173 million in the provident and pension funds), which engage mostly in the holding of rights in land, which were accounted for using the proportionate consolidation method and were therefore presented mainly under other investment property, investment property for yield-dependent contracts and deferred tax assets, were reclassified as joint ventures and accounted for using the equity method.

For the quantitative effects on the Group's financial statements following the adoption of IFRS 11, see section B below.

2. IFRS 13, Fair Value Measurement ("IFRS 13")

When measuring the fair value of a liability, the effect of the entity's own credit risk must be considered.

The fair-value measurement of investment property reflects the consideration of future capital expenses which will improve or expand the real estate and the future economic benefits arising from these expenses, if such expenses or benefits are taken into account by participants in the market at the time of measurement.

If the asset or liability which is measured at fair value has a bid price and ask price, the price which is within the range between the two which most closely represents fair value under the circumstances will be used for measuring fair value.

With the publication of IFRS 13, the disclosure requirements for the fair value of financial instruments in the financial statements for interim periods were also expanded. The requirements of IFRS 13 were integrated in these financial statements in Notes 9, 10 and 11 regarding financial liabilities, assets for yield-dependent contracts and other financial investments.

a. First implementation of new standards (contd.)

3. Amendment to IAS 19, Employee Benefits

- Employee benefits will be classified as short or long term depending on when the entity expects the benefits to be wholly settled and will not be classified according to the date the employee will be able to use the benefit.
- All actuarial gains and losses will be recognized immediately through other comprehensive income.
- The interest to be recognized in profit or loss will be calculated on the net balance of the liabilities (the asset) for a defined benefit, according to the discounting rate used to calculate the liability.
- Costs for past services will be recognized immediately, unrelated to the date on which the benefits vest.

The amended standard will be applied retrospectively, except for the alleviation in relation to discounting costs to assets. Accordingly, the carrying amount of assets outside the application of IAS 19 will not have to be adjusted for changes in costs in respect of employee benefits which were included in the carrying amount prior to the initial date of application.

At the end of 2011, the salary conditions of the controlling shareholders were approved. At the month of March the general meeting of the company approved the mentioned conditions. As part of the approved conditions, approval was also given so that when the employment relationship ends for any reason whatsoever, the controlling shareholders will be entitled to compensation equal to the compensation owed by law. Additionally, approval was given so that subject to completion of a minimum period of employment, the controlling shareholders will be entitled to double severance pay when their employment for the Company terminates. The Company made provision in its financial statements for 2011 and 2012 for obligations for additional several pay for the relative period accrued, and this due to the fact that the additional severance pay is conditional upon a minimum period of employment. During the Reporting Period, based on the amendment to IAS 19, Employee Benefits, the Company made provision for the outstanding amount by way of restatement. For additional information, see also section B below.

4. Amendment to IAS 1, Presentation of Financial Statements, Other Comprehensive Income

The amendment to IAS 1 changes the presentation of items of other comprehensive income (hereinafter - "OCI") in the financial statements, so that items of OCI that may be reclassified to profit or loss in the future, would be presented separately from those that would never be reclassified to profit or loss. The Amendment will be implemented retrospectively. The report on comprehensive income during the comparison periods was restated pursuant to the amendment.

c. Seasonality

1. Life and health insurance and Finance

The revenues from life and health insurance premiums are not characterized by seasonality. Nevertheless, due to the fact that the provisions for life assurance enjoy tax benefits, a considerable part of new sales is affected mainly at the end of the year. The revenues from the finances segment are not characterized by seasonality

2. General insurance

The turnover of the gross premium revenues in general insurance is characterized by seasonality, resulting mainly from vehicle insurance of various groups of employees and vehicle fleets of businesses, where the date of their renewal are generally in January and from various policies of businesses where the renewal dates are generally in January or in April. The effect of this seasonality on the reported profits is neutralized through the provisions of premiums not yet earned.

The components of other expenses such as claims, and the components of other revenues such as revenues from investments do not have a definite seasonality and, therefore, also there is no definite seasonality in profits.

Note 4 - Operating segments

The performances of the segments are measured based on the profits of the segments before taxes on income. Intercompany transactions results are cancelled in the framework of the adjustments so as to prepare condensed interim consolidated financial statements.

The Group operates in the following segments:

1. Life assurance and long-term savings segment

This field includes the Group's insurance activities in the life assurance branches and the Group's operations in managing pension and provident funds.

In March 2011, Dikla's insurer's license was extended to include the sector of life insurance - risk only. Also, Dikla received an approval for two life insurance - risk programs. During the Reporting Period life insurance and long term savings included Dikla's life insurance sector. Comparison figures were not presented due to insignificance.

In addition, during the Reporting Period, the results of the life insurance activity acquired from Eliahu Insurance were included for the first time commencing the beginning of 2013. For additional information about the acquisition of Eliahu's life insurance portfolio, see Note 5.

2. Health insurance segment

This field includes the Group's insurance activities in illness and hospitalization branches, personal accidents, dental and nursing. The policies sold in the framework of these insurance branches cover the range of damages caused to the insured as a result of illness and/or accidents, including a situation of nursing and dental treatments. The health insurance policy are offered both individuals and to groups.

During the Reporting Period, the results of the life and health insurance activity acquired from Eliahu Insurance were included for the first time commencing the beginning of 2013. For additional information about the acquisition of Eliahu's health insurance portfolio, see Note 5.

3. General insurance segment

This segment comprises five sub-fields:

Vehicle property: includes the Group's activities in the sale of insurance policies in the motor vehicle insurance branch ("the vehicle property"), which covers damages caused to the vehicle owner as a result of an accident, and/or theft and/or the liability of the vehicle owner or the driver for property damage caused to a third party in an accident.

Vehicle compulsory: includes the Group's activities in the insurance branch according to the requirements of the Vehicle Insurance Ordinance (New Version) - 1970 (hereinafter: "compulsory vehicle"), which covers corporal damage as a result of the use of a motor vehicle according to the Compensation Law to Injured in Road Accidents - 1975.

Other liability branches: including the Group's activities in the sale of policies covering the insured liability to a third party (excluding cover for liabilities in the compulsory vehicle field, as described above). This framework includes, inter alia, the following insurance branches: imposed liability insurance, third-party liability insurance, professional liability insurance, directors' and officers' liability insurance, and insurance against liability for defective products.

Property and other branches: this field includes the Group's insurance activities in all property branches (excluding vehicle property) detailed in the insurance branches notice.

Mortgage insurance business: this field includes the Group's insurance activities in the liability insurance branch for homes insured in a mortgage (as a single branch - MONOLINE). This insurance is intended to give indemnity for damage caused as a result of non-payment of loans given against a first mortgage on a single real estate property for residential purposes only, and after realizing the property serving as collateral for such loans.

Notes to the condensed interim consolidated financial statements

Note 4 - Operating segments (contd.)

4. Insurance companies overseas operating segment

The overseas segment consists of the activity of Interasco Societe Anonyme General Insurance Company S.A.G.I ("Interasco"), and Turk Nippon, an insurance company wholly owned by the Company.

5. Financial services segment

The Group's activities in the capital and financial market are carried out in Harel Finance. Harel Finance is engaged through companies controlled by it in the following activities:

- Managing mutual funds.
- Managing securities for private customers, corporations, and institutional customers in capital markets in Israel and abroad.
- Issue to the public of index products (ETFs and deposit certificates).

6. Not allocated to operating segments

Activities which were not relating to the operating segment include mainly activities of insurance agencies and of capital activities in consolidated insurance companies.

Note 5 - Business combinations

1. Acquisition of Eliahu Insurance Company Ltd. life assurance portfolio.

On January 1, 2013, Harel Insurance completed a transaction whereby it acquired the operations included in the life insurance segment of Eliahu Insurance Co. Ltd. ("Eliahu Insurance").

The transaction included the acquisition of all the rights and obligations of Eliahu Insurance in the life-assurance sector, including the life and healthcare insurance segments, and all of its rights and obligations towards policyholders, reinsurers, agents and the like.

As part of the acquisition, Harel Insurance received the assets against the insurance liabilities for NIS 210 million. The consideration was paid upon completion of the transaction was completed, as follows: (a) NIS 100 million in cash; (b) NIS 110 million in the form of deferred promissory notes issued by Harel Issues, through the expansion of Series 6 and 7 issued by Harel Issues. Regarding the expansion of these Series, see note 9.

Based on the examination performed by an external appraiser, the cost of the acquisition was allocated in accordance with the future embedded profit in the acquired assets and liabilities. This profit is attributed to the insurance liabilities and it will be amortized according to the period of economic benefit.

The Group bears the legal costs and costs of due diligence attributed to the acquisition in the amount of NIS 1,258,000. These costs were included in the income statement under general and administrative expenses .

The fair value of the identified assets and liabilities of Eliahu Insurance Company and the amount retained in the financial statements at the acquisition date are as follows:

	Fair Value
	NIS thousands
Financial assets – yield dependent contracts	1,324,107
Other financial assets:	
Marketable debt assets	181,619
Non marketable debt assets*	238,283
	419,902
Cash and cash equivalents - yield dependent contracts	141,955
Other cash and cash equivalents	40,985
Reinsurance assets	6,003
Outstanding premiums	16,906
Other assets	135
	1,949,993
Liabilities in respect of non-yield dependent insurance and investment contracts	382,915
Liabilities in respect of yield dependent insurance and investment contracts	1,339,834
Total liabilities in respect insurance contracts	1,722,749
Other liabilities	17,244
Total liabilities**	1,739,993
Assets, Net	210,000

^{*} Non-marketable debt assets, are designated bonds registered according to cost. The surplus fair value of NIS 37 million, attributed to the bonds, was deducted from the amount of the insurance liabilities which it backs.

^{**} Of the above, NIS 232 million is attributed to the health insurance segment and the rest is attributed to the life assurance and long term savings segment.

Note 5 - Business combinations (Cont'd)

2. Agreement to purchase trust funds and portfolio management operations from Clal Finance

On April 4, 2013, the transaction was completed in which, the Subsidiaries, Harel Finance and Harel Finance Investment Management Ltd., a fully owned subsidiary of Harel Finance ("Harel Investment Management") signed an agreement with Clal Finance Batucha Investment Management Ltd. ("Batucha") and Clal Finance Ltd. (jointly: "Clal Finance"), to purchase all the issued share capital of Clal Mutual Funds Management Ltd. ("Clal Funds"), a wholly owned subsidiary of Batucha, and to also purchase the portfolio management operations of Clal Finance (carried out by Batucha), ("the Object of Sale"). As part of the agreement, provisions were prescribed concerning non-competition on the part of Clal Finance with the activity of the Object of Sale, for a four-year period, as well as an undertaking not to compete on the part of Clal Holdings and its subsidiaries with the activity of the Object of Sale for a period of four years.

Clal Funds is a mutual fund management company under the Joint Investments in Trust Law, 1994 ("the Funds Law"). Clal Funds manages about 87 mutual funds in the completion date and held assets under management of about NIS 9.8 billion it the mutual funds it manages. That day, the merger of Clal Funds into Harel-Pia was completed, and Clal Funds ceased to exist

The acquisition of portfolio management operations from Clal Finance includes all Clal Finance's management operations, including customers, suppliers, material agreements, goodwill and the obligations involved in these operations, except for the management of investments in financial savings policies, which is carried out for Clal Insurance. On May 7, 2013, permission was received from the Registrar of Companies for the merger of Harel Mutual Fund Management Ltd. (formerly Clal Funds) into Harel-Pia Mutual Fund Management Ltd.

The total consideration paid on the completion date was NIS 207.5 million, according to the following allocation: NIS 183.1 million was paid for the shares of Clal Funds; NIS 24.4 million was paid for the portfolio management activity. Harel Finance financed the acquisition mainly by means of capital notes which the Company provided it.

Based on the examination performed by an external appraiser, the cost of the acquisition was allocated in accordance with the future embedded profit in the acquired assets. This profit is attributed principally to rights in future management fees which will be amortized according to the period of economic benefit and to goodwill.

The Group bore the costs attributed to the acquisition in the amount of NIS 1.2 million. These costs were included in the income statement under general and administrative expenses. The fair value of the identified assets and liabilities of Clal Mutual Funds Management Ltd. and the portfolio management activity, and the amounts retained in the financial statements at the acquisition date are as follows:

	Fair Value NIS thousands	Value in the acquiree's books before the acquisition
Cash and cash equivalents	11,006	11,006

Note 5 - Business combinations (Cont'd)

3. ICIC

On June 3, 2013, a transaction was completed in which the Company and Euler Hermes acquired all the holdings of Bituach Haklai in ICIC (immediately prior to the acquisition, each of these companies held 33.3% of ICIC). Upon completion of the transaction, the Company and Euler Hermes each hold 50% of the issued share capital of ICIC. The consideration which the Company paid for acquiring half of the shares of Bituach Haklai in ICIC (16.7%) amounts to NIS 61.6 million. The Company financed the aforementioned acquisition from its own sources. The surplus cost of the acquisition over the equity value amounted to NIS 22 million. Based on an examination performed by an external appraiser, the cost of the acquisition was allocated in accordance with the future embedded profit in the acquired assets and liabilities. This profit is attributed to the insurance liabilities and customer portfolio, and it will be amortized according to the period of economic benefit. The investment is presented in the financial statements based on by the equity method.

On June 3, 2013, the Board of Directors of ICIC resolved to distribute a cash dividend in the amount of NIS 75 million, on the "green track" (distribution which does not require prior approval from the Commissioner, in accordance with the Commissioner's instructions concerning the distribution of dividends by an insurer). Based on the percentage if its holding, the Company received half of the dividend. The dividend was paid on June 19, 2013.

During the Reporting Period, a significant customer of ICIC announced that it would not renew its credit insurance arrangements for 2014-2015 with ICIC. In view of the foregoing, the Company reviewed the value of the investment against the value of the ICIC shares registered in its books. Accordingly, it was found there is no need to impair the value of the ICIC shares in the Company's books.

Note 6 - Taxes on income

Tax rates which applies to incomes of companies in the Group

1. On June 2, 2013,the Value Added Tax Order (Tax rates for Non-profit Organizations and Financial Institutions) (Amendment) 5773-2013, was published in the Official Gazette, which increased the tax rate for wages and profit tax by 1% so that it will be 18% from June 2, 2013. As a result of this change, the statutory tax rate which applies to financial institutions increased on June 2, 2013 from 35.9% to 36.2%.

Following are the statutory tax rates applicable to financial institutions, including the Company's subsidiaries which are financial institutions:

The change in profit tax rate, as mentioned above, does not have a significant affect over the comprehensive income and/or the comprehensive income and/or the capital of the Company.

2. On July 30, 2013, the Knesset passed the Law for the Change of National Priorities (Legislative Amendments to Achieve Budget Targets in 2013 and 2014), 5773-2013. As part of the legislation, on January 1, 2014, corporate tax will be increased to 26.5%. Consequently, and based on the VAT Order from June 3, 2013 which revised the rate of profit tax and wage tax on financial institutions, the statutory tax on financial institutions will increase in 2014 and thereafter to 37.71%.

Year	Companies tax rate	Profit tax rate	Tax rate in financial institution
2013	25%	17.58%	36.22%
2014 and on	26.5%	18%	37.71%

Deferred tax balances at September 30, 2013 were computed in accordance with the new tax rates determined in the Law for the Change of National Priorities and based on the Added Value Order, at the tax rate expected to apply on the date of the reversal.

The effect on the financial statements at September 30, 2013 expressed as an increase in the deferred tax balances in the amount of NIS 14.2 million.

The revised deferred tax balances were recognized against tax expenses in the amount of NIS 11 million, against other comprehensive income in the amount of NIS 3 million.

A. Special tax arrangements for the insurance sector

Agreement with the tax authorities

On September 12, 2013, a sector-specific agreement was signed between the Israel Insurance Association and the Tax Authority, extending the validity of the previous agreement for 2012. The financial statements for 2012 and 2013 were prepared in accordance with the principles of this agreement.

B. Tax arrangement applicable to a subsidiary - index-linked certificates

Further to the information in note 37 to the Company's financial statements at December 31, 2012 about tax arrangement that applies to Harel Sal and Harel Sal Trade and the subsidiary:

- 1. On January 24, 2013, a tax arrangement was received from the Tax Authority that applies to Harel Sal and Harel Sal Trade that hold issued ETFs in Series 53 and Series 59-60, and complex certificates in Series 56-58 (at the date of the report, some of the series have not yet been issued). This tax arrangement is similar in principle to the one mentioned above.
- 2. On May 1, 2013, a tax arrangement was received from the Tax Authority that applies to Harel Sal and Harel Sal Trade that hold issued ETFs in Series 64-68. This tax arrangement is similar in principle to the one mentioned above.

Note 6 - Taxes on income (Cont'd)

B. Tax arrangement applicable to a subsidiary - index-linked certificates (contd.)

3. On October 24, 2013, a tax arrangement was received from the Tax Authority that applies to Harel Sal and Harel Sal Trade that hold issued ETFs in Series 69-83. This tax arrangement is similar in principle to the one mentioned above.

C. Tax Assessments

1. Final tax assessments

- 1. The Company and some of its subsidiaries have final tax assessments up to and including 2010. Other consolidated companies have tax assessments that are considered final up to 2010.
- 2. In June 2009 Harel Insurance submitted an appeal to the Appeals Committee in regard to a purchase tax assessment issued against it by the Tax Authorities for the acquisition of floors 11-13 in Harel House, Ramat Gan from Gitam Imaging Systems Ltd., which were purchased entirely from Harel Insurance's Nostro account. Harel Insurance claimed that for the purpose of purchase tax, the value of the real estate acquired was lower than the overall consideration paid for the transaction, due to the fact that certain components that are not tax liable were purchased. Based on the decision of the Land Tax Administration, the purchase tax charge is for the total consideration paid in connection with the transaction. On April 25, 2013 a compromise was reached with the tax authorities. According to the compromise, most of the tax in dispute was paid. The mentioned compromise has no insignificant affect over the financial statements.
- 3. On December 22, 2011, Harel Insurance received an Income Tax assessment order under Section 152 of the Income Tax Ordinance, with respect to the 2007 tax year ("the Order"). In the Order, the Assessment Officer argued that Harel Insurance must allocate differently the purchase cost of the intangible assets it acquired during the acquisition of Bank Leumi's provident fund operations and amortize them differently.

Harel Insurance appealed against the Order to the Tel Aviv District Court. Harel Insurance received an opinion to the effect that there is a strong chance that its appeal will be accepted. Nevertheless, if the Tax Authority's position is accepted in full, amortization on the brand component will not be recognized for Harel Insurance for tax purposes.

On August 30, 2012, the tax assessment officer submitted notice in the Tel Aviv District Court explaining the reasons for the assessment.

On May 29, 2013, a compromise agreement was signed with Income Tax for the years 2007-2011. Accordingly, Harel Insurance will be permitted to recognize the entire purchase cost for tax purposes. The compromise relates principally to the method of splitting the purchase cost component and the timing of the date of recognition of the expense.

Harel Insurance recognizes deferred taxes in respect of timing differences created as a result of a difference in the amortization rates for accounting purposes and those for tax purposes. Consequently, implementation of the compromise agreement is unlikely to have any significant impact on the equity or profit of Harel Insurance and the Group.

2. Tax assessments in dispute

1. On February 14, 2012, Bar Tavai, a wholly owned subsidiary of the Company, received a decision of the Tax Authority regarding the objection it submitted in the matter of the Betterment Tax assessment issued it in regard to the sale of a building on 120 Allenby St., Tel-Aviv. The Tax Authority declined to approve the deduction of some of the cost components declared by Bar Tavai. The tax amount in dispute is NIS 1.6 million. In August 2012, Bar Tavai filed an appeal to the Appeals Committee against the dismissal of its objection. A court hearing was on September 15, 2013 and Parties are discussing to achieve a compromise settlement. In the assessment of Bar Tavai's legal advisors, it is more likely that the appeal will be accepted than rejected.

Note 6 - Taxes on income (Cont'd)

2. Tax assessments in dispute (cont'd)

2. On October 31, 2012, Harel-Pia received an Income Tax Order under Section 152(B) of the Income Tax Ordinance, with respect to the 2007-2009 tax years ("the Order"). In the Order, the Assessment Officer argued that Harel Pia must make a different allocation of the cost of the intangible assets it acquired as part of the acquisition of the mutual funds from Leumi Pia Mutual Fund Management Company Ltd. Furthermore, the Assessment Officer argued that the acquisition cost attributed to the brand component cannot be amortized for tax purposes. The Company attributed NIS 6 million to the cost of the brand, which it deducted for tax purposes. If the position of Income Tax is accepted in full, the cost attributed to the brand will be NIS 98 million, and accordingly Harel Pia will be unable to recognize this amount for tax purposes.

Likewise, amounts of NIS 10,529,000, NIS 12,345,000, and NIS 9,617,000 will be added to the taxable income of Harel-Pia for the years 2007, 2008 and 2009 respectively. A review conducted by the Company shows that even if the Income Tax position is accepted in full, it will have no significant effect on the Company's equity, on its performance and on its cash flow.

On November 19, 2012, Harel-Pia, filed an appeal to the Tel-Aviv District Court, through its legal advisors, contesting the Order as not reflecting the nature of the transaction and the economic value of the acquisition. On June 2, 2013, the Assessment Officer submitted the reasons given by the Assessment Office to the Tel Aviv District Court. Harel-Pia intends to submit the reasons for its appeal on September 30, 2013. According to the company legal advisors, there is a strong chance that the Company's arguments will be accepted.

3. On August 29, 2013, Harel Insurance received an order from Income Tax under Section 152 of the Income Tax Ordinance, in relation to a dispute with the assessment officer regarding a profit tax liability of Harel Insurance for revenues in the real-estate sector. For details about the dispute with the assessment officer, see Note 37 to the Periodic Report. The position of Harel Insurance as supported by its legal counsel is that there is no basis for charging Harel Insurance profit tax for real-estate revenues. Consequently, on September 12, 2013, Harel Insurance filed notice of appeal on the order. Should it become final, this order will affect the profit tax liability of Harel Insurance by an insignificant amount.

A. Contingent Liabilities

There is a general exposure which cannot be evaluated and/or quantified resulting, inter alia, from the complexity of the services provided by the Group to its insured and its customers. The complexity of these arrangements conceal, inter alia, potential of allegations, interpretations and others, due to the differences in information between the Group's companies and other parties to the insurance contacts and the rest of the Group's products, relating to the long series of commercial and regulatory conditions. It is not possible to anticipate in advance the types of allegations, which will be raised in this field, and the exposure resulting from these and other allegations in connection with the Group's products raised, inter alia, through a mechanism of hearings set forth in the Class Actions Law.

New interpretations of the information in insurance policies and long-term term pension products may, in some instances, affect the Group's future profits in respect of the existing portfolio, in addition to the exposure inherent in requirements to compensate customers for past activity.

Likewise, there is an element of exposure in all regulatory changes and instructions issued by the Commissioner, in circulars that are in force and in draft circulars that are still under discussion, some of which have far-reaching legal and operational ramifications. This exposure is particularly great in pension savings and long-term insurance, including health insurance. In these sectors, the rights of the policyholders, members and customers are over a period of many years during which policies, regulations and legal trends may be changed, including through court rulings.

These rights are managed through complex automated systems, and in view of these changes they must be constantly adjusted. All these create considerable operational and mechanization exposure in these areas of activity. Among these regulatory changes, on December 21, 2011, the Commissioner published a circular concerning data optimization of the rights of members of financial institutions. The circular details the activity framework that a financial institution must carry out to ensure that members' rights are reliably, and fully recorded in the information systems, and that they are available and retrievable. The circular defines the stages of implementation of the optimization project as follows: (1) a gap study of the existing information at product, members and employers level - by March 31, 2013; (2) formulation of a mapping model and rating of the gaps found - by March 31, 2013; (3) a work plan is to be prepared to deal with any failure/s that are found - by September 30, 2013. The work plan will address the arrangement and saving of the existing information - by September 30, 2014. The company performed the actions as based on schedule. optimization project is to be completed by June 30, 2016. During the period, on-going provision was made due to implementation of the first stage of the project, in insignificant amounts.

In addition, there is a general exposure due to complaints issued from time to time to the Director of Capital Markets, Insurance and Savings in the Ministry of Finance against institutional bodies in the Group, regarding the rights of insured relating to the insurance policies and/or the law. These complaints are handled on a current basis by the public complaints division in the Institutional bodies. The decisions of the Supervision on these complaints, if and to the extent that any decision is made, are liable to be given across the board and apply to large groups of insured. Sometimes, the complaining factors are even threatening to take steps regarding their complaints in the framework of a class action. At this time, it is not possible to evaluate if there is an exposure for such complaints and it is not possible to evaluate if a wide-ranging decision will be given by the Director regarding these complaints and/or if class actions will be filed as a result of such processes, and it is not possible to evaluate the potential exposure to such complaints; therefore, no provision for this exposure has been included. According to note 12 below, on August 27, 2013, the Commissioner published a ruling in principle with regard to the raising of management fees by management companies without giving advance notice. In the financial statements of the management companies adequate provision is included in connection with the ruling

A. Contingent Liabilities (cont'd)

Additionally, as part of the policy recently applied by the Ministry of Finance Capital Market, Insurance & Savings Division to enhance the controls and audits of financial institutions, from time to time the Commissioner conduct in-depth audits of a variety of activities of the Group's financial institutions. As a result of these audits, the Ministry of Finance may impose fines and/or financial penalties and it may also order that changes should be made with respect to various operations, both in the past and in the future.

Regarding instructions with respect to past activity, the Commissioner may request the restitution of money or a change in conditions vis-à-vis policyholders and/or fund members which may impose financial liabilities on the Company's subsidiaries and/or increase the exposure of the subsidiaries that are insurers to a broader range of insurance events to be covered on account of these instructions, in policies that were issued.

As part of the audits conducted by the Commissioner, during previous reporting periods in-depth audits of were conducted of the following: audit of non-negotiable credit of Harel Insurance and the subsidiaries that are financial institutions; audit of the prohibition on money laundering in Harel Insurance's life assurance division; audit of the location of beneficiaries in the life assurance division of Harel Insurance; audit of members' rights and the portability of money in Harel Insurance's life assurance division; general audit of Harel Pension, particularly concerning the portability of members' rights; general audit of Harel Gemel; audit of Dikla, particularly with respect to long-term care insurance; audit of the health insurance division of Harel Insurance, and more.

The following are details of the exposure for class actions and applications to recognize them as class actions filed against the Company and/or companies in the Group.

Applications to approve legal actions as class actions as detailed below, which are, in management's opinion based inter alia on legal opinions that it received, more likely than not that the defense contentions of the Company or the appeal contentions that the Company or a subsidiary filed or a compromise arrangement proposed will be accepted and the application for approving the legal action as a class action will be rejected, so no provisions have not been included in the financial statements. Applications to approve a legal action as class action regarding a claim, fully or partly, it is more reasonable that the defense contentions on the Company are likely to be rejected, the financial statements have a provision to cover the exposure estimated by the Company's management and/or the managements of subsidiaries.

In the opinion of the Company's management, inter alia, based on legal opinions it received, the financial statements have suitable provisions, where provisions are required, to cover the estimated exposure by the Company and/or subsidiaries. The total provisions included in the financial statements to cover the exposure are not an immaterial amount.

With regards to application to approve actions as class actions filed as specified in section 19, 24, 25, 26 and 27 below, it is not possible at this early stage to estimate the chances of the applications to be approved as a class action and therefore no provisions have been included in the financial statements for these claims.

1. In April 2006, a claim was filed against Harel Insurance (subsidiary) and five insurance companies in the Tel Aviv-Jaffa District Court. The court was asked to certify the claim as a class action. The cause of claim was that the defendants had collected insurance fees from the plaintiffs for coverage of work disability. The plaintiffs claim that the defendants collected insurance premiums during the last three months of the insurance period, regardless of the fact that for this period, the plaintiffs were not eligible to receive insurance compensation even if they suffered loss of ability to work (because of the waiting period defined in the policy). The plaintiffs claimed that the defendants did not provide them with the information that it was their intention to collect insurance premiums for the last three months of the insurance period according to the policy. According to the plaintiffs, the damage caused to all plaintiffs by the defendants is estimated, in accordance with an expert opinion, at NIS 47.61 million. The damage claimed by the plaintiffs from Harel Insurance, totals, in their estimation NIS 1.54 million.

On February 3, 2009, the court certified the petition as a class action. Harel insurance submitted a request for the right to appeal this decision.

A. Contingent Liabilities (cont'd)

On April 11, 2013, the court accepted the application for permission to appeal and returned hearing of the action to the District Court for a decision on the question of whether the action should be treated as a class action, whether payment during the last three months of the policy is consideration for service which the insureds will never be entitled to receive or whether it is a form of payments in installments which is the result of an actuarial calculation, whether the defendants were in violation of their proper disclosure obligations and whether prescription applies under the circumstances of the matter at hand.

- 2. In April 2007, a petition and a request for certification as a class action were filed in the Tel Aviv-Jaffa District Court against Bank Hapoalim Ltd., Bank Leumi le-Israel Ltd., Israel Discount Bank Ltd., First International Bank of Israel Ltd. ("The Banks"), Clal Finance, Batucha Investment Management Ltd., Migdal Capital Markets Ltd., and Harel Investment House (these last three will henceforth be called: "Fund Managers"). The cause for the claim is a reimbursement of brokerage commissions allegedly paid by the plaintiffs from the beginning of 2004, in respect of their holdings of units of various mutual trust funds, as specified in the statement of claim, for the charges of brokerage commissions and commissions associated with trading in foreign currency at a rate higher than the rate ostensibly supposed to be charged from the claimants. According to the petitioner, from 2004, the respondents charged a number of private bodies, commissions at lower rates than those charged in relation to mutual trust funds that the banks controlled. According to the statement of claim, the period relevant to Harel Investment House is from November 15, 2006 up to the end of March 2007. It is also claimed, that within the context of the sale by the banks of control of the mutual funds to the mutual fund managers, it was determined that the banks would ostensibly continue to provide the fund managers with share trading services on the Tel-Aviv Stock Exchange and / or banking services (buying/selling foreign currency), and charge the same high commission charged up to the time of sale, where this is expressed, allegedly, in the reduced price that was paid for acquiring the control of the mutual funds, to prevent the mutual fund managers from profiting by the collection of brokerage commissions. The plaintiffs estimate the sum of the claim against Harel Investment House at NIS 5,676 thousands. In accordance with the court's recommendation the claim was transferred to arbitration, Procedure that failed. Announcement and application submitted to court to return the hearing of the claim to regular discussions track.
- 3. In January 2008 a legal action was filed in the Tel Aviv District Court against the subsidiary Harel Insurance and against four additional insurance companies together with application for its certification as a class action. The subject of the action is a claim that the respondents unlawfully collected a "sub-annual factor fee" (a fee that insurance companies are allowed to collect when the amount of the annual premium is actually paid in installments). The plaintiffs claim damages in the amount of NIS 1,684.54 for each insurance year. The plaintiffs estimate that the total claim for the entire class that they wish to represent against all defendants is about NSI 2.3 billion, of which about NIS 307 million is against Harel Insurance.On February 1, 2010, the court approved a request for a procedural arrangement between the parties, according to which the plaintiff will strike out the claim that Harel Insurance collected a sub-annual factor fee exceeding the rate permitted in policies that were issued before 1992 as well. As instructed by the court, the plaintiff submitted an amended claim and request for its certification as a class action.
- 4. In January 2008 an action was filed in the Tel Aviv District Court against the subsidiary Harel Insurance and against four additional insurance companies and an application for its certification as a class action. The subject of the action is a claim that the respondents allegedly collected management fees from their policyholders on profit-sharing life assurance policies, contrary to the Supervision of Insurance Business (Conditions of Insurance Contracts) Regulations, 5742-1981, and contrary to the circulars of the Commissioner of Insurance. According to the plaintiffs, the defendants collected monthly management fees at higher rate than permitted and they also collected variable management fees every month, despite the fact that such fees were collected at year end. In the opinion of the plaintiffs, the amount of the nominal claim against all the defendants for all the members of the group that they are requesting to represent is NIS 244 million, of which NIS 28 million are against Harel Insurance.

A. Contingent Liabilities (cont'd)

- 5. On June 30, 2013, the parties filed an application to approve a settlement of the class action. On July 15, 2013, a hearing on the application to approve the compromise took place in which context the court gave its comments on the compromise settlement and instructed the parties to file an amended compromise settlement in accordance with its comments within 30 days. On September 1, 2013 the court ordered to publish in the press regarding the compromise settlement submission and the appointment of CPA Daniel Bar-On to supervise the compromise Settlement.
- 6. In April 2008 an action and an application for its certification it as a class action was filed with the Jerusalem District Court against the subsidiary Harel Insurance and against other insurance companies. The basis of the claim is the plaintiff's allegation according to which in the old managers' insurance policies sold until 2000, the defendants customarily credited insured women reaching retirement age with a monthly pension lower than that of a man insured with identical data received, and this based on the contention that women have a longer life expectancy. On the other hand, the plaintiff alleges that the defendants collect from their female insureds a "risk" premium at a rate identical to that which it collects from the male insured, despite the fact that the rate of death of women during the "risk" cover is lower. The plaintiff alleges that in 2001 the defendants corrected the policies and this by way of reducing the discrimination that allegedly existed, and set "risk" premium rates for women at rates lower than those set for men. The plaintiff alleges that the defendants did not correct the alleged discrimination in the old polices issued before the date of the change.
- 7. In July 2008, a claim and a request to certify the claim as a class action was filed in the Tel Aviv District Court against the subsidiary Harel Insurance. The claimant claims that Harel Insurance ostensibly avoided paying and / or indemnifying its insured parties for damages caused to safety devices installed in their vehicles in the event of a total loss or constructive total loss or theft, and that it signs its policyholders, in contravention of the instructions of the Commissioner of Insurance, on a letter of settlement. The claimant alleges that in this way, Harel Insurance enriches itself at the expense of the insured and is in breach of a statutory obligation. The claimant notes that he does not have all the information available in order to accurately estimate the size of the group, but he does estimate that the amount of the claim for all members of the group, over a period of four and half years, at NIS 37 million.
- 8. In April 2010 a legal action and an application for its certification as a class action was filed in the Petach Tikva Central Region Distict Court against the subsidiary Harel Insurance and against four additional insurance companies. The subject of the legal action is the allegation that in the event of a discontinuation of insurance in any month, after the insurance premium for that month was collected by the defendants in advance, the defendants allegedly did not reimburse the insured the proportionate, surplus share of the premiums for that month, or alternatively they allegedly repaid the insurance premium in nominal values only. In the opinion of the applicants, the total damages to all members of the group, cumulatively claimed against all defendants, amount to NIS 225 million for a ten year period (the plaintiffs did not relate to any specific amount to each of the defendants separately). The amount of the plaintiffs' personal claim against Harel Insurance is NIS 80. On December 12, 2011, the court instructed that the plaintiffs' allegations should be struck out in connection with Section 28.A of the Contracts (Insurance) Law and in connection with a policy of policyholders that has partially or temporarily expired.
- 9. In May 2011, a claim was filed at the Central Region District Court against the subsidiary Harel Insurance and three other insurance companies, together with an application for recognition as a class action. The subject of the claim is an allegation that the respondents allegedly unlawfully collect a payment called a "policy factor" and/or "other management fees" at a considerable rate of the premium paid without their consent or knowledge and without compliance with a condition that enables such collection in the policy instructions.
 - The claimants allege that according to instructions issued by the Commissioner of Insurance in the Capital Market, Insurance and Savings Division ("the Commissioner"), companies may charge a policy factor under certain conditions; however they also claim that in addition to the Commissioner's authorization, the respondents must stipulate collection of the policy factor in a contractual agreement with the policyholder. According to the claimants, the total loss claimed for all members of the group against all the respondents' amounts to NIS 2,325 million, and against Harel Insurance, consistent with its share of the market, to NIS 386 million.

A. Contingent Liabilities (cont'd)

- 10. In June 2011, a claim was filed at the Central District Court against the subsidiary Harel Insurance and nine other insurance companies, with an application for certification as a class action. The subject of this class action is the allegation that when, due to attachments on insurance benefits imposed at the request of a third party, payment of the insurance benefits is withheld from policyholders, the insurance companies allegedly pay the policyholders the insurance benefits in nominal values without any revaluation, or in certain instances only with linkage differences, without the profits arising from them, as a result of this delay. The plaintiffs estimate that the total loss incurred by all members of the group as a result of the defendants' actions is NIS 350 million. The plaintiffs estimate the total loss against Harel Insurance in the amount of NIS 72 million. On February 8, 2012, the plaintiffs announced that they are abandoning their claim that foreclosures were imposed illegally. On December 12, 2012, the court approved conducting the claim as a class action.
- 11. In July 2011, a claim was filed at the Central Region District Court against the subsidiary Harel Insurance, with an application for its certification as a class action. The subject of the action is the allegation that Harel Insurance ostensibly charges its non-life insurance policyholders credit fees in excess of the maximum permitted rate or that exceed the rate that it ostensibly presents to the policyholder. According to the Plaintiff, the overall loss claimed for all members of the group amounts to NIS 524 million. On March 18, 2013, the parties filed to the court a request for a settlement approval. Pursuant to the procedure defined in the Class Actions Law, 5766-2066 the court appointed an inspector for the settlement and the review is currently underway.
- 12. On March 13, 2012, a claim was filed against Harel Gemel in the Tel Aviv District Court, with an application for certification as a class action. The contention of the class action claim is that Harel Gemel raised the rates of management fees that it collects from the plaintiff, ostensibly without providing the plaintiff with advance notice, as required by law. The plaintiff estimates that the damages claimed for all group members amount to about NIS 200 million.
- 13. In May 2012, a claim was filed against the subsidiary Dikla together with two other insurance companies and three health funds ("the Defendants"), in the Jerusalem District Court, with an application for certification as a class action. The contention of the class action claim is that the Defendants refused to insure clients with disabilities in the context of the group LTC insurance provided by health funds, and this is ostensibly in breach of the provisions of the 1998 Law for the Equal Rights of Persons with Disabilities ("the Law"), thereby discriminating against them and abrogating their right to respect and equality. The plaintiffs estimate that the damages claimed against Dikla is NIS 2,000. The plaintiffs estimate the amount of the claim for all group members they wish to represent against all Defendants at NIS 659 million.
- 14. In May 2012, a claim was submitted against the subsidiary Harel Insurance and the subsidiary Dikla along with four other insurance companies and one insurance agency ("the Defendants") in the Jerusalem District Court, together with an application for certification as a class action. The contention of the class action claim is that the Defendants ostensibly refused to insure clients with disabilities in such individual insurance policies as healthcare, travel, pension, personal injury, life, LTC and work disability ("the personal lines insurances"), and this ostensibly in breach of the provisions of the 1998 Law for the Equal Rights of Persons with Disabilities ("the Law"), thereby discriminating against them and abrogating their right to respect and equality. The plaintiffs estimate that the damages claimed against Dikla is NIS 2,000. The plaintiffs estimate the amount of the claim for all group members they wish to represent against all Defendants at NIS 934 million.
- 15. In May 2012, a claim was filed against the subsidiary Harel Insurance in the Haifa District Court, with an application for certification as a class action. The contention of the class action claim is that Harel Insurance indemnifies third parties incurring property damages in road accidents for the impaired value their vehicle, according to the date on which the claim is received and not according to the date of the accident. The plaintiff claims that this method of calculating impairment losses that Harel Insurance applied is seemingly contrary to the provisions of the law and constitutes, inter alia, a breach of the law and unjust enrichment. The class action was submitted despite the Commissioner's decision in 2001 that where third party claims are concerned the damages involved impairment losses may be calculated according to the date on which the claim is received and not according to the date of the accident.

A. Contingent Liabilities (cont'd)

The plaintiff estimates that the loss in the personal claim against Harel Insurance amounts to NIS 385, and that the amount of the claim for all group members he wishes to represent is NIS 63 million.

- 16. In July 2012, a claim was filed against the subsidiary Harel Insurance in the Petach Tikva District Court, with an application for certification as a class action. The contention of the class action claim is that in healthcare insurance policies stipulating that the premium will change once every five years, Harel Insurance raises the premiums when the insured reaches the age of 65, even if five years have not yet passed from the time the policy was purchased. The plaintiff alleges that this is a breach of contract, an intention to mislead and unjust enrichment. The plaintiff estimates that the damages involved in the personal claim against Harel Insurance amount to NIS 380, and that the amount of the claim for all group members he wishes to represent is NIS 160 million. On October 16, 2013 Application submitted to court to approve the compromise settlement. Court instructed the parties to file an amended in the compromise settlement and define the Group. Amended compromise settlement agreement not yet submitted to the court.
- 17. In July 2012, a claim was filed against the subsidiary Harel Insurance in the Tel Aviv District Court, together with an application for its certification as a class action. The contention of the class action claim is that in a group life insurance policy issued to members of the IDF Disabled Veterans Organization a certain insurance coverage ostensibly exists which was intended for cases where the insurance event takes place in the year between the age of 75 and 76 in the life of the insured, while Harel Insurance only provides insurance coverage for insurance events occurring up to the age of 75. The plaintiff estimates the amount of the claim for all group members he wishes to represent at NIS 46 million. It should be noted that a similar claim was submitted by the plaintiff in the past and was struck out for lack of material jurisdiction.
- 18. In August 2012, a claim was filed against the subsidiary Harel Insurance and four other insurance companies ("the Defendants") in the Petach Tikva District Court, together with an application for certification as a class action. The contention of the class action claim is that the defendants ostensibly collect management fees from the total sum of the premium deposited by their customers in life insurance policies that include a saving component, of the type that was issued from 2004 and is intended for both the self-employed and salaried employees ("Management Fees", and "the Policies") respectively, and this seemingly in breach of the provisions of the Supervision of Financial Services (Insurance) (Terms in Insurance Contracts) Regulations, 1981, ("the Regulations"). In addition, the plaintiffs claim that the Insurance Commissioner exceeded his authority in allowing the defendants to collect management fees in a way that ostensibly differs from that established by the Regulations, and that any permit given by the Insurance Commissioner to collect management fees in a way that deviates from the Regulations is invalid and contrary to the requirements of the law.

The plaintiffs claim that any management fees levied from the premium are completely invalid and should be returned to the customers. Alternatively, the maximum management fees that may be collected are 2% of the value of the investment portfolio ("management fees from the accrual") and any management fees that exceed this rate should be returned to the customers. Alternatively, the plaintiffs claim that even if such collection of management fees from the premium is permitted, then that part of the management fees from the premium which was collected for the amount which is not directed to savings, should be returned to the insureds. The plaintiff estimates that the individual damages claimed against Harel Insurance amount to NIS 1,159.40, or alternatively NIS 101.40, or alternatively NIS 510.60 for every insurance year. The plaintiff estimates the amount of the claim for all group members at a nominal sum of NIS 569.8 million.

19. In December 2012, a claim was filed against the subsidiary Harel Insurance and six other insurance companies ("the Defendants") in the Central District Court, with an application for certification as a class action. The contention of the class action claim is that in the context of the reforms implemented in the vehicle licensing branch by the Ministry of Transportation in 2007, the 1961 Transportation Regulations were amended, thereby changing the classification of leisure ATVs and mini-vans ("the Vehicles") to private vehicles. The plaintiffs claim that the defendants chose to continue to define the Vehicles as commercial vehicles, ostensibly in contravention of the provisions of the law. It is also claimed that in respect of vehicles manufactured after the reform was in place, i.e. from the year 2008 and on, the defendants changed their conduct and insured the Vehicles as private vehicles, thus, ostensibly creating discrimination.

A. Contingent Liabilities (cont'd)

The plaintiffs claim that by classifying the Vehicles as commercial vehicles, even though they are classified by the Ministry of Transportation as private vehicles (M-1), the defendants allegedly collect higher insurance premiums than they do for private vehicles. The plaintiffs estimate the amount of the claim for all group members at a sum exceeding NIS 105 million.

- 20. In December 2012, a claim was submitted against the subsidiary Harel in the Aviv District Court, together with an application for certification as a class action. The contention of the claim is that Harel ostensibly pays the monthly LTC insurance benefit to customers insured under a group policy of the Israel Teachers Union ("the Policy") according to the CPI known at the beginning of the month, rather than the CPI known at the date of payment. In addition, it is claimed that Harel ostensibly pays the LTC benefit without linking it to the base CPI given in the Policy, but rather to a CPI that was published two months later, and this, ostensibly, in breach of the provisions of the Policy. The plaintiff estimates the personal damages at a nominal amount of NIS 251. The plaintiff does not mention the total sum that it claims for the entire group.
- 21. In January 2013, a claim was filed against the subsidiary Harel Insurance, the Israeli Pool of Motor Insurers ("the Pool") and 13 additional insurance companies in the Central District Court, together with an application for certification as a class action. The plaintiff argues that the compulsory motor insurance issued to it by the Pool specifies the commencement of the policy period together with an exclusion to the effect that the policy will not come into force before the compulsory insurance certificate is actually paid. The plaintiff claims that when an insured customer pays the full premium shown on the insurance certificate after the stipulated date has passed, the Pool also collect a premium for the period elapsing between the time stipulated in the certificate and the actual time of payment at the bank, when the certificate is actually issued, and this without providing any insurance cover for this period and without returning the relative part paid for the period during which no insurance coverage was provided. According to the plaintiff this is a case of residual insurance provided through co-insurance of all insurance companies providing compulsory motor insurance in Israel (according to the names of the insurance companies noted in the insurance certificates along with the percentage of each insurance company's participation), and each insurance company is therefore responsible only for its own relative part. The plaintiff estimates the amount of the claim for all group members that it wishes to represent at NIS 45 million, and a sum of just NIS 3 million against the Pool alone.
- 22. In March 2013, an action was filed in the Tel Aviv District Court together with an application for its recognition as a class action against the subsidiary Harel Insurance. The subject of the action is the allegation that Harel rejects requests by third-parties for payment of insurance benefits (which the policyholders are entitled to receive) due to a lack of cooperation by the policyholders and/or notice given by them, and this ostensibly in contravention of the provisions of Section 68 of the Contracts (Insurance) Law, 1981, provisions of circulars published by the Commissioner of Insurance (Non-life insurance circular 1998/8) and the provisions of the Law. The personal loss claimed by the plaintiff amounts to NIS 3,599. According to the plaintiffs, the total loss claimed by the plaintiff for all members of the group amounts to NIS 35 million.
- 23. In May 2013, an action was filed in the Tel Aviv District Court together with an application for its certification as a class action against the subsidiary Harel Insurance. The subject of the action is the allegation that Harel ostensibly refrains from paying insurance benefits to its policyholders together with linkage differences and interest, from the date of occurrence of the insured event up to the payment date of the insurance benefits. In this class action, the plaintiff seeks to represent any person who filed a claim for insurance benefits from Harel Insurance over the last seven years and did not receive linkage differences and/or interest. The total loss claimed for all members of the group amounts to sums varying from NIS 168 million to NIS 800 million.

A. Contingent Liabilities (cont'd)

- 24. In May 2013, an action was filed in the Tel Aviv District Court together with an application for its certification as a class action against the subsidiary Harel Insurance. The subject of the action is the allegation that Harel ostensibly refrains from paying linkage differences and interest on the insurance benefits it pays to its policyholders, in respect of the period from the date of occurrence of the insured event and up to the payment date of the insurance benefits, allegedly in contravention of the provisions of Section 28(A) of the Contracts (Insurance) Law. In this class action, the plaintiff seeks to represent any person who has filed a claim for insurance benefits from Harel Insurance over the last three years and did not receive linkage differences and/or interest. The total loss claimed for all members of the group amounts to NIS 60 million. Harel submitted an application to delete the action because there is another action dealing with this matter.
- 25. In August 2013, a claim was filed in the Lod District Court against the subsidiary Harel Insurance, with an application for its certification as a class action. The subject of the action is the allegation that Harel Insurance allegedly refrains from publishing full information on its website in connection with the sums insured payable as compensation to policyholders when the surgery is paid for by another entity who is not the insured, and this ostensibly in contravention of the provisions of a circular issued by the Commissioner of Insurance "Details of Insurance Benefits in Healthcare Insurance Plans", and with the purpose, ostensibly, of reducing the amounts of compensation paid to policyholders according to the policies. The group which the plaintiff wishes to represent is all persons insured by Harel Insurance in group policies and other policies issued by Harel which contain a provision whereby if surgery is performed at a private hospital and paid for by the health fund or the Supplementary Health Services, the insured is entitled to compensation equal to 50% of the amount which Harel Insurance saves for that surgery. The overall loss claimed for all members of the group amounts to NIS 35 million.
- 26. In October 2013, an action was filed in the Lod District Court, together with an application for its certification as a class action, against the subsidiary Harel Insurance and three other insurance companies ("the Defendants"). The subject of the action is an allegation that where enrolment in the insurance takes place at the beginning of the month in which the insured purchased the policy, the Defendants ostensibly update the premiums for both index linkage and a change of age in life and health insurance policies which have a variable premium, on a date which precedes the date scheduled for updating, and they link the premium to an index preceding the index that should be applied. The group that the plaintiffs wish to represent is anyone who was enrolled by the Defendants or any one of them in an insurance policy in which the premium was updated before the date on which it should have been updated and/or in which a base index was determined which is lower than the index that should have been used (generally, life and health insurance, including work disability, illness, etc.). The overall loss claimed for all members of the group against all the Defendants amounts to NIS 399 million.
- 27. In October 2013, an action was filed in the Lod District Court, together with an application for its certification as a class action, against the subsidiary Harel Insurance. The subject of the action is an allegation that Harel Insurance ostensibly refrains from paying compensation to insureds who performed surgery that was fully or partially paid for by their healthcare providers, at a rate of half the amount that it saved from the full cost of the surgery, due to the participation of the health funds. The group which the plaintiff wishes to represent is all persons who have Harel Insurance healthcare insurance policies which contain a provision to the effect that if surgery is performed at a private hospital and all or part of the costs of the surgery are paid for by the health fund or the Supplementary Health Services, the insured is entitled to compensation equal to 50% of the amount saved on that surgery; however such insureds underwent surgery in which the health funds (including the Supplementary Health Services) shared the cost, but they did not receive compensation from Harel Insurance for the amount that Harel Insurance allegedly saved in connection with the surgery. The overall loss claimed for all members of the group amounts to NIS 14 million.
- 28. In October 2013, an action was filed in the Lod District Court, together with an application for its recognition as a class action, against the subsidiary Harel Insurance and against Maccabi Israel. The subject of the action is an allegation that Harel Insurance does not cover aesthetic disability in its Maccabi group personal accident policy ("the Policy"), contrary to the provisions of the Sports (Insurance) Regulations, 5755-1994. The Group that the plaintiff wishes to represent is any person insured by the policy who sustained aesthetic disability that was not covered by Harel Insurance. The overall loss claimed for all members of the group amounts to NIS 150 million.

Actions which were filed after the Reporting Period

Table summarizes

The following table summarizes the amounts claimed as part of the contingent applications for the approval of class actions, actions that were approved as a class action, and other significant claims against the Company and/or subsidiaries, as specified by the claimants in the suits they filed. It should be clarified that the amount claimed does not necessarily constitute the amount of exposure estimated by the Company, given that these are the claimants' estimates and they will be investigated during the litigation process. The table consists updates which occurred in suits after the reporting period.

Туре	Amount of claims	Amount claimed NIS thousands
Class certified a class action:		
amount pertaining to the Company and/ or subsidiaries Prosecution refers to several companies and was allocated a specific amount of the company and/ or subsidiaries	1	71,731
Claim amount is not specified Pending requests for approval of class actions:		
amount pertaining to the Company and/ or subsidiaries Prosecution refers to several companies and was allocated a	18	3,956,850
specific amount of the company and/ or subsidiaries	6	2,832,890
Claim amount is not specified	2	
Other significant claims	1	18,782

The total provision amount of claims filed against the Company and / or consolidated companies, as described above amounts to about to NIS 26 million (at December 31,2012 an amount of NIS 17.8 million)

B. Other contingent liabilities

1. In June 2004, a claim was filed with the Tel Aviv District Court and an application to approve it as a derivative claim against the subsidiary Yedidim Holdings Management (1994) Ltd. (hereinafter: "Yedidim"), the former Chairman and CEO of Yedidim, and against an additional subsidiary, Harel Pension Funds Management Services (1987) Ltd., which is the controlling shareholder in Yedidim by the minority shareholders Leatid Pension Fund Management Ltd., a subsidiary of Yedidim (hereinafter: "Leatid") for an amount of NIS 15,605 thousand. The subject of the claim is compensation to Atidit Pension Fund Ltd. (hereinafter: "Atidit"), a pension fund managed by Leatid, for the use of Atidit's various resources, such as: the use of the operating infrastructure and reputation, the use of Adidit property, for taking a continuing pension fund and the loss of profits. The hearing on the file is in the stage of summaries in the application to approve the claim as a derivative claim. In addition the plaintiffs claim commissions of NIS 3,177 thousand in the framework of their personal claim. On July 29, 2010, after interrogations had been conducted and written summaries had been submitted as part of the application to approve the derivative claim, the Court accepted the application and granted the claimants the option of suing the defendants in Leatid's name in respect of rights which they claim Leatid is entitled to.

Yedidim's management is of the opinion, based on the opinion of its legal advisors, that the chances of the application to appeal being accepted or the derivative claim being rejected outright are greater than the chances of the action being accepted (and the appeal being rejected). Regarding the alleged entitlement of the minority shareholders group to on-going commissions by virtue of agreements that Yedidim had with them, appropriate provision has been made in the financial statements.

2. In July 2013, an insurance claim in the amount of NIS 150 million was filed with Harel Insurance as part of a product liability policy. Harel has reinsurance for most of the amount of the insurance risk in connection with this policy. The Company has made reasonable provision in its books in respect of the claim.

C. Other contingent liabilities

Additionally, a line of credit was approved to be utilized by the end of 2013, in the further amount of NIS 40 million. At June 30, 2013, Harel Pension had utilized NIS 25 million of this line of credit.

Claims which have been completed

In February 2011, a claim was filed in the Tel Aviv District Court against the subsidiary Harel Insurance and five other insurance companies, together with an application for its certification as a class action. The subject of the action concerns allegations that when an insured event occurs, the respondents allegedly do not compensate their comprehensive motor insurance policyholders in respect of an impairment of value that reflects the damage caused to the vehicle in market terms, but compensate them in respect of a technical impairment of value that, allegedly, is not based on market conditions and is less than the real impairment. The claimants allege that the respondents do not clarify this to the policyholder before the insurance is purchased, and they therefore, inter alia, mislead the policyholder, allegedly violate the duty of disclosure, allegedly breach a statutory obligation, and ostensibly practice unjust enrichment.

The claimants employ three methods to calculate the amount of the claim against Harel Insurance, according to which the claim ranges from NIS 190 million to NIS 253 million.

On June 10, 2012, the District court approved the plaintiffs' request to abandon their claim, thus bringing it to an end. In the context of the approval of abandonment, the court determined that the fees paid to the plaintiffs' attorney shall be NIS 30 thousand, the remuneration paid to the class action plaintiffs shall be NIS 15,000 and the reimbursement of legal expenses shall be NIS 15 thousand. The plaintiffs have appealed to the Supreme Court claiming that the amount awarded for legal fees, expenses and remuneration was exorbitant.

Claims which have been completed after the Reporting Period

1. In May 2012, a claim was filed against the subsidiary Harel and against the Tax Authority ("the Defendants") in the Tel-Aviv District Court, together with an application for its certification as a class action. The class action claim alleges that the defendants ostensibly prevent the withdrawal of money from a life assurance policy recognized as a provident fund, without the deduction of taxes for the months proceeding the date on which a declaration of low income was filed under Regulation 34 (B) of the 1964 Income Tax Regulations ("the Regulations").

The plaintiff claims that said Regulations should be so interpreted as to bar withholding of tax at source even for months that preceded the date of the declaration required in the Regulations, and this despite the fact that the Regulations do provide that option for the month in which the declaration has been submitted and the two months after the declaration has been submitted. The plaintiff claims that his personal damages are NIS 7,700 because of funds he was prevented from withdrawing in December 2010, to which one should add management and other fees, and NIS 8,211 because of funds he was prevented from withdrawing in November 2011, to which one should add management and other fees. On January 23, 2013, the Tel Aviv District Court issued a verdict dismissing the application for certification as a class action, given that Harel adhered to the instructions of the Tax Authorities and acted according to its directives at all times. The plaintiff appealed to the Supreme Court on this verdict. On September 29, 2013 the plaintiff filed an application to Withdraw the appealed. On October 14, 2013 the court issued a verdict that deletes the application.

2. In November 2012, a claim was filed in the Tel Aviv District Court against the subsidiary Harel Insurance and one additional insurance company ("the Defendants"), with an application for recognition as a class action. The contention of the class action claim is that the defendants allegedly insure athletes whose age during the insurance period or part of it was younger than 20 years ("the Athletes") with an insurance policy for loss of working ability that includes a condition wherein eligibility to receive compensations for loss of working ability, is subject to the policyholder having worked for a salary before the insurance event occurred and that as a consequence of the insurance event he has lost the ability to practice his profession and/or work in the same occupation as before the insurance event ("the Policy" and "the Condition", respectively). The plaintiffs claim that this condition conflicts with the provisions of the Sports (Insurance) Regulations, 1994 ("the Regulations").

C. Other contingent liabilities

- 3. In addition, the plaintiffs claim that the defendants did not notify the Athletes insured by them about the condition added to their policies and the curtailment of their rights, and in this it seems that the defendants did not act in good faith and contrary to section 55(A) of the Supervision of Financial Services Law, 1981. On October 28, 2013, the court approved the plaintiffs' application to abandon the action and reject their personal claim, inter alia, in view of the comments that were presented by the court in a hearing that took place regarding the chances of the claim and in view of Harel's declarations concerning payment in the few instances in which the argument was at all relevant.
- 4. In February 2009, a claim was filed with Tel Aviv District Court against the subsidiary Dikla Insurance together with an application for its certification as a class-action suit. The claim's premise is that Dikla does not pay insurance benefits for "Si'udi Mushlam" (supplementary LTC insurance), during the policy's waiting period, ostensibly in contravention of legal provisions; that Dikla did not pay any interest differences on monthly insurance compensation; ostensibly in contravention of provisions of law; that Dikla did not calculate, apparently, correctly CPI-linkage differences on insurance compensation; that Dikla continued to collect from its injured parties, insurance premiums for certain periods when the insured parties were under long-term care; that Dikla ostensibly delayed payment of LTC compensation. On November 10, 2013, the Tel Aviv District Court dismissed the application for certification of the action as a class action. The court ruled, in respect of each of the causes of the claim, that there are no grounds for a claim against Dikla, and this in view of the provisions of the law and interpretation of the policy.

D. Commitments

1. Transaction to acquire a real-estate asset in the French city, Paris

On October 23, 2013, subsidiaries of the Company that are financial institutions ("the Subsidiaries"), entered into agreement with foreign partners ("foreign companies") whereby the parties will acquire (indirectly, through foreign companies) a real-estate asset in the French city, Paris ("the Property"). The acquired Property is situated on the Champs Elysees, and it consists of a 3,500 sq.m. of commercial space, 5,100 sq.m. of office space, and 1,600 sq.m. used for residential purposes. The Property is currently fully occupied. The Subsidiaries' share of the foreign companies (and indirectly of the property) is 39%. The other rights in the foreign companies (and indirectly in the Property) will be held by the foreign partners who are also responsible for managing the Property. The Property was acquired for EUR 240 million (excluding related costs). The acquisition will be financed by equity provided by the parties and a bank debt to be provided by a financial institution, where the partners will together provide equity in the total amount of EUR 73 million. The total investment by the Subsidiaries amounted to EUR 29 million. The Subsidiaries commitment in the aforesaid transaction was made principally from reserves held against performance-based obligations, and from provident and pension fund portfolios, so that this transaction is not expected to have any significant effect on the performance of the Subsidiaries or the Company.

2. Renewal of a credit limit for Gamla-Harel Residential Real Estate Ltd.

On September 29, 2013, the boards of directors of subsidiaries of the Company that are financial institutions approved a renewal of the credit framework for Gamla-Harel Residential Real Estate Ltd. ("Gamla-Harel") in the total amount of NIS 150 million, while increasing the margin by 0.6%. Furthermore, the boards of directors approved a change in the of equity to balance sheet limit of Gamla-Harel to 25% instead of 27.5%, which had applied up to that date.

D. Commitments

3. Transaction to acquire an office block in London, England

On September 27, 2013, subsidiaries of the Company which are financial institutions entered into agreement whereby the subsidiaries, together with a local partner in England ("the Partnership") acquired, indirectly, through companies, an office block in London, England ("the Property"). Harel Insurance has a 49% stake in the Partnership (and indirectly in the Property) will be held by a local investor (51%) who is also responsible for managing the Property. The acquired property is a building consisting of 9 stories above two basement levels and a ground floor, with total floor space of 17,000 sq.m., located in London's central business district. The total cost of the transaction is GBP 115 million. The acquisition will be financed by equity provided by the parties and a bank debt to be provided by a financial institution, where the partners will provide equity in the total amount of GBP 43 million. In all, the Subsidiaries are expected to invest GBP 21 million in this project. The Subsidiaries commitment in the aforesaid transaction was made principally from reserves held against performance-based obligations, and from provident and pension fund portfolios, so that this transaction is not expected to have any significant effect on the performance of the Subsidiaries or the Company.

4. Affirmation of the rating for EMI

On September 9, 2013, S&P Maalot published a revised rating report for EMI. The rating remained unchanged at 'ilAA' (Stable).

5. On June 18, 2013, for the transfer of the management of the Harel Niv provident fund (which is owned by Harel Insurance) from Harel Gemel to Harel Atidit Provident Funds Ltd., and to merge it as an investment track in the Harel Gilad Provident Fund, the transfer took place on July 1, 2013 and the fund was merged as an investment track within Harel Gilad Provident Fund. Subsequently, on August 27, 2013, the Board of Directors of Harel Insurance confirmed termination of the agreement between Harel Insurance and Harel Gemel with respect to the management of the Harel Niv Provident Fund by Harel Gemel and the agreement between Harel Insurance and Harel Atidit Provident Funds Ltd. for the management of the provident fund by Harel Atidit Provident Funds Ltd.

6. Maalot Rating

On June 11, 2013, Maalot S&P announced affirmation of the 'ilAA' rating of non-marketable bonds of Harel Insurance and the Series 1 promissory notes of Harel Share Issues. Likewise, an 'ilAA-' rating was affirmed for tier-2 and tier-3 capital issued by Harel Share Issues as part of the Series 2-7 bonds, and an 'ilAA-' rating was affirmed for additional tier-3 capital in the amount of NIS 200 million which was raised (on this, see Note 9 below). The rating outlook remained stable.

On July 15, 2013, in view of S&P's revised methodology for rating insurance companies, Maalot S&P announced affirmation of the FSR (Financial Strength Rating) of 'ilAA+' for the subsidiary, Harel Insurance Company Ltd. This announcement also included affirmation of the 'ilAA' rating for promissory notes issued by Harel Insurance and for the Series 1 promissory notes of Harel Insurance Finance and Issues (Harel Share Issues), a wholly owned subsidiary of Harel Insurance. Likewise, an 'ilAA-' rating was affirmed for tier-2 and tier-3 capital issued by Harel Share Issues as part of the Series 2-8 bonds.

7. Reform of management fees of long-term savings product

Further to the information in Note 42 to the Company's financial statements at December 31, 2012 concerning the reform of management fees on long-term savings products, the maximum management fees collected from the provident funds were revised to 1.1% (and they are expected to be revised again to 1.05% on January 1, 2014). Concurrently, the provident fund management companies began to collect management fees from the deposits for some of the accounts. As a result of the foregoing, management fee revenues from provident funds declined, relative to the corresponding period last year, and consequently, the profitability of provident fund activity was eroded .

D. Commitments (contd.)

Based on an economic paper to review the impairment which Harel Insurance prepared at September 30, 2012, Harel Insurance reviewed the recoverable amount of the provident activity. Accordingly, it was found that the recoverable amount is higher than the carrying amoun, and consequently, no write-down was required in Harel Insurance's books.

Implementation of the reform affects on-going profits and the embedded value (EV) in respect of new life insurance policies that are sold by Harel Insurance.

8. Transaction with the Lloyd's syndicate Broadgate

On December 24, 2012, the Company's Board of Directors and the Board of Directors of Harel Insurance approved the renewal of the contract with Lloyd's Broadgate syndicate for the 2013 underwriting year. Harel will continue to share 10% of Broadgate's insurance portfolio in 2013. According to the business plan presented Harel Insurance by Broadgate, the expected volume of premiums for the 2013 underwriting year is about GBP 920 million. Accordingly, Harel Insurance's share is expected to be GBP 92 million. In the context of the renewal of its contract with Broadgate, Harel Insurance increased the bank guarantee provided Lloyd's by GBP 1.4 million.

On June 28, 2013, based on the results for 2012 and the conditions of the guarantee, Harel Insurance was required to increase the guarantee by an amount of GBP 1.1 million. The total guarantee at September 30, 2013 amounted to GBP 9.3 million. During the Reporting Period, the premium of Harel Insurance amounted to NIS 65 million.

9. Transaction to acquire an office block in Frankfurt, Germany.

On June 26, 2013, Harel Insurance entered into an agreement to make a joint acquisition ("the Investment") of two real-estate assets which are used as office and residential space in the German city of Frankfurt ("the Property"). Harel Insurance has a 35% stake in the Investment. The other rights in the Investment and the Property are held by an Israeli institutional investor (35%) and another Israeli investor (30%) who will also manage the Property. The acquired Property consists of two adjacent buildings, comprising 35,000 sq.m., of which 30,000 sq.m. is office space for rent, and 2,500 sq.m. is residential space for rent, while the rest is commercial and storage space. In addition, the property includes about 350 shops. Current occupancy of the Property is about 97.5%. The total cost of the transaction is EUR 98 million. The acquisition was financed by equity provided by the partners and a bank debt to be provided by a German financial institution, where the partners will together provide equity in the total amount of EUR 31 million. In all, Harel Insurance is expected to invest EUR 11 million in this project.

10. Transaction to acquire an office block in Düsseldorf, Germany

On May 14, 2013, Harel Insurance entered into an agreement to jointly acquire ("the Investment") a real-estate asset which is used as office space, in the German city of Düsseldorf ("the Property"). Harel Insurance has a 45% stake in the Investment. Ashtrom Properties Ltd. will hold 45% of the rights in the Investment and the Property (through a second-tier subsidiary) and it will also manage the Property, while another investor will hold the remaining 10% of the rights. The property to be acquired, subject to meeting the pre-defined conditions, is an office block with 14,720 sq.m. of floor space and consisting of 192 shops, and the entire property is rented out. The total cost of the transaction is EUR 34.5 million. The acquisition will be financed by equity provided by the partners and a bank debt to be provided by a German financial institution, where the equity to be provided by the partners will amount to EUR 13 million. In all, Harel Insurance is expected to invest EUR 5.9 million in this project. The investment is contingent on additional approvals which the seller must provide at the time of completion of the transaction as well as obtaining a waiver from the Düsseldorf municipality regarding the right of refusal which it has under German law. This transaction is not expected to significantly affect the financial results of Harel Insurance. The agreement Completed on June 15, 2013.

D. Commitments (contd.)

11. Reduction of the distribution fees collected from fund managers and subsequent reduction of the management fees collected from unit owners

On April 5, 2013, Joint Investments in Trust (Distribution Fees) Regulations (Amendment), 5773-2013 were published in the Official Gazette, which entered into force on May 5, 2013. Pursuant to the regulations, the maximum rates of distribution fees which distributors who are not investment marketers (mainly banks) may charge fund managers for distribution of a fund, were reduced in line with the fund's maximum level of exposure to shares. Following the entering into force of the regulations and subsequent to an undertaking by the subsidiary, as part of an outline agreed upon with the Securities Authority ("the Outline"), commencing on May 5, 2013 the rate of the management fees which the subsidiary charges the funds that it manages was reduced, in line with the Outline. The effect of the foregoing on the Group financial position, the results of its operations and its cash flows is not significant.

12. Transaction to acquire an office block in Minneapolis, Minnesota.

On April 5, 2013, subsidiaries of the Company that are financial institutions ("the Subsidiaries") entered into agreement with an Israeli institutional investor and an American investor to acquire an office block, classified as a Class A+ building consisting of 51 floors and 130,000 sq.m. of space for rent (about 94% is already occupied), which is situated in the center of Minneapolis, in the US state of Minnesota ("the Property").

The rights were acquired by means of establishing a partnership in which the Company holds 49% of the rights, the additional institutional investor holds 25%, and the American investor holds 26%, and in view of his expertise he will manage the property. The total consideration is USD 277 million. The acquisition will be financed by equity provided by the partners and a bank debt to be provided by an American financial institution, where the partners will together provide equity in the total amount of USD 94 million.

In all, the Subsidiaries are expected to invest USD 46 million in this project.

The investment by the Subsidiaries is contingent on obtaining the bank financing by the date of completion of the transaction and on other standard approvals that the seller must submit on the date of completion of the transaction.

The Subsidiaries entered into the transaction principally using funds from reserves held against yield-dependent liabilities and from provident fund and pension fund portfolios. The transaction is therefore not expected to significantly affect the performance of the Company or the Subsidiaries.

13. Harel Finance Trade

On March 18, 2013, Harel Institutional Trade announced the suspension of its operations, effective from March 31, 2013. The volume of activity of Harel Institutional Trade, which commenced operations on December 1, 2012, is negligible in terms of the Company, so that suspension of its operations does not affect the Company's financial results.

14. Agreement to purchase half the rights in a Raanana property

On January 21, 2013, the Company's subsidiaries that are financial institutions ("the Subsidiaries") contracted with Blue Square Real Estate Ltd. ("BSLR"), to acquire half of BSLR's rights to a property on about 1.1 hectares known as part of plot 4 in block 7657, in the north industrial zone of Raanana ("the Land"). The Subsidiaries and BSLR intend to construct an office block on the Land ("the Offices") which subject to its completion will be leased in advance to a third party for a period of 10 years with an option for five additional years.

In the context of the transaction, the parties signed a purchase agreement, whereby the Subsidiaries will purchase 50% of the rights to the Land from BSLR, and a partnership agreement arranging the relationships between the parties as the joint owners of the Land, including the equal sharing of the Offices planning, erection, marketing, management and operational costs.

D. Commitments (contd.)

The Offices will include about 25,500 sq.m for rental on 16 floors (about ground), and 866 parking spaces. There are additional building rights on the land according to a valid urban plan, which have not been utilized in the first stage. The Subsidiaries are expected to invest NIS 143 million in the project, where 30% is for the Nostro portfolio and the rest is for yield-dependent liability portfolios. The transaction is not expected to materially impact the operational results of the Company and/or the Subsidiaries.

15. Extension of a special reinsurance agreement with National Indemnity

On January 3, 2013, Harel Insurance renewed its exclusive Quota Share reinsurance treaty with the National Indemnity Company (NICO), which is a leading company in the insurance segment of Berkshire Hathaway. According to the Quota Share reinsurance agreement, originally signed in December 2008, NICO reinsures 20% of the retention in all general (non-life) insurance sectors (but not healthcare and life assurance), including the liability branches of the Harel Group. The agreement applies to all the insurance business recorded from January 1, 2009.

16. Atidit Pension

Pursuant to several corrections which were made in the financial statements of Atidit Pension mainly related to an actuarial deficit in the rights of the fund members in early periods, comparison figures were restatement. Consequently, on December 9, 2012, the Commissioner appointed a special supervisor for the fund under Section 68(A)(4) of the Supervision of Financial Services (Insurance) Law, 1981. The special supervisor function by virtue of the powers conferred upon him in Section 71 of the aforementioned law and review a range of activities by Atidit in various sectors. On October 31, 2013, the Commissioner announced that the special supervisor finish his work, and announced the termination of the special supervisor. Atidit works to amend these issues. The restatement in the financial statements of Atidit and the actuarial deficit of Atidit does not affect the financial results of LeAtid or the Company, given that the Pension Fund's assets are not included in the financial statements of LeAtid or the Company.

17. EMI

On November 1, 2012, the Bank of Israel issued a directive limiting the financing rates (LTV) of residential loans, to be applied to loans that have been approved in principle commencing from November 1, 2012 and thereafter. The new directive is a continuation of previous measures introduced by the Supervisor of Banks in the residential credit market. The directive stipulates that a banking institution may not approve a residential loan (mortgage) with LTV rates of more than 70%, except for residential loans intended for purchasing the borrower's only residential unit, which may enjoy LTV rates of up to 75%. The directive also prohibits banking corporations from approving loans intended for the purchase of apartments for investment purposes at LTV rates of more than 50%.

During the Reporting Period EMI recorded a new premium of an insignificant amount and it is not expected to record any significant premium as long as the provision remains in force. The format of EMI's operations was adjusted to the existing scope of activity, at the same time continuing to deal with policies which are in force and maintaining the company's ability to resume underwriting and policy issue activity.

In view of the profit recognition mechanism described above, and with consideration for the need to adjust the expected volume of activities, the impact on the current profitability of EMI in the near future is not expected to be material.

18. Group LTC policy for members of Clalit Health Services HMO via Dikla

On the basis of a 1998 agreement, Dikla provides group LTC insurance to customers of Clalit Health Services ("Clalit") who chose to join the LTC Insurance plan ("Supplementary LTC Plan"). The Supplementary LTC Plan is organized so that most of the insurance risk is covered by the Plan's reserves rather than the insurer. The policy is extended from time to time, and at the date of this report it is in force until December 31, 2014, at which time Clalit has the right to terminate the agreement by giving 60 days' notice.

- 1. Management's policy is to maintain a stable capital base in order to safeguard the Group's ability to continue operations so as to be able to achieve yields to its shareholders and in order to support its future business operations. The institutional bodies, the management companies, are consolidated in the financial statements and the mutual funds subject to regulatory capital requirements.
- 2. The following is data regarding the required and existing capital of the subsidiaries which are insurance companies according to Supervision Regulations of Insurance Businesses (Minimum Shareholders' Equity required from an Insurer) 2004 (hereinafter: "the Capital Regulations") and the Supervisor's directives:

- 2. (contd.)
- * On October 24, 2011, Harel Insurance received the Commissioner's approval to reduce its minimum required equity due to the balance of the original difference attributed to the management companies and provident funds, as defined in Article 5 of the Capital Regulations, by 35% of the balance of the original difference, as of the financial report at December 31, 2011. Notwithstanding the aforesaid, the approval received by Harel Insurance also stipulated that this reduced amount shall be added to the calculation of the required equity ("Supplement to the Required Equity") for the purpose of distributing a dividend on September 15, 2013 Harel Insurance received an update to the aforesaid approval, whereby for the purpose of the distribution of dividends, the amount of the reserve for tax accrued by Harel Insurance on account of the acquisition of the provident fund activity will be deducted from the supplement to the required equity.

The Commissioner's approval will be cancelled when the capital requirements according to the first pillar of the Solvency II directive takes effect, which will replace the Capital Regulations. This reduction, which is included in the calculation of the capital required of Harel Insurance, amounted to NIS 150 million at September 30, 2013.

- b. The capital requirements of assets for a total value of NIS 701 million in Harel Insurance and NIS 40 million in Dikla, which were rated in an internal rating was determined in accordance with the capital requirement which is consistent with their defined rating level, based on the internal rating plus 50% of the difference between the capital requirement for the aforesaid rating and the capital requirement for unrated assets. The capital requirements for these assets aggregated a total amount of NIS 34 million in Harel Insurance and an amount of NIS 2 million in Dikla. Regarding the capital requirements in connections with the internal rating, see Note 7 to the financial statements
- c. In June 2013, Harel Insurance acquired additional Excess of Loss reinsurance cover for earthquakes which protects the retention of Harel Insurance, so that for the period June 2013 December 2014, the self-retention of Harel Insurance will be reduced from NIS 87 million to NIS 14 million. Due to this reduction, the equity that Harel Insurance is required to hold was reduced by NIS 73 million.
 - d. A capital requirement at a rate of 0.17% of the amount at risk in the self-retention, but no less than the requirement on the date of the transfer. The capital requirement for Harel Insurance is for an amount of no less than NIS 190 million.
 - e. Including an unrecognized assets in an insignificant amount, in respect of a passive exceeding, which was not approved in the investment regulations the holding of an asset in a foreign country which was unapproved.
 - f. Apart from the general requirements that appear in the Companies Law, the distribution of a dividend out of the capital surpluses in insurance companies is also subject to liquidity requirements and compliance with the regulations in respect of the manner of the investment.
- 3. Subject to the existence of certain circumstances, as detailed below, the Company has undertaken, within the framework of the license that was granted to it by the Commissioner, for the control over subsidiary companies that are financial institutions (insurers, management companies of provident funds and pension funds) to complete the capital of the financial institutions, up to the sums detailed below. In respect of Harel Insurance the obligation is to top-up the shareholders' equity that is required of the consolidated insurance companies up to 50% of the shareholders' equity that is required in accordance with the regulations, but in no event more than NIS 537 million (linked to the index that was published in June 2006), in respect of Dikla up to NIS 65 million (linked to the index that was published in June 2006), in respect of EMI up to NIS 45 million (linked to the index that was published in October 2009). The commitment is in force so long as the Company is the controlling interest in the insurance companies and it will only be exercised if the shareholders' equity of the insurance companies becomes negative. Moreover, the Company, together with Euler Hermes, has made a commitment in connection with the topping up of the required shareholders' equity of the affiliated company ICIC. Regarding subsidiaries that are managing companies of provident funds and pension funds, their obligation is to complete the necessary equity in accordance with the equity regulations that will apply from time to time. As of the date of these financial statements, the institutional bodies in the Group are in compliance with the capital regulations.

4. On February 16, 2012, Control of Financial Services (Provident Funds) (Minimum Equity Required of a Provident Fund or Pension Fund Management Company) Regulations, 5772-2012, were published. The regulations prescribe that the initial equity required of a management company shall be NIS 10 million, and the minimum equity required of a management company at the date of the report (annual and quarterly) shall be no less than the higher of the following amounts:

(a) The initial capital required is NIS 10 million; (b) The aggregate amount of: 0.1% of the assets under management up to a maximum limit of assets under management of NIS 15 billion, 0.05% of the assets under management above the aforementioned limit, and 25% of the annual managed expenses.

Pursuant to the capital regulations, a management company will be obligated, up to the publication date of the financial statements, to increase its equity in respect of the difference between the equity required immediately prior to the amendment and the equity required under the Capital Regulations ("the Difference"). The difference will be calculated for the entire period of the financial statements. The equity will be increased on the following dates and at the following rates:

Up to publication of the financial statements at March 31, 2012 - at least 30% of the difference;

Up to publication of the financial statements at December 31, 2012 - at least 60% of the difference;

Up to publication of the financial statements at December 31, 2013 - at least 80% of the difference;

Up to publication of the financial statements at December 31, 2014 - the difference must be made up in full.

At the date of publication of the financial statements, the Group's management companies are in compliance with the relevant capital requirements.

To enable the subsidiaries of Harel Insurance that are pension fund management companies to comply with the requirements in the regulations, in June 2013 a loan in the amount of NIS 10 million was provided to Harel Pension.

- 5. On June 4 2012, the Knesset Finance Committee approved the Control of Financial Services (Provident Funds) (Investment Rules that apply to management companies and insurers) Regulations, 2011. Article 33 of the Investment Regulations concerning "Control and Holding the Means of Control by an Insurer", prescribes, inter alia, capital requirements with respect to an insurer's holdings in management companies. Most of the reduction in the equity required from the Group's pension fund management companies will also reduce the equity required of Harel Insurance. Commencing from application date of the Regulations, half of the deferred acquisition costs of the management companies that are created from that date will create a capital requirement for Harel Insurance. The second half may be held against loans or capital surplus only. The new Investment Regulations came into force in July 2012.
- 6. In the context of the Commissioner's approval of Harel Insurance acquisition of provident fund activities, it was agreed that the amortized balance of the acquisition costs will be added as a capital requirement and presented in the assets and liabilities report against the minimum equity. See Section 2 above in regard to the benefit received for this.
- 7. On July 7, 2013, the Commissioner gave permission to Harel Insurance, that within the context of the use of the internal credit rating model which it developed, Harel Insurance may reduce 50% of the equity allocation required for adjusted loans, which were rated according to the internal model. Accordingly, the capital requirement for the loans provided by Harel Insurance and Dikla, which were rated according to an internal rating, was reduced by NIS 28 million at September 30, 2013.
- 8. On February 13, 2013, the Commissioner's approval was received regarding the equity requirements for Harel Insurance Company Ltd. for the acquisition of the life insurance segment from Eliahu Insurance Company Ltd. (see Note 43 below for additional details relating to the acquisition of the life insurance segment from Eliahu). Accordingly, the equity requirement will be calculated as follows: (a) the acquisition cost less the expected tax benefit capitalized to the time of purchase. The present value of the tax benefit is estimated at about 30% of the acquisition cost; (b) the ordinary capital requirements arising from the acquired portfolio under the Capital Regulations (Reserve for extraordinary risks, investment assets and operational risks). The total capital that Harel Insurance, as to the acquisition date, for said transaction, sums up to approximately NIS 260 million. This requirement will be lessened in the future, in line with the amortization of the acquisition cost which is amortized in accordance with the future profit embedded in the acquired activity.

- 9. On November 13, 2011, the ISA published a document "Principles of the model for the supervising index-linked certificates" that examines the supervisory model put forward by the ISA with respect to the method in which index-linked certificate companies manage their risks and the implications of the various risks for the allocation of capital required of the company. According to the document, in addition to the impact of the different risks present in the Company's operations on the allocation of the capital it is required to hold, investment standards will also be established (as part of the regulations to be promulgated in Amendment no. 16) for the index-linked certificates, that will limit the existing risks in this regard. After the supervisory model has been approved, and until the subject is regulated as part of Amendment no. 16, the ISA intends to instruct the issuers of index-linked certificates to report their capital allocation to investors according to the parameters in the capital allocation model, by way of applying an "adopt or disclose" obligation. The supervisory model is expected to include the following principles:
 - 1. A requirement to allocate equity in proportion to the actual risk level and the volume of the managed asset starting at NIS 30 million.
 - 2. The market risks will be measured and estimated using the VaR (Value at Risk) model and extreme scenarios.

In addition to the allocation of equity, a series of principles was prescribed which are designed to encourage conservative investment policy by index-linked certificate managers, to be written into legislation and the directives of the Securities Authority. These principles include, among others, the regulation of investment rules for assets used for covering index-linked certificates and reporting rules to the ISA and the trustee, enhancing the status of the watchdogs, and particularly strengthening the position of the trustee, and imposing more obligations relating to authorizations to be given by the board of directors and investment committee, similar to the supervisory regime which applies to mutual funds.

Following application of the model, before its appliance, as above, the equity requirements defined by the model increased from a fixed amount of NIS 36 million, to the sum of NIS 43 million at December 31, 2012 and to the sum of NIS 71 million at September 30, 2013.

At September 30, 2013, Harel Sal is in compliance with the capital requirements derived from the model.

During the Reporting Period, Harel Financial Products issued Harel Sal capital notes in the total amount of NIS 25 million to allow Harel Sal to comply with the capital requirements derived from the high increase in the volume of its assets and operations according to the model - "Main points of the Supervisory Model for Index-linked Certificates".

- 10. Subsidiaries which manage mutual funds and investment portfolios are obligated to hold minimum equity in accordance with the directives of the Israel Securities Authority. The companies work continuously to comply with this requirement. At September 30, 2013, the subsidiaries are in compliance with these requirements.
- 11. The proposed Solvency II Directive ("the Directive") constitutes a fundamental, comprehensive change in the regulations pertaining to guaranteeing the adequacy of the capital of insurance companies. The purpose of the directive is to protect the money of policyholders, to enhance the integration between markets and to increase competition in this sector. The circular on the deployment for Solvency II, which was published in July 2008, is designed to ensure that the insurance companies in Israel make the necessary preparations to implement the Directive. In accordance with the directive's requirement, a steering committee has been established under the leadership of a risk manager responsible for preparing the Company for the implementation of Solvency II. Each quarter, the steering committee and the Board of Directors' committee monitor the Company's preparations for the implementation of the directive.

On September 9, 2012, the Commissioner issued a letter regarding the Israeli solvency regime. In view of concerns implementation of the directive in Europe may be postponed, the Commissioner announced that he will continue to formulate a solvency regime for Israeli insurance companies, which will not adhere to the progress of the process in Europe, but will be based on the principles of the directives with appropriate adjustments for Israel. In the letter, the insurance companies are required to conduct an additional quantitative impact study, IQIS, based on data from the 2011 balance sheet. Additionally, the letter stated that in future the insurance companies must submit regular reports about their solvency according to IQIS and they must also conduct and submit an Own Risk and Solvency Assessment (ORSA) after the Board of Directors has discussed the findings.

On December 17, 2012, the Commissioner issued a directive for the implementation of IQIS, and companies were required to submit by the end of January 2013. The study is in preparation for the first pillar of Solvency II. Data from the study were submitted to the Commissioner of Insurance (in the Ministry of Finance) at the end of January 2013, in accordance with the defined instructions. Before the report was submitted to the Finance Ministry, the results were submitted to and approved by the Company's management and Board of Directors. In September 2013, the Ministry of Finance published feedback on the average market results of the quantitative study.

The Company continues to follow the Commissioner's directives in its deployment to implement the requirements included as part of the tier-2, which focuses on upgrading the risk management system, controls and corporate management. On November 7, 2013, the Commissioner published a draft directive for conducting an additional Quantitative Impact Survey (IQIS) on data for the end of 2012, to be submitted to the Commissioner by the end of January 2014. A requirement for a special report by the external auditor was added to the study. Additionally, several minor changes were added to the directives, compared with the previous study. The results of the study will be submitted to management and to the Board of Directors, and the study will be submitted to the Commissioner in accordance with the deadline in the directive.

12. On December 2011 the Commissioner published a letter extending the validity of the restrictions on dividend distribution, as follows: An insurer may apply to the Commissioner requesting permission to distribute a dividend provided that the ratio of the company's recognized equity to required equity is at least 105%. An insurer with a ratio of recognized equity to required equity, after distribution of the dividend, of at least 115% may distribute a dividend without first obtaining the Commissioner's approval, provided that it informs the Commissioner in advance and submits the documents specified in the letter.

A reduction of the minimum equity required on account of the balance of the original difference attributed to management companies and provident funds will be added to the capital requirement for distribution of a dividend (hereinafter - 'supplement to the required equity) (see also section 2 above).

To obtain the approval, the insurer must submit an annual profit outlook for two consecutive years, a debt servicing plan approved by the board of directors of the company and the insurance company's holding company, a plan of action for supplementing its capital, and a copy of the minutes of the board of directors' meeting at which the distribution was approved.

In addition, the Commissioner sent a letter to managers of the insurance companies concerning the monitoring and management of equity, in an effort to ensure that a procedure is constantly in place for reviewing and monitoring the insurance companies own management, against the backdrop of fluctuations in the financial markets. Pursuant to the letter, insurance companies must report to the Commissioner on the state of their equity situation each month.

At meetings held on March 24, 2010 and June 15, 2010, the Board of Directors of Harel Insurance adopted a policy for management of its equity, based on the principles prescribed in the Commissioner's draft circular from December 28, 2009, concerning a plan of action for management of an insurer's equity.

The equity policy of Harel Insurance comprises a range of provisions that define the method by which it manages its equity and capital surpluses at all times. The various pillars arise from the regulatory environment of Harel Insurance which determines that Harel Insurance will be able to distribute a dividend only after significant equity surpluses have been accumulated and from the aforementioned decisions made by Harel Insurance and Harel Investments whereby Harel Insurance will provide a regulatory equity surplus of at least NIS 150 million. Accordingly, it was decided that, at all times, Harel Insurance will strive to comply with the volume of equity recognized under the Capital Regulations, by an amount that is NIS 150 million higher than the capital requirement applicable to it from time to time, pursuant to the regulations. This means that below this level of equity surplus, Harel Insurance or the Company will take active measures to maintain the said minimum surplus.

- 13. Furthermore, it was decided that reports would be submitted to the Board of Directors from time to time regarding compliance with the capital requirements and regarding developments that may affect Harel Insurance's compliance with the applicable capital requirements. The CFO was appointed as responsible for managing, monitoring, and reporting of capital requirements.
- 14. On March 23, 2010, the Board of Directors of Dikla adopted an equity management policy based on the principles prescribed in the Commissioner's draft circular from December 28, 2009, concerning a plan of action for management of an insurer's equity. Accordingly, it was decided that, at all times, Dikla will strive to meet the volume of equity recognized under the Capital Regulations, at a rate of 105% of the capital requirement that applies to it from time to time, pursuant to the aforesaid regulations. That is, below this rate, Harel Insurance or the Company will take action in order to maintain the minimal aforementioned capital rate. Furthermore, it was decided that reports would be submitted to the Board of Directors from time to time regarding compliance with the capital requirements and regarding developments that may affect Dikla's compliance with the applicable capital requirements. The CFO was appointed as responsible for managing, monitoring, and reporting of capital requirements.
- 15. On September 12, 2013, the Board of Directors of EMI adopted an equity management policy. Accordingly, it was decided that, at all times, EMI will strive to meet the volume of equity recognized under the Capital Regulations, by an amount that is NIS 30 million higher than the capital requirement that applies to it from time to time, pursuant to the aforesaid regulations. That is, below this rate, EMI or Harel Insurance or the Company will take action in order to maintain the minimal aforementioned capital rate. This policy was prescribed taking into account the limited nature of EMI's operations, as well as various scenarios of investment losses, characteristics of the insurance risk and an increase in the rate of surrenders and claims.
- 16. On March 19, 2013, the Harel Insurance Board of Directors decided to distribute a cash dividend in the amount of NIS 100 million, under the green track. The Board of Directors' decision was made after taking Harel Insurance's results for December 31, 2012 into account. The sum of Harel Insurance's surplus suitable for distribution was presented as of December 31, 2012, and the capital surplus and capital requirements of Harel Insurance were examined in accordance with Harel Insurance's equity management policy. The dividend was paid on April 11, 2013.
- 17. On August 27, 2013, the Board of Directors of Harel Insurance resolved to distribute a cash dividend in the amount of NIS 185 million, on the "green track" (distribution which does not require prior approval from the Commissioner, in accordance with the Commissioner's instructions concerning the distribution of dividends by an insurer). The Board of Directors' decision was made after taking into account the financial results of Harel Insurance at June 30, 2013, the distributable surplus of Harel Insurance at that date was presented, and the capital surplus and capital requirements of Harel Insurance were examined, in line with the equity management policy of Harel Insurance. The dividend was paid on September 3, 2013.

- 18. On November 24, 2013, the Board of Directors of Harel Insurance resolved to distribute a cash dividend in the amount of NIS 100 million, on the "green track" (distribution which does not require prior approval from the Commissioner, in accordance with the Commissioner's instructions concerning the distribution of dividends by an insurer). The Board of Directors' decision was made after taking into account the financial results of Harel Insurance at September 30, 2013, the distributable surplus of Harel Insurance at that date was presented, and the capital surplus and capital requirements of Harel Insurance were examined, in line with the equity management policy of Harel Insurance.
- 19. On September 12, 2013, the Board of Directors of EMI resolved to distribute a cash dividend in the amount of NIS 50 million, on the "green track" (distribution which does not require prior approval from the Commissioner, in accordance with the Commissioner's instructions concerning the distribution of dividends by an insurer). The Board of Directors' decision was made after taking into account the financial results of EMI at June 30, 2013, the distributable surplus of EMI at that date was presented, and the capital surplus and capital requirements of EMI were examined, in line with the equity management policy of Harel Insurance. The dividend was paid on September 17, 2013.
- 20. Due to the shortfall of equity required by Turk Nippon (based on the equity requirements that apply to Turk Nippon as an insurer operating in Turkey), at the end of the second quarter of 2013, on August 27, 2013, the Company's Board of Directors resolved to approve an injection of capital into Turk Nippon in the amount of TRY 8 million (NIS 15 million) to enable it to comply with the capital requirements. The injection of capital took place on September 13, 2013.
 - At September 30, 2013, and after the injection of capital, Turk Nippon has a shortfall of regulatory capital of TL 3.3 million (about NIS 5.7 million) (according to the capital requirements which apply to Turk Nippon as an insurer operating in Turkey). On November 24, 2013, the Company's Board of Directors approve an injection of capital into Turk Nippon in the amount of TL 7.5 million (NIS 13.5 million).
- 21. On August 27, 2013, the Board of Directors of Harel Investments and of Harel Insurance has guidelines for management of the Group's capital and debt. As part of this policy, provisions concerning the following were prescribed: (a) the maximum level of debt for the Group, manner of spread and the use that may be made of the debt, including use as hybrid tier-1 capital for Harel Insurance; (b) the minimum level of liquidity maintained by Harel investments; (c) regarding Harel Insurance, the following key provisions were defined: (i) a minimum capital surplus of NIS 150 million will be maintained, in addition to the capital required according to the Capital Regulations; (ii) the rate of tier-2 and tier-3 capital in relation to tier-1 capital.
- 22. Concerning the raising of tier-3 capital by Harel Insurance during the reporting date, see Notes 9.

Note 9 - Financial liabilities

A. Details of financial liabilities

	September 30 2013		
	(Unaudited)		
	Book Value Fair Va		
	NIS Thousands	NIS Thousands	
Financial liabilities, at amortized cost			
Loans from banks (1)	404,624	404,624	
Loans from non-bank entities (1)	102,761	103,140	
Loans from principal shareholders	902	902	
Short term credits from banks and others	26,849	26,849	
Deferred notes (2)	2,393,529	2,656,373	
	2,928,665	3,191,888	
Financial liabilities at fair value, through profit and loss			
Loans from banks (3)	45,883	45,883	
Derivatives	237,561	237,561	
Short sales	72,973	72,973	
	356,417	356,417	
Total financial liabilities	3,285,082	3,548,305	
Deferred notes, which are second tier capital	2,204,983		

- (1) The loans are for short periods or with variable interest so that their fair value is close to their carrying amount.
- Subordinated promissory notes were revalued to fair value based on the price on the stock exchange at September 30, 2013. The average annual linked interest rates used to determine the fair value of non-marketable promissory notes is 1.8%.
- (3) Harel Financial Products has arbitrage activity that is performed as part of the index-linked certificates assets (see also Section C(1) below). This activity includes the acquisition of contracts in lieu of the sale of underlying assets as well as the acquisition of underlying assets and the sale of contracts on these assets. Acquisition of the underlying assets is financed with bank credit. Harel Financial Products' policy with respect to this arbitrage is to fully hedge the transactions so that there is no exposure to the underlying assets.

Note 9 - Financial liabilities

B. Fair value hierarchy of financial liabilities presented at fair value via profit or loss

The table below analyses financial liabilities carried at fair value. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical instruments
- Level 2: inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly
- Level 3: inputs that are not based on observable market data (unobservable inputs).

Total financial liabilities stated at fair vale through profit or loss	94,192	262,225	356,417		

Note 9 - Financial liabilities (contd.)

C. Additional Information

- 1. Commencing in the second half of 2010, Harel Sal began arbitrage activities in the context of index-linked certificates for the TA-25 Index. These activities are carried out in regard to the index-linked certificates' assets, and include: purchase of contracts in exchange for the sale of underlying assets, acquisition of underlying assets and sale of contracts for such assets. The purchase of underlying assets is financed through bank credit. This is short-term credit, which is periodically renewed according to the activities being carried out. The average cost of credit is a margin of 0.5%-0.8% above the Bank of Israel interest rate. Underlying index-linked certificate assets were pledged to the bank as collateral for its credit. Harel Sal's policy in regard to said arbitrage activities is to fully hedge transactions in a way that avoids exposing underlying assets. At the report date, the balance of financial obligations for said activities is NIS 54 million.
- 2. With regard to the credit facility used by Harel Financial Products for its activities, Harel Financial Products has undertaken to meet the following criteria: (a) equity (as defined in the agreement with the bank) of no less than NIS 12 million. The equity amounted to NIS 71 million at September 30, 2013; (b) not to pledge assets; (c) not to issue loans to controlling shareholders or any other party, except for subsidiaries. At September 30, 2013, the balance of loans and credit taken by Harel Financial Instruments from the bank in the context of this commitment amounts to NIS 27 million.
- 3. A loan taken from a bank by Harel-Pia
- A. On May 9, 2013, Harel-Pia made early repayment of the outstanding loan to the bank in the amount of NIS 31 million. The loan which was repaid is a loan that was provided to Harel-Pia in February 2011, in the amount of NIS 80 million. The loan was repaid from a short-term loan which the Company provided to Harel-Pia. On June 17, 2013 the short period loan was returned to the Company.
- B. In June 2013 Harel-Pia took a bank loan in the amount of NIS 100 million. The loan is for a period of seven years and bears variable interest. The loan principal and interest will be repaid in equal, semi-annual installments, commencing in December 2013.on December 30, 2013 the balance of loans amounts to NIS 95.5 million. The loan was taken to repay capital notes and loans that the Company provided to Harel-Pia. On September 15, 2013, Harel-Pia settled a capital note of NIS 59.5 million to the Company, and furthermore, at the same time, Harel-Pia made early repayment of NIS 5 million to a bank from the principal of the loan. To obtain the credit, Harel-Pia and Harel Finance gave pledges to the bank. Moreover, the loan agreement prescribes financial covenants, which if violated, entitle the bank to demand immediate repayment of the loan. The prescribed financial covenants relate mainly to the volume of revenues from management fees of Harel-Pia and Harel Finance Investment Management, and to the cash flow rate in relation to the debt repayment, and are as follows: (1) an undertaking not to take any additional loans that are not subordinated to the loan; (2) owners loans will not be repaid, except for repayments of up to NIS 100 million by December 31, 2013, this amount paid during the Reporting Period; (3) Harel-Pia shares that are held by Harel Finance are to be placed under lien; (4) current lien; (5) negative lien on the shares of Harel Finance Holdings which are held by the Company; (6) the ratio between annual EBITDA and current maturity shall not be less than 1.2. At September 30, 2013, this ratio was 2.7; (7) Total annual revenues from the management fees of Harel-Pia and Harel Investment Management shall not be less than NIS 230 million. At September 30, 2013, total revenues in annual terms amount to NIS 270 million. Regarding the covenants in sub-sections (6) and (7), provisions were prescribed which provide Harel-Pia with an option of automatic extensions to correct a breach of these covenants, with certain limitations, by making a deposit to be pledged in favor of the bank. Any division and settlement of the loans and/or the capital notes which exceed the amounts in the conditions listed in sub-section (2) require early repayment of the equivalent amount to the bank, and the ratio of annual EBITDA to current maturity shall not be less than 1.3 after the division/settlement.

Note 9 - Financial liabilities (contd.)

C. Additional Information (contd.)

4. Private Issue - Expansion of bond series 6 and 7

As part of the completion of the acquisition of the life insurance segment of Eliahu Insurance by Harel Insurance on January 1, 2013 (for additional details regarding this transaction, see Note 43), the sum of NIS 110 million was paid out of the consideration paid through the issuance of subordinated promissory notes of Harel Issues from Series 6 and 7. Accordingly, a private allocation was made by expanding two bond series, in the amount of 48,326,287 par value (series 6 bonds) bonds registered in name of NIS 1 each, at the price of NIS 113.2 per each NIS 100 par value, and the amount of 49,107,143 par value (series 7 bonds) registered bonds of NIS 1 each, at the price of NIS 112.6 per each NIS 100 par value ("the Bonds (Series 6-7)" or "the Additional Bonds"). In addition, Maalot, the rating company that rates the Bonds (Series 6-7) has certified that the bonds will be rated "AA" according to the prior rating of these series.

At September 30, 2013, the outstanding amount of the promissory notes in series 6-7 is NIS 402 million.

The effective interest rate, after costs of the issuance, of the Series 6 promissory notes is 2.625%. The effective interest rate after costs of the issuance, of the Series 7 promissory notes is 2.773%.

5. Issuance of hybrid tier-3 capital (Series 8) through Harel Finance and Issues

On June 24, 2013, Harel Share Issues issued promissory notes in the amount of NIS 165 million, which will serve as hybrid tier-3 capital for Harel Insurance. The issuance was performed by virtue of a shelf prospectus published by Harel Share Issues in February 2012, as amended in June 2013. The issuance was performed by means of Series 8 - a new series in the amount of NIS 165 million, linked to the CPI and bearing a fixed rate of interest of 2.80%. The effective interest rate, after costs of the issuance, of the Series 8 promissory notes is 2.94%.

The interest for the bonds (Series 8) will be paid every year in two semi-annual installments, on May 31 and November 30 of each calendar year from 2013 to 2024 (until May 2024). The principal will be paid on May 31, 2024, which is the final settlement date for the series.

Given that this is hybrid tier-3 capital, even when delaying circumstances are present, the interest payments will be made as normal up to the original settlement date of the principal. A principal payment that is deferred will be postponed until the delaying circumstances are no longer present, and at most for a period ending three years from the original settlement date of the bond principal. Additionally, given that according to the provisions of the law regarding the composition of an

insurer's equity, two years before the final settlement date of the bonds the recognition of the bonds as hybrid tier-3 capital held by Harel Insurance is amortized at a fixed declining rate (50% each year), the bonds include a condition whereby Harel Share Issues may make early repayment of the bonds or part thereof, and this two years before the original settlement date. The exercising of this right is subject to meeting one of the following conditions: (a) obtaining the Commissioner's approval; or (b) Harel Insurance must have surplus capital so that the recognized capital after the repayment is 120% of the required capital; or (c) concurrent with the early repayment, Harel Share Issues will issue a capital instrument of the same or superior quality.

If Harel Share Issues does not exercise its right to early repayment, additional interest will be paid to the bond holders at a rate of 30% of the original risk margin, as defined in the issuance.

For the purpose of this issuance, on June 9, 2013, Standard & Poor's Maalot ("Maalot") published an AA- rating for the Series 8 bonds.

Note 9 - Financial liabilities (contd.)

C. Additional Information (contd.)

6. As part of the ETF activity, the subsidiary performs equity swaps on share indices abroad and in Israel, and on components of the indices. The equity swaps are performed in accordance with a document of principles for ETF activity in swap transactions issued by the ISA and adopted by the Company in February 2012. At September 30, 2013, the subsidiary is in compliance with the provisions of the instruction.

7. Private placement - expansion of Series 7 bonds

On May 18, 2012, Harel Share Issues entered into agreement for the private placement of Series 7 bonds in the amount of NIS 35 million. The private placement was made by way of an expansion of Series 7 which was first issued according to a shelf offering report dated April 4, 2012, presented according to a shelf prospectus of the Company from February 27, 2012 as amended on July 18, 2013. Accordingly, the private placement was made by way of an expansion of Series 7 bonds in the amount of 32,113,450 par value registered in name, each of NIS 1, at a price of NIS 109.3 for every NIS 100 par value. The proceeds of the placement will serve as hybrid tier-3 capital held by Harel Insurance.

The effective interest rate, after costs of the issuance, of the Series 6 promissory notes is 3.310%.

8. Loan received by the Company from Financial Institution

In March 2013, the Company received a loan in the amount of NIS 100 million from a financial institution and associated financial institutions.

The loan was issued for a period of six years. It is linked to the CPI and bears a fixed interest rate. The principal will be paid in six unequal installments commencing from the end of the first year following receipt of the loan: about NIS 3.3 million annually during the first three years, then NIS 30 million during each of the fourth to sixth years.

The loan includes conditions whereby when certain events take place (significant change in the rating of Harel Insurance, financial ratios, etc.), the annual interest rate will be updated or a deposit will be made in favor of the lender.

The financial criteria established were: (a) ratio of the Company's separate financial debt to the investment rate in investees - 0.26 (at September 30, 2012, this ratio was less than 0.1); (b) ratio between the Company's own financial debt and its equity - 0.3 (at September 30, 2012, this ratio was less than 0.1); (c) a minimum rating of A- for Harel Insurance (on the report publication date, the rating was AA+); At September 30,2013, the Company is in compliance with the aforementioned financial covenant.

9. For information in connection with the financial covenants for significant loans from banks which the Company took, see Note 26 to the annual financial statements. At September 30, 2013 the Company is in compliance with the financial covenants which were determined.

Note 10 - investment property for yield-dependent contracts

A. Fair value compared with book value

The book value (carrying amounts) of financial assets and liabilities for yield-dependent contracts corresponds with or is close to their fair value, excluding assets and liabilities for yield-dependent contracts presented by the provisions of circular 2-9-2009 in an adjusted cost. The book value of these assets at September 30, 2013 is NIS 431,932 thousand whereas the fair value of these assets at September 30, 2013 is NIS 468,816 thousand.

B. Fair value hierarchy of financial assets

The table below analyses the assets held against insurance policies and investment contracts carried at fair value by way of profit or loss. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly.

Level 3: inputs that are not based on observable market data (unobservable inputs).

D. The interest rates used to determine the fair value of non-marketable debt assets

The fair value of non-marketable debt assets measured at fair value by way of profit or loss and of non-marketable financial debt assets, where information about the fair value is given for explanatory purposes only, are determined by discounting the estimated cash flows they are expected to produce. The discounting rates are based on an allocation of the negotiable market into deciles consistent with the yield to maturity of the debt asset, and determining the position of the non-marketable asset according to the deciles, and this in accordance with the risk premium stemming from the prices of transactions/issues on the non-negotiable market. The price quotes and interest rates used for the discounting are determined by "Mercah Hogen" which operates a database of price quotes and interest rates for financial institutions for revaluation of non-marketable debt assets.

D. The interest rates used to determine the fair value of non-marketable debt assets

Regarding the interests rates used to determine the fair value of non-marketable debt assets, see Note 10D.

Note 12 - Subsequent events during the reporting period

1. amendment to Section 49 of the Funds Law and Regulation 41 to the Joint Investments in Trust (Report on a Joint Investment)

In September 2013, as part of the preparations for Amendment no. 21 to the Funds Law, the Israel Securities Authority [ISA] published a proposal for comments from the public on an amendment to Section 49 of the Funds Law and Regulation 41 to the Joint Investments in Trust (Report on a Joint Investment) Regulations ("the Proposed Regulations"). In accordance with the explanation to the Proposed Regulations, Section 49 of the Funds Law will be amended within the context of Amendment no. 21 to the Funds Law, so that a portfolio manager who is part of the group of companies to which the fund manager belongs ("associate portfolio manager"), who holds 25% or more of the net value of the fund's assets for his customers, will be considered an "associate entity" and various obligations and limitations will apply to the fund manager who belongs to the group of companies to which the associate portfolio manager belongs ("associate fund manager"), who manages such an "associate fund". These obligations and limitations include that the fee paid to the fund manager for the fund will not exceed the average rates paid to the fund manager for all the funds of that class that he manages, and the fund supplement will not exceed the average supplement rates in any of the funds that he manages ("the proposed amendment").

The Association of Mutual Fund Managers strongly opposes the proposed amendment and it has sent its comments to the ISA. At the date of the report, no response to these comments has yet been received from the ISA. Insofar as such provision is passed, it is expected to have a negative effect on the Group's performance.

2. Investment in tracker funds of Harel Finance

On August 29 2013, the boards of directors of subsidiaries of the Company that are financial institutions approved investments in Harel Finance tracker funds, in which the management fees are 0% of a total volume of up to 1% of a fund/flexible track, with a limitation of up to NIS 100 million in each fund/track.

3. Benefits received by the Group's employees and its principal shareholders (including officers and controlling shareholders) on the purchase of the Company's products

In accordance with the procedure for transactions with associate entities of the Company and its subsidiaries, on August 18, 2013 and August 27, 2013, the Audit Committee and Board of Directors of the Company (respectively) approved the categories of benefits that all Company employees will receive when purchasing Group products, and these benefits will be deemed negligible and will not require the individual approval of the Audit Committee or Board of Directors for engagements between the Group's and the Company's principal shareholders. The conditions of the approved benefits are those that are currently given to all the Group's employees in the normal course of business, and they are generally accepted market conditions.

4. circular concerning a ruling in principle with regard to management fees that were increased without giving advance notice

On August 27, 2013, the Commissioner published a circular concerning a ruling in principle with regard to management fees that were increased without giving advance notice ("the Ruling"). The Ruling concerns the restitution of management fees to members, in those cases where the management fees were increased without prior notice, as required in Regulation 53B(a) of the Income Tax (Rules for the Approval and Management of Provident Funds) Regulations, 1964 ("the Regulation").

According to the Ruling, no later than January 1, 2015, management companies must review all the accounts in which management fees were increased during the period commencing January 1, 2006 and ending December 31, 2009 ("the Restitution Period"), and it must refund any excess charges to members from whom management fees were collected not in accordance with the Regulation, and who are not covered by one of the exclusions mentioned in the Ruling. Financial institutions are exempt from conducting an individual review and from refunding money in certain cases, inter alia, where management fees on members' accounts were determined by agreement or according to an arrangement between the management company and the employer or a workers' union and where the provident fund was managed by a management company owned by a bank during the restitution period. Financial institutions are exempt from refunding money in certain cases, inter alia, where the member was informed of the rate and period of the benefit, and where the fees were increased after notice was submitted to the member, and the company has documentation of the notice;

The financial institutions that are part of Harel Group are in the process of preparing a work plan in accordance with the provisions of the Ruling and they have made reasonable provision in the management companies' books in relation to the Ruling.

5. Dividend distribution by Harel Investments

On August 27, 2013, the Company's Board of Directors resolved to distribute a dividend in the amount of NIS 255 million (NIS 12 per share). Following a split of the Company's equity that took place on September 8, 2013, as detailed in the Note below, and subsequent to the options that were exercised before the Effective Date, the final price of the dividend was revised to NIS 1.199 per share. The Board of Directors made its decision after taking into account the Company's results at June 30, 2013. The Board of Directors was presented with information on the distributable profits, capital surpluses of the subsidiaries, the Group's cash requirements, in various scenarios. The Board of Directors reviewed the Company's compliance with the profit test and the solvency test prescribed in Section 203(A) of the Companies Law. Following this review, the Board of Directors confirmed the Company's compliance with the distribution test. The dividend was paid on September 30, 2013.

6. Approval of the compensation policy, as per Amendment 20 to the Companies Law.

On July 15, 2013 and July 17, 2013, the Compensation Committee and Board of Directors, respectively, approved a compensation plan for senior officers of the Company, in line with Amendment no. 20 to the Companies Law. The compensation policy will also serve as a guideline for the Company's subsidiaries, with the relevant changes. On August 22, 2013, the compensation policy was approved by the general meeting of the Company's shareholders.

During the Reporting Period, the Board of Directors of Harel Finance, a wholly owned subsidiary of the Company, approved a compensation policy for the officers of Harel Finance and its subsidiaries, based on the principles of the Company's compensation policy. The compensation policy of Harel Finance was presented to the Company's Compensation Committee at a meeting held on October 23, 2013.

On November 24, 2013, the Board of Directors of Harel Insurance approved a revised compensation policy for Harel Insurance and its subsidiaries, that are financial institutions, with the purpose of ensuring that the compensation policy is consistent with the principles defined in the parent company's compensation policy. In this context, parameters were revised for determining the annual bonus for senior officers of Harel Insurance, and revised parameters were prescribed for the investment managers, the discretionary component of the annual bonus was reduced to 20%, and threshold conditions and a comprehensive budget limit were prescribed for all the bonuses for senior officers.

7. Revised employment conditions for Co-CEOs

On July 15, 2013, July 17, 2013, and August 22, 2013, the Compensation Committee, Board of Directors, and the general meeting of the Company's shareholders, respectively, approved revised employment conditions for Mr. Michel Siboni, Co-CEO of the Company and Mr. Shimon Elkabetz, Co-CEO of the Company. The principal revisions to the employment conditions are:

For Mr. Michel Siboni - approval of 150% severance pay (50% more than that required by law) for the period from the commencement of his employment for the Group until July 2009 (according to Michel Siboni's present employment agreement, he is entitled to 200% severance pay for the period from July 2009, when he was appointed CEO of Harel Insurance); the salary component which does not entitle him to provision for pension or social benefits was set at NIS 1 million per year; the parameters which are used to determine the annual performance-linked bonus were revised, in line with the Company's compensation policy.

For Mr. Shimon Elkabetz - approval of 150% severance pay (50% more than that required by law) for the period from the commencement of his office in the Group, to be calculated in respect of the monthly compensation component corresponding with the on-going salary he would be paid if he was employed as a salaried employee (62% of the monthly management fees); parameters were defined for calculating the entitlement to an annual performance-linked bonus, in accordance with the Company's compensation plan; increase of the adjustment bonus from 3 to 6 months.

Additionally, at the aforementioned dates, the Compensation Committee and the Board of Directors approved an annual bonus for Shimon Elkabetz for 2012. Given that on the date of payment of the bonuses for 2012, Mr. Elkabetz was not covered by a compensation plan which includes quantitative parameters for computing the bonus, but the bonus was at the discretion of the Board of Directors, Mr. Elkabetz could only be paid a guaranteed bonus of NIS 500,000. The Board of Directors therefore resolved that the bonus will be paid after the compensation policy is approved and in accordance with the parameters to be defined in the compensation plan. Accordingly, the Compensation Committee and the Board of Directors approved payment of a bonus for 2012, on the basis of some of the parameters which were defined in the compensation plan that could be applied to the results of operations in 2012, in the amount of NIS 1.38 million (not including the amount paid in March 2013 as a guaranteed bonus).

8. Equity split and amendment to Section 10 of the Company's Articles of Association

At a special general meeting of the Company which took place on August 22, 2013, a resolution was passed to split the registered share capital (including the Company's issued and paid-up capital) so that each NIS 1 par value share of the Company was split into 10 ordinary shares of NIS 0.1 par value. Accordingly, the number of shares in the registered share capital of the Company will increase to 500,000,000 ordinary shares each of NIS 0.1 par value without any change in the total registered share capital in shekels.

Accordingly, an amendment to Section 10 of the Company's Articles of Association was approved which specifies the registered share capital and the par value of each share.

9. Purchase of a residential building in Manhattan, New York, USA.

On September 3, 2010, Harel Insurance entered into an agreement to purchase a residential building in Manhattan, in the US city of New York ("the Building"). The building was acquired by Harel Insurance together with a local entity that specializes in investments in residential real-estate in the US ("the local entity"), which is responsible for managing and operating the building through a property management company ("the Property Management Company"), where each party indirectly holds 50% of the rights in the building. The total cost of the transaction was USD 20.5 million, of which the share of Harel Insurance amounted to USD 4 million as equity and USD 12.5 million was a debt against a first lien on the building ("the loans"). On July 27, 2013, the Property Management Company entered into agreement to sell the building for USD 27.15 million, reflecting a 32% increase in the value of the building. The proceeds of the sale will be used to repay the loans to Harel Insurance, and the balance will be divided according to the partnership agreement between the partners.

10. Agreement with an architect

In January 2011, the Company entered into agreement to obtain architectural services from Mr. Miki Kornhauser, who is the brother-in-law of Mr. Yair Hamburger, the controlling shareholder and Chairman of the Board of Directors of the Company. As part of the agreement, Mr. Kornhauser provides on-going architectural services to the Company and its subsidiaries in various projects undertaken by the Company. In consideration of the aforementioned services, the Company pays Mr. Kornhauser fixed monthly consideration of NIS 70,000 plus VAT (against an invoice). The agreement stipulates that it will be extended automatically for an additional year each time, unless either party gives notice that it does not wish to renew the agreement. The agreement also stipulates that it may be terminated by giving 60 days advance notice at any time.

On July 14, 2013 and July 17, 2013, the Company's Audit Committee and Board of Directors, respectively, approved an amendment to the agreement whereby the period of the agreement will be until December 31, 2015. It is stipulated that the provision in the agreement allowing either party to terminate it by giving 60 days advance notice, remains in force. For the sake of caution, all the conditions of the agreement were re-approved.

11. Agreement to acquire rights in the Ir Yamim mall

On July 4, 2013, a transaction was completed in which Harel Insurance and Dikla entered into agreement to acquire all the rights of a second-tier subsidiary of Azorim Investment in Development & Construction Ltd., Shikun U'Pituach LeIsrael Ltd. ("Azorim"), in land and a mall in Netanya's Ir Yamim neighborhood. Consideration for the asset is NIS 390 million CPI-linked.

The transaction is mainly for yield-dependent policies which are managed by Harel Insurance and Dikla, and the transaction is therefore not expected to affect the financial results of Harel Insurance and Dikla or the Company.

12. Highway 6

A special-purpose partnership, T.S.I. Roads L.P. ("TSI Roads"), which was established by the Israel Infrastructures Fund ("IIF" - "Infrastructures Fund") and which at the end of 2010 acquired 50% of the shares of Derech Eretz Highways (1997) Ltd. (25.5% full diluted), owner of the concession for Highway 6 ("Derech Eretz"), entered into an amended agreement on December 23, 2012 with Property & Building Ltd. ("P&B") to acquire all the holdings of P&B in Derech Eretz, including the owners loans which P&B provided to Derech Eretz ("the Transaction").

After meeting the suspensive conditions for completion of the Transaction, including obtaining the State's approval and approval from the entities which finance Derech Eretz, the Transaction was completed on July 4, 2013 and TSI Roads acquired from P&B all its holdings in Derech Eretz (25.5% fully diluted). As part of the Transaction, subsidiaries of the Company that are financial institutions ("the Subsidiaries") made a further investment of NIS 350 million in TSI Roads, in addition to other investments made by other limited partners in TS Roads, each pro rata to its share of TS Roads. Subsequent to completion of the Transaction, the Subsidiaries hold 46%, directly, of the rights in TSI Roads.

13. Reinsurance for the comprehensive pension fund - Harel General Pension

By virtue of an agreement signed between Harel Insurance and Harel Pension, commencing in July 2013 Harel Insurance provides reinsurance cover, on a proportional basis at a rate of 95%, for the liabilities of the comprehensive pension fund Harel General Pension, in respect of insurance cover for death or disability events which are covered in accordance with the pension fund's articles. This reinsurance is provided with the purpose of obtaining the Commissioner's approval to operate a comprehensive pension plan by Harel General Pension.

14. Agreement for professional liability insurance for Hadassah Hospital

On June 24, 2013, the Company's Audit Committee and Board of Directors approved an agreement for professional (medical) liability insurance for the activity of Hadassah Hospital (on both campuses) and for the private practice of its doctors (mainly within the framework of the Private Medical Services), after the Audit Committee had determined that the agreement is not irregular given that it is part of the normal course of the Company's business and was made at market conditions.

Ms. Esther Dominissini, who is an external director of the Company, was chairs the Board of Directors of Hadassah. The agreement therefore requires the approval of the Audit Committee and Board of Directors pursuant to Section 271 or 272 of the Companies Law.

15. Bonus for 2012

A general meeting of the Company's shareholders held on March 5, 2012 approved the employment conditions of Mssrs. Yair Hamburger, Gideon Hamburger, and Yoav Manor, who are directors of the Company and are also its controlling shareholders. Accordingly, Mssrs. Yair Hamburger, Gideon Hamburger, and Yoav Manor (together: "the senior officers who are the controlling shareholders") are entitled to an annual bonus which is determined according to a calculation mechanism that does not include room for discretion, but instead is based on three parameters which compare the Group's results with those of the other large insurance groups. On June 9, 2013, the Company's Board of Directors approved (in a resolution in which the senior officers who are the controlling shareholders did not participate) the results of the calculation of the bonus for 2012, which confirms the reasonability of the calculation. According to the calculation, Yair Hamburger received a bonus in the amount of NIS 1,304,000; Gideon Hamburger received a bonus in the amount of NIS 776,000, and Yoav Manor received a bonus in the amount of NIS 776,000.

16. Monetary sanctions

Pursuant to an audit of Harel Insurance which was conducted by representatives of the Commissioner, on May 9, 2013, Harel Insurance was informed by the joint penalties committee of the Commissioner and the Prohibition on Money Laundering Authority, that a monetary sanction of NIS 200,000 had been imposed on Harel Insurance for breach of the reporting provisions to the Prohibition on Money Laundering Authority regarding isolated events from the years 2010-2011.

17. Distribution of a dividend by Harel Investments

On March 19, 2013, the Board of Directors of the Company resolved to distribute a dividend of NIS 53 million (NIS 2.5 per share). The decision of the Board of Directors was reached after the financial results of the Company for the year 2012 were presented. The distributable profits, capital surpluses of the Company's subsidiaries, and the cash requirements of the Group under various scenarios, were presented to the Board. The Board also examined the Company's net profit criteria and the solvency criteria as prescribed in Section 203(A) to the Companies Law and subsequent to this examination the Board confirmed that the Company was in compliance with the criteria for distribution. The dividend was paid on April 17, 2013.

18. On January 19, 2012 the Board of Directors of the Company and of Harel Insurance resolved to conduct a conversion for salaries by rate of 6.74%, (which is an approximate conversion of the value of the thirteenth salary, on which social benefits re not paid, into a regular wage supplement on which social benefits are paid ("the Update Rate"). Accordingly, in April 2012, the full Update Rate was paid to employees earning up to the average wage in the Israeli economy. Employees and managers earning more than the average wages will be paid the Update Rate gradually until March 2014, based on the wage level of employees.

On January 27, 2013, the Board of Directors of Harel Insurance decided to reduce the spread of the Update Rate so that the outstanding Update Rate will be paid in the salary for March 2013 (instead of March 2014). Regarding employees who earn the average wage in the economy, who have already received the full Update Rate in April 2012, the Board of Directors resolved to provide a special bonus of NIS 5,000 per employee.

Following this decision, the Compensation Committee decided on February 18, 2013 that the change in the date of said wage update will also apply to company officers, since the decision cuts across the board and updates the original decision to convert the thirteenth salary across the board. The Compensation Committee decided that this change is insignificant (it only curtails the time during which the execution of the conversion was delayed) and the decision was therefore applied it to all company officers across the board, according to the authority vested in it under Section 272 (d) of the Companies Law. This decision was approved by the Board of Directors of the Company in its meeting of March 5, 2013.

19. Credit audit

On February 22, 2013, Harel Insurance Company Ltd. ("Harel Insurance") was informed by the Commissioner of Insurance that he had imposed financial sanctions in the amount of NIS 470,000. The financial sanctions were imposed as a consequence of an audit of the credit sector which was conducted in the second half of 2011. The financial sanctions were imposed due to a small number of flaws of a technical nature. In a decision concerning the imposition of the financial sanctions, the Commissioner used the powers conferred on him by law, and reduced the amount of the penalty by the maximum possible amount, in part after determining that the Company had taken action to remedy the aforementioned technical flaws.

20. General meeting

An extraordinary general meeting of the Company on January 30, 2013, passed the following resolutions: (1) reappointment of the Company's auditors; (2) reappointment of members of the Board listed below, who are not external directors, for a further term of office: Yair Hamburger (Chairman of the Board), Gideon Hamburger, Yoav Manor, Yoseph Ciechanover, Liora Kavoras Hadar and Doron Cohen; (3) payment of fixed compensation to Mr. Doron Cohen for his service as deputy chair and chairman of the Yield-dependent Investments Committee (Members) of the Harel Group's financial institutions, and chairman of the Credit Committee of Harel Group's financial institutions. The general meeting approved all the items on the agenda.

21. Issuance of new index-linked certificates

During the Reporting Period, Harel Sal issued 11 series of new index-linked certificates, and after the Reporting Period and up to the publication date of this report, Harel Sal issued 7 series of new index-linked certificates.

- 22. On a raising of a loan in the amount of NIS 100 million from a financial institution, see Note 9.
- 23. Concerning the Issuance of hybrid tier-3 capital (Series 8) by Harel Finance and Issues and the expansion of bond series 6 and 7, see Note 9.
- 24. Concerning the setting of a policy for management of the equity of the Company and Harel Insurance, see Note 8.
- 25. Concerning an increase in corporate tax to 26.5% from January 1, 2014, see Note 6.

Note 13 - Subsequent events after the reporting

1. Acquisition of the Tel Aviv Stock Exchange Building

On November 13, 2013, the Company was awarded a tender published by the Tel Aviv Stock Exchange Ltd. ("TASE") for the sale of the perpetual leasehold rights (999 years) in a building known as the TASE Building at 54 Ahad Ha'am Street, (which occupies part of parcel 20, block 7454), and has 5700 sq.m. of floor space ("the Object of Sale"). The outstanding rights in the building in which the Object of Sale is located are owned by the Company. The consideration, to be paid by the Company on November 27, 2013, is in the amount of NIS 58.35 million, plus VAT. From the date of payment of the full amount of the consideration, the Company will have the legal right of possession of the Object of Sale. The Object of Sale is leased to the Tel Aviv Stock Exchange Ltd. in a rental agreement that is due to end in November 2014. The Company's engagement in the transaction was made with its nostro funds and the company will finance the acquisition from independent sources. This transaction is not expected to significantly affect the financial results of the Company.

2. Establishment of a hedge fund

On October 28, 2013, a subsidiary of Harel Finance filed an application to establish a limited partnership called: Harel Algo Limited Partnership, which will operate as a hedge fund. The general partner in the fund will be a subsidiary of Harel Finance, and initially, the limited partners who are investing in the fund are Harel Investments, which will invest NIS 15 million, and Harel Insurance, which will invest NIS 14.5 million. Harel Insurance will invest only nostro funds, and the investment was approved by the Nostro Investments Committee, the Audit Committee and Board of Directors, as required according to the Investment Regulations. At the date of the report, the hedge fund has not yet commenced operations.

3. agreement with the CEO of Interasco

In December 2010, the Board of Directors of the Company approved an agreement with the CEO of Interasco, whereby subject to meeting targets with respect to Interasco's performance, the CEO of Interasco will be entitled to acquire a cumulative 6% of Interasco's share capital. This right is to be exercised in stages over several years. The acquisition price is 70% of the cost of Harel's investment in Interasco. To purchase the shares, the Company will provide Interasco's CEO with a loan that bears interest at the LIBOR rate. To guarantee repayment of the loan, Interasco's CEO will place a lien on the shares he acquires. According to the conditions prescribed in the agreement, Interasco's CEO will have the right to sell the shares he acquires to the Company, where the sale price will be determined by an external appraiser. Should this option be exercised, the proceeds of the sale of the shares to the Company will be paid to Interasco's CEO by way of a share allocation in Harel Investments, after offsetting the balance of the loan he received from the Company from the price set in the valuation. Should Interasco's CEO terminate his employment for Interasco, the Company may demand that the shares be purchased under the aforementioned conditions. The fair value of the bonus is measured at the time of granting the bonus as per the valuation, and shall be charged as payroll expenses over the vesting period. At the report date, Interasco's CEO has acquired 4.25% of Interasco's share capital in aggregate, and accordingly, at the report date, the Company holds 95.75% of the share capital of Interasco.

4. A.D.O. Group Ltd.

Pursuant to that mentioned in Note 42 D(14) to the Periodic Report, on October 13, 2013, subsidiaries of the Company that are financial institutions and A.D.O. Group Ltd. entered into agreement to bring forward the conversion of a loan that the subsidiaries had provided to A.D.O. for options that are not registered for trade. The options may be exercised for up to to 28,500,000 ordinary shares of A.D.O. from the date of their allocation and up to four years after their allocation date. In addition, the subsidiaries were paid EUR 960,000 for bringing forward the conversion.

- 5. Renewal of a Directors and Officers liability insurance (D&O)
 Pursuant to that mentioned in Regulation 22, Section 4 in the chapter "Additional Information about the Company" in the Periodic Report, on October 6, 2013 and October 7, 2013, the Company's Audit Committee and Board of Directors, respectively, approved renewal of the policy in accordance with the master decision passed by the General Meeting on March 5, 2013, so that the sum insured is USD 150 million. The annual premium amounts to USD 590,000. By virtue of the aforementioned resolutions, the policy was extended and it will be in force for the period ending October 1, 2014.
- 6. Concerning receiving dividend from Harel Insurance, see Note 8.

Harel Insurance Investments and Financial Services Ltd.

Financial data from the interim consolidated statements relating to the Company itself As at September 30, 2013

Somekh Chaikin

KPMG Millennium Tower Telephone: 03-684 8000 17 Ha'arbaa Street, P.O. Box 609 Fax: 03-684 8444 Tel-Aviv 61006 Internet: www.kpmg.co.il

To: The shareholders of Harel Insurance Investments and Financial Services Ltd. 3 Abba Hillel Street, Ramat Gan

Dear Sirs,

Re: Special Auditor's Report on Interim Separate Financial Information pursuant to Regulation 38D of the Securities Regulations (Periodic and Immediate Reports) - 1970.

Introduction

We reviewed the separate interim financial information presented pursuant to Regulation 38d of the Securities Regulations - 1970 of Harel Insurance Investments and Financial Services Ltd. (hereinafter - "the Company") as at September 30, 2013 and for the nine and three months periods ended on that date. The separate interim financial information is the responsibility of the Company's Board of Directors and Management. Our responsibility is to express a conclusion on the separate interim financial information for theses interim periods, based on our review.

We did not reviewed the separate interim financial information from the financial reports of the investee companies, in which the investment in them is NIS 702,384 thousand as at September 30, 2013, and the Company's profit (loss) from the investee companies is NIS 255 thousand and NIS 3,133 thousand to the six and three months periods ended on that date, respectivly. The condensed interim financial information of these companies was reviewed by other auditors, whose reviewed reports were furnished to us, and our conclusion, to the extent that it relates to the amounts included for those subsidiaries, is based on the reviewed reports of the other auditors.

Scope of the review

We performed our review in accordance with Review Standard 1 of the Institute of Certified Public Accountants in Israel "Review of financial information for interim periods performed by the entity's auditor". The review of the separate financial information for interim periods comprises clarifications, mainly with the people responsible for financial and accounting matters, and from adopting analytical and other review procedures. A review is far more limited in scope than an audit performed in accordance with generally accepted auditing standards, and therefore does not enable us to be confident that we will know of all the significant matters which could have been identified in an audit. Consequently, we are not issuing an opinion of an audit.

Conclusion

Based on our review and on the review reports of the other auditors, nothing came to our notice which would cause us to think that the separate interim financial information is not in all material aspects, in accordance with the provisions of Regulation 38d of the Securities Regulations (Periodic and Immediate Reports) - 1970.

Note 1 - Method of preparing the financial information from the Company's consolidated financial statements relating to the Company itself

a. General

The financial information from the consolidated interim statements relating to the Company itself are presented in accordance with Regulation 38D of the Securities Regulations (Periodic and Immediate Reports) - 1970, and do not include all the information required in Regulation 9C and in the details required in the Tenth Addendum of the Securities Regulations (Periodic and Immediate Reports)-1970 regarding corporate separate financial information. The financial information from the condensed consolidated interim statements relating to the Company itself must be read together with the financial information from the condensed consolidated interim statements relating to the Company itself with the condensed consolidated financial statements for December 31, 2012.

b. Definitions

The Company - Harel Insurance Investments and Financial Services Ltd.

Investee companies - Subsidiaries, subsidiaries by proportional consolidation and companies in

which the Company's investment in them is included, directly or indirectly,

in the financial statements by the equity method.

Date of report - Date of the statement of financial condition.

c. Method of preparing the financial data

The separate financial data was prepared in accordance with the accounting principles detailed in Note 1 to the separate yearly financial statements of the Company, excluding the mentioned in Note 2 below.

Note 2 - First implementation of new standards

1. Amendment to IAS 19, Employee Benefits

- Employee benefits will be classified as short or long term depending on when the entity expects the benefits to be wholly settled and will not be classified according to the date the employee will be able to use the benefit.
- All actuarial gains and losses will be recognized immediately through other comprehensive income.
- The interest to be recognized in profit or loss will be calculated on the net balance of the liabilities (the asset) for a defined benefit, according to the discounting rate used to calculate the liability.
- Costs for past services will be recognized immediately, unrelated to the date on which the benefits
 vest

The amended standard will be applied retrospectively, except for the alleviation in relation to discounting costs to assets. Accordingly, the carrying amount of assets outside the application of IAS 19 will not have to be adjusted for changes in costs in respect of employee benefits which were included in the carrying amount prior to the initial date of application.

Following application of the amendment to IAS 19, the Group recognizes actuarial profits and losses by way of other comprehensive income directly to surpluses, instead of to profit or loss. The retrospective application of this standard had no significant effect on the Group's financial statements and the comparison figures were therefore not corrected. Additionally, in the wake of implementation of the amendment to IAS 19, the cost of past services for revising the terms of retirement of the controlling shareholders from December 2011, was recognized retrospectively, as specified below.

At the end of 2011, the salary conditions of the controlling shareholders were approved. On March 2012, the general meeting of the Company approved the mentioned conditions. As part of the approved conditions, approval was also given so that when the employment relationship ends for any reason whatsoever, the controlling shareholders will be entitled to compensation equal to the compensation owed by law. Additionally, approval was given so that subject to completion of a minimum period of employment, the controlling shareholders will be entitled to double severance pay when their employment for the Company terminates. The Company made provision in its financial statements for 2011 and 2012 for obligations for additional several pay for the relative period accrued, and this due to the fact that the additional severance pay is conditional upon a minimum period of employment. During the Reporting Period, based on the amendment to IAS 19, Employee Benefits, the Company made provision for the outstanding amount by way of restatement. For additional information, see also section 3(B) below.

2. Amendment to IAS 1, Presentation of Financial Statements, Other Comprehensive Income

The amendment to IAS 1 changes the presentation of items of other comprehensive income (hereinafter - "OCI") in the financial statements, so that items of OCI that may be reclassified to profit or loss in the future, would be presented separately from those that would never be reclassified to profit or loss.

The Amendment will be implemented retrospectively. The report on comprehensive income during the comparison periods was restated pursuant to the amendment.

For the nine months ended September 30 2012

NIS thousands

Note 3 - Affiliations, agreements, and significant transactions with investees

- 1. On August 28, 2013, an agreement was signed between Harel Investments and Standard. capital note was received from Standard in the amount of about NIS 3 million.
- 2. On September 15, paid Harel Pia the capital note to Harel Investments in the amount of about NIS 59 million.
- 3. For the purpose of financing the acquisition of the mutual fund management company and portfolio management activity of Clal Finance (for additional information about this transaction see Note 5 to the condensed, consolidated, interim financial statements), the Company provided Harel Finance with 10 capital notes each in the amount of NIS 15.5 million, and NIS 155 million in total. The capital notes are not CPI-linked and are without interest, and they are to be repaid on a date to be determined by the Board of Directors of Harel Finance, but not before April 2018. On June 30, 2013 was full repayment of two capital notes granted. On 1 July 2013 an agreement was signed between Harel Investments and Harel Finance which Harel Investments gave to Harel Finance new capital note in the amount of about 5.4 million.
- 4. On July 31, 2013 paid Harel Finance to Harel Investments amount of about 32.3 million for loans given in the past.
- 5. On July 17, 2013, the Board of Directors approved transfer of the investment and hedge fund management activity from Harel Finance Products to the Company in a total sum of USD 25 million. Harel Finance will provide the Company with control and operating services in connection with these investments, in consideration of management fees and success fees.
- 6. On June 17, 2013 Harel Finance repaid Harel Investments loans in the amount of NIS 45 million for loans given to it in the past.

Note 4 - Subsequent events during the reporting period

1. Assignment of a loan from Harel Finance to Harel Investments

On November 30, 2012, Harel Finance entered into an agreement with A-Online Capital (A.O.C.) for the sale of all the holdings of Harel Finance in Harel Finance Trade. Part of the consideration to Harel Finance was paid by means of a loan in the amount of NIS 57 million which Harel Finance provided to A-Online on that date (see Note 42 to the 2012 consolidated financial statements).

On June 30, 2012, Harel Investments entered into agreement with Harel Finance, according to which Harel Finance assigned to Harel Investments all its rights and obligations according to the aforementioned loan agreement, the balance of which on that date was a principal of NIS 25 million.

2. ICIC

On June 3, 2013, a transaction was completed in which the Company and Euler Hermes acquired all the holdings of Bituach Haklai in ICIC. Upon completion of the transaction, the Company and Euler Hermes each hold 50% of the issued share capital of ICIC. The consideration which the Company paid for acquiring half of the shares of Bituach Haklai in ICIC (16.7%) amounts to NIS 62 million. On June 3, the Board of Directors of ICIC resolved to distribute a cash dividend in the amount of NIS 75 million, on the "green track" (distribution which does not require prior approval from the Commissioner, in accordance with the Commissioner's instructions concerning the distribution of dividends by an insurer). Based on the percentage if its holding, the Company received half of the dividend. The dividend was paid on June 19, 2013.

3. Distribution of a dividend

On March 19, 2013, the Board of Directors of the Company resolved to distribute a dividend of NIS 53 million (NIS 2.5 per share). The decision of the Board of Directors was reached after the financial results of the Company for the year 2012 were presented. The distributable profits, capital surpluses of the Company's subsidiaries, and the cash requirements of the Group under various scenarios, were presented to the Board. The Board also examined the Company's net profit criteria and the solvency criteria as prescribed in Section 203(A) to the Companies Law and subsequent to this examination the Board confirmed that the Company was in compliance with the criteria for distribution. The dividend was paid on April 17, 2013.

On August 27, 2013, the Company's Board of Directors resolved to distribute a cash dividend in the amount of NIS 252 million (NIS 12 per share). The Board of Directors made its decision after taking into account the Company's results at June 30, 2013. The Board of Directors was presented with information on the distributable profits, capital surpluses of the Company's subsidiaries, the Group's cash requirements, in various scenarios. The Board of Directors reviewed the Company's compliance with the profit test and the solvency test prescribed in Section 203(A) of the Companies Law. Following this review, the Board of Directors confirmed that the Company was in compliance with the distribution test.

4. On July 30, 2013, the Knesset passed the Law for the Change of National Priorities (Legislative Amendments to Achieve Budget Targets in 2013 and 2014), 5773-2013. As part of the legislation, on January 1, 2014, corporate tax will be increased to 26.5%. The aforementioned change in the corporate tax rate is not expected to have any significant effect on the profit and/or comprehensive income and/or equity of the Company.

5. Loan received by the Company from Financial Institution

In March 2013, the Company received a loan in the amount of NIS 100 million from a financial institution and associated financial institutions.

The loan was issued for a period of six years. It is linked to the CPI and bears a fixed interest rate. The principal will be paid in six unequal installments commencing from the end of the first year following receipt of the loan: about NIS 3.3 million annually during the first three years, then NIS 30 million during each of the fourth to sixth years.

The loan includes conditions whereby when certain events take place (significant change in the rating of Harel Insurance, financial ratios, etc.), the annual interest rate will be updated or a deposit will be made in favor of the lender.

The financial criteria established were: (a) ratio of the Company's separate financial debt to the investment rate in investees - 0.26 (at September 30, 2013, this ratio was less than 0.1); (b) ratio between the Company's own financial debt and its equity - 0.3 (at September 30, 2013, this ratio was less than 0.1); (c) a minimum rating of A- for Harel Insurance (on the report publication date, the rating was AA+); At September 30, 2013, the Company is in compliance with the aforementioned financial covenant.

6. General meeting

An extraordinary general meeting of the Company on January 30, 2013, passed the following resolutions: (1) reappointment of the Company's auditors; (2) reappointment of members of the Board listed below, who are not external directors, for a further term of office: Yair Hamburger (Chairman of the Board), Gideon Hamburger, Yoav Manor, Yoseph Ciechanover, Liora Kavoras Hadar and Doron Cohen; (3) payment of fixed compensation to Mr. Doron Cohen for his service as deputy chair and chairman of the Yield-dependent Investments Committee (Members) of the Harel Group's financial institutions, and chairman of the Credit Committee of Harel Group's financial institutions.

7. Bonus for 2012

A general meeting of the Company's shareholders held on March 5, 2012 approved the employment conditions of Mssrs. Yair Hamburger, Gideon Hamburger, and Yoav Manor, who are directors of the Company and are also its controlling shareholders. Accordingly, Mssrs. Yair Hamburger, Gideon Hamburger, and Yoav Manor (together: "the senior officers who are the controlling shareholders") are entitled to an annual bonus which is determined according to a calculation mechanism that does not include room for discretion, but instead is based on three parameters which compare the Group's results with those of the other large insurance groups. On June 9, 2013, the Company's Board of Directors approved (in a resolution in which the senior officers who are the controlling shareholders did not participate) the results of the calculation of the bonus for 2012, which confirms the reasonability of the calculation. According to the calculation, Yair Hamburger received a bonus in the amount of NIS 1,304,000; Gideon Hamburger received a bonus in the amount of NIS 776,000, and Yoav Manor received a bonus in the amount of NIS 776,000.

- 8. Concerning an agreement with an architect, see Note 12 to the consolidated financial statements.
- 9. Concerning approval of the compensation policy, in accordance with Amendment 20 to the Companies Law, see Note 12 to the consolidated financial statements.
- 10. Concerning an equity split and amendment to Section 10 of the Company's Articles of Association see Note 12 to the consolidated financial statements.
- 11. Concerning revised employment conditions for the Co-CEOs, see Note 12 to the consolidated financial statements.
- 12. Concerning the formulation of an equity management policy by the Company, see Note 8 to the consolidated financial statements.
- 13. Concerning an Agreement for professional liability insurance for Hadassah Hospital, see Note 12 to the consolidated financial statements.

Note 5 - Subsequent events after the reporting period

Concerning renewal of a Directors and Officers liability insurance (D&O), see Note 13 to the consolidated financial statements.

Harel Insurance Investments & Financial Services Ltd.

Report concerning the effectiveness of internal control over financial reporting and disclosure

Quarterly report concerning the effectiveness of the internal control over financial reporting and disclosure as per Article 38g (a):

Under the oversight of the Board of Directors of Harel Insurance Investments and Financial Services Ltd. ("the Company"), management is responsible for defining and maintaining due internal control over the Company's financial reporting and disclosure.

In this instance, management consists of:

(a) Co-CEOs:

Mr. Michel Siboni, who also serves as CEO of Harel Insurance Ltd. and chairman of the boards of directors of the Group's subsidiaries that are financial institutions.

Mr. Shimon Elkabetz, who also serves as chairman of the board of directors of Harel Finance Holdings Ltd., chairman of the board of directors of Harel-Pia Mutual Funds Ltd., chairman of the board of directors of EMI - Ezer Mortgage Insurance Company Ltd. and holds other positions in the Group's companies.

- (b) Mr. Ronen Agassi the Company's CFO, deputy CEO and head of the finance and resources division of Harel Insurance Company Ltd.
- (c) Mr. Sami Babkov CEO of Harel Finance Holdings and CEO of Harel-Pia Mutual Funds Ltd.
- (d) Mr. Avi Keller, CEO of Dikla Insurance Company Ltd.
- (e) Mr. Hanan Fridman, legal advisor to the Cormpany and the Group's companies, deputy CEO of Harel Insurance Company Ltd.
- (g) Mr. Amir Hessel, VP of the Company and manager of the Group's investments, deputy CEO and manager of the investment division of Harel Insurance Company Ltd.

Internal control over financial reporting and disclosure includes the Company's existing controls and procedures that were planned by the general manager and the most senior financial officer or are monitored by them or by the person who actually performs these duties, under the oversight of the Company's board of directors. The purpose of the controls and procedures is to provide a reasonable measure of assurance certainty regarding the reliability of financial reporting and the preparation of the financial statements pursuant to the provisions of the law, and to ensure that the information that the Company is required to disclose in its published reports in accordance with the provisions of the law, is collected, processed, summarized and reported on the dates and in the format prescribed by law.

Among other things, the internal control consists of controls and procedures designed to ensure that the information that the Company is required to disclose, as noted, is accumulated and transferred to the Company's management, including to the CEO and most senior financial officer, or to the person who actually performs these duties, so as to ensure that decisions are made at the appropriate time, with respect to the disclosure requirement.

Due to its inherent limitations, internal control over financial reporting and disclosure may not provide absolute assurance regarding the prevention or detection of misstatements.

Harel Insurance Company Ltd. and subsidiaries of the Company, are financial institutions governed by the instructions of the Superintendent of the Capital Market, Insurance and Savings Division at the Ministry of Finance, regarding the assessment of the effectiveness of the internal control over financial reporting.

With respect to the aforementioned subsidiaries, the Company apply the following provisions:

- Financial Institutions Circular 2010-9-7 from November 2010 "Internal control over financial reporting attestations, statements, and disclosures";
- Financial institutions Circular 2010-9-6 from November 2010 –
 "Management's responsibility for the internal control over financial reporting –
 Amendment" (amendment to Financial Institutions Circular 2009-9-10);
- Financial Institutions Circular 2009-9-10, from June 2009 "Management's responsibility for the internal control over financial reporting";

In the periodical report on the evaluation of effectiveness, which was attached to the periodical report for the period ended in June 31, 2013 ("last periodical report concerning the effectiveness of internal control over financial reporting and disclosure), the internal control found as effective.

Until the date of the report, there was no event, to the knowledge of the management, to change the evaluation of the effectiveness of internal control, as was reviewed in last the periodical report concerning the effectiveness of internal control.

At the date of the report, based on the mentioned in the last periodical report and based on information that was brought to the knowledge of the management and the board of directors, as stated above, the internal control is effective.

Declaration

- I, Michel Siboni, hereby attest that:
- (1) I have reviewed the Periodic Report of Harel Insurance Investments & Financial Services Ltd. ("the Company") for the third quarter of 2013 ("the Reports").
- (2) Based on my knowledge, the Reports contain no misstatement of a material fact nor do they omit any statement of a material fact necessary to ensure that the statements that they contain, in light of the circumstances under which such statements were included, shall not be misleading with respect to the period covered in the Reports;
- (3) Based on my knowledge, the financial statements and other financial information contained in the Reports reasonably reflect, in all material respects, the financial position, results of operations, and cash flows of the Company at the dates and periods covered in the Reports.
- (4) I disclosed to the Company's external auditor, the Board of Directors and the Audit Committee and Financial Reports Committee, based on my most recent evaluation of the internal control over financial reporting:
 - (a) Any significant flaws and material weakenesses in the determination or application of the internal control over financial reporting and disclosure that may reasonably have an adverse effect on the Company's ability to collect, process, summarise or report financial information in a manner that may cast doubt on the credibility of the financial reporting and preparation of the financial reports pursuant to the provisions of the law; and -
 - (b) Any fraud, whether material or immaterial, that involves the general manager (CEO) or any person directly accountable to him or other employees who have a significant role in the Company's internal control over financial reporting and disclosure;
- (5) I, myself or together with others in the Company:
 - (a) Defined controls and procedures, or ensured that controls and procedures are in place under my oversight, to ensure that material information pertaining to the Company, including its subsidiaries as defined in the Securities (Annual Financial Statements) Regulations, 5770 2010, is brought to my attention by others in the Company and in the subsidiaries, specifically during the period in which the Reports are prepared; and -
 - (b) I defined controls and procedures, or ensured that controls and procedures under my supervision are in place, designed to ensure with reasonable certainty that the financial reports are reliable and that they are prepared in accordance with the

- provisions of the law, including in accordance with generally accepted accounting standards;
- (c) No event or matter which took place during the period between the date of the last report (quarterly or periodic, as applicable) and the date of this report was brought to my attention, which may change the conclusion of the Board of Directors and Management in relation to the effectiveness of the corporation's internal control over financial reporting and disclosure.

The foregoing shall not derogate from my responsibility or from the responsibility of any other person, under any law.
